Respiratory Care

Careers that Care

Demand for Respiratory Therapists is on the rise... and so are their salaries! According to the US Department of Labor, this occupation commands an average salary of \$78,680 in California and is projected to grow at a rate of 25% by 2026, almost triple the national average for all jobs.

As a member of an allied health team, Respiratory Therapists provide life-saving support to patients with acute and chronic dysfunction of the cardiopulmonary system. AVC's Associate in Science in Respiratory Care gives students the theoretical knowledge and practical skills they need to successfully pass the Respiratory Care Board of California state licensure exam and quickly enter the workforce.

In addition to boasting a 100% satisfaction rate among graduates, AVC's Respiratory Care program also offers the only NIOSH-approved certificate in pulmonary function in California. If you're looking for an in-demand career that is as fulfilling as it is fast-paced, a career in Respiratory Care might be for you!
