Priorities Identified by Administrative Council & Reviewed at the College Wide Planning Retreat for the 2014-16 EMP:

First priority is Educational Master Plan Goal #4: The College will increase student success in Basic Skills and ESL.

- **This aligns with Board initiative from 2013-14 and each of their initiatives for 2014-15. It is also consistent with statewide SSSP initiative and compliance.**

Second Priority is Educational Master Plan Goal #1: The College as a community will provide students with an environment which supports learning and facilitates student success.

- **This aligns with each Board initiative and the statewide SSSP initiative and compliance.**

Third Priority is Educational Master Plan Goal #3: The College will expand and diversify Career Technical Education options for students.

- **This aligns with Board initiatives and community workforce development needs.**

It is recognized that all elements of the Educational Master Plan require attention and action, however, for the coming year, the college will focus its efforts on achieving significant progress on the first three priorities.
