CCSSE

Community College Survey of Student Engagement

Large school

Cohort & top performing school collaborative Learning

Benchmarks of Effective Educational Practice

We are consistent with our cohort, but not as consistent with the top performing college

Action - Look at Student Faculty interaction because we are further off there

Do a flex where students talk about their lives

Students are holistic and faculty should have an awareness of students

If interaction increases students may be more successful

Faculty don't know neighborhood that students come from

Not looking at what's realistic

Analyzing – This is the problem

This is why there's a disconnect

Action - Faculty to student mentor in AVID – will be included in AVID training next year

Action - We can get student to come in for trainings

Action - Faculty Mentors

Faculty comes up with idea where we increase engagement

Action - Require students to come to the office hours

Action - Off campus retreat to develop the idea of increased student/faculty engagement

Action/Equity

Aspects of Highest Student Engagement

Action - Intervention plan- Have student meet with the instructor

Not only do we need to work with our students in a holistic way, but students need to take control of their education

How do we create a way for students to take control of their education?

Not only are we dealing with students on probation

Action - Peer mentors meet with students and provide a calendar of when the student should meet with the faculty

Take control of your education

Empower the student

Tool Kit

Action - Student Effort- Brings New World education to AVC

Online Education

Orientation we want to know what you don't know

Action - What to do with W's, students don't know what to do next

What Counseling can do with W's

Mentor Challenge

Give guidelines, and language for the mentor challenges

HD Power PrinciplesNo blame game – see a series of student success workshop

Habits of Mind

Series of Workshops

85% (Build it and try to get 85%)

Withdrawals triggered from IT

Aspects of Highest Student Engagement

Counseling – would like to see the survey what did our student understand about the f

If our students think they are doing well

Invite Research to share CCSSE results

Career Coordinator

Aspects of Lowest Student Engagement

4y- already talked about mentoring

Guide sheet about new student

Can be more interactive

Provide something for the mentors in acomputer lab

Action - Action/Equity will let students know about lowest student engagement

Action - Do an intervention, what students weren't enrolled at the beginning of the semester

How did they perform

Waitlisted
