EMPLOYERS

Federal government including Departments of: Health and Human Services Justice Veterans Affairs State government including: **Departments of Human Services Departments of Mental Health** Departments of Justice Community mental health centers State psychiatric hospitals Facilities for individuals with intellectual impairments Boards of probation and parole Local government Senior citizens' centers Nursing homes Social service/nonprofit organizations Religiously-affiliated service organizations Hospitals/healthcare providers Private psychiatric facilities Outpatient clinics Employee Assistance Programs (EAP) College and university counseling centers and career centers Pain clinics Rehabilitation facilities Testing centers Private practice

STRATEGIES

Obtain essential practical experience through parttime or summer jobs such as camp counselor, tutor, or resident hall advisor. Complete an internship for academic credit. Gain experience through volunteering with organizations such as crisis hotlines, Big Brother or Sister, Special Olympics, service groups, etc. Many entry-level helping positions require one year of related experience. Volunteer experience and internships can typically fulfill this requirement. Learn to work well with different types of people. Develop strong communication skills. Cultivate the desire to help others. Earn a minor in a specialized field of interest (e.g., child & family studies, sociology, or political science). Take courses to build valuable counseling-related skills (e.g., techniques of counseling). Become fluent in a foreign language to serve clients who may not speak English. Acquire knowledge of government and community resources available for those in need. Obtain a graduate degree in psychology, counseling, or social work for positions involving substantive counseling or psychotherapy or for advancement into administrative/supervisory positions. Many specialties exist at the graduate level, for example school counseling, mental health counseling, counseling psychology, etc. Pursue particular degrees depending upon interests and career goals. See General Information on the last page for more details on this topic. Pursue graduate training or certification programs to establish test administration and interpretation qualification.

Maintain an excellent academic record.

AREAS

RESEARCH

Social Research Market Research Data Analysis Testing/Test Development Experimental Psychology Neuroscience Industrial and Organizational (I/O) Psychology

EMPLOYERS

Federal, state, and local government agencies (e.g., National Institute of Health) National headquarters of non-profit organizations Universities and colleges Market research firms Market research departments of consumer goods and manufacturing firms Private research organizations Consulting firms	 Pursue research experience by working on faculty projects through independent study classes, as a student employee, as a volunteer in their lab, or through other departmental programs. Take additional math and statistics courses to develop strong quantitative and statistical skills. Take additional science courses or consider a minor in Neuroscience. Obtain related experience through part-time or summer jobs or internships with a market research firm. Get involved in the American Marketing Association. HUMAN RESOURCES Employment and Recruitment Selection Labor Relations Compensation and Benefits Organizational Development Training

EMPLOYERS

Large companies Government agencies Staffing and employment services Large non-profit organizations Hospitals Educational institutions

STRATEGIES

Gain relevant experience in human resources by completing an internship.
Earn a minor in business or supplement curriculum with business courses.
Seek leadership positions in student organizations.
Develop strong computer skills.
Earn an MBA or a graduate degree in human resources to attain higher level positions.

BUSINESS

Sales Customer Service Public Relations Marketing Advertising Product Design Management Insurance: Claims Management Underwriting Real Estate: Sales Property Management Service providers Wholesalers Manufacturers Retail stores including: Department stores Specialty stores Discount stores Super retailers Online retailers Call centers Financial institutions Insurance companies Real estate companies Property management firms Apartment complexes Public relations departments of large companies or nonprofit organizations Develop career goals and seek relevant experiences to prepare for those goals.

- Earn a minor in business or supplement curriculum with business or communication courses.
- Obtain relevant experience through part-time jobs or internships.
- Work a part-time or summer job in a retail store. Demonstrate a willingness to take on additional responsibilities such as "assistant manager."
- Participate in student organizations and seek leadership roles.
- Learn to work well with different types of people. Develop a strong commitment to customer satisfaction.
- For sales, develop the ability to work well under pressure and be comfortable in a competitive environment.
- Be willing to start in a management-trainee program or other entry-level positions.
- When job searching, seek employers interested in hiring "any major."
- Understand the top skills employers desire and be prepared to demonstrate them, such as communication (oral and written), computer, interpersonal, leadership and teamwork, etc.

(Psychology, Page 4)

GENERAL INFORMATION

- Psychology provides a broad, liberal arts background.
- Some students may choose to study psychology because they enjoy the subject but wish to pursue careers requiring "any major." In this scenario, it is critical to develop desirable skills through internships, part-time or summer jobs, or volunteer experiences. Some skills valued most by employers include: communication, interpersonal, leadership, teamwork, and computer skills.
- Other students may major in psychology because they want to work in a related field. Many entry-level helping positions are available, however the amount of
 direct client contact is limited for those who only have a bachelor's degree. Students may wish to pursue graduate education in psychology, social work,
 counseling, college student personnel, or other related fields to increase opportunities and earning potential. Research career fields to learn what type of
 degree (master's, educational specialist, doctoral) and subject area are most appropriate for your interests and desired population.

The following list provides some examples:

Master's Degree

Licensed Clinical Social Worker Professional Counselor Educational, Vocational, and School Counselors Substance Abuse and Behavioral Disorder Counselors Rehabilitation Counselors Licensed Marriage & Family Therapists

Educational Specialist

School Psychologist

Doctoral Degree

Counseling Psychologist Licensed Clinical Psychologist Experimental Psychologist Sport Psychologist Industrial/Organizational Psychologist Social Psychologist Developmental Psychologist Forensic Psychologist Health Psychologist Neuroscience Psychologist Psychiatry (M.D.) *

- For those wishing to pursue graduate education, maintain a high grade point average, secure strong faculty recommendations, gain experience through volunteer or work opportunities, and assist a faculty member with research.
- Many applied positions require licensure. This can take an additional one to three years of supervised experience after earning a graduate degree depending upon state requirements. Graduate programs in clinical work should be accredited by the American Psychological Association (APA) in order to ensure a smooth transition towards licensure. Graduate programs in counseling should be accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).
- Research the availability of certifications for specialties like the Board Certified Behavior Analyst if interested in working with people with disabilities.
- Note (*): If Psychiatry is a career interest take additional science courses for admission to medical school; see your school's pre-health advisor.
