## Radiologic Technology

### Seeing is Believing

According to the U.S. Department of Labor, Radiologic Technologists enjoy an average salary of \$79,250 in California. More importantly, their work matters! As a member of an allied health team, Radiologic Technologists (or radiographers) provide critical diagnostic services to those with serious illnesses and injuries.

AVC's Radiologic Technology degree is a full-time, 2-year program that gives students the real-world training they need to quickly enter the field as a radiologic technologist. AVC students learn about human anatomy, examination techniques, radiation safety, basic patient care, as well as how to use the latest, state-of-the-art diagnostic imaging equipment to detect injury, diagnose disease, and treat illness.

To top it off, Radiologic Technology's 100% job placement rate means that finding a secure and well-paying career couldn't be easier! If you're ready for a challenging but fulfilling career on the front lines of healthcare, a degree in Radiologic Technology might be for you!
