13	I never try before Since I have not used the center I am not sure, but will consider for my summer
14	and fall sessions since I live in Palmdale
15	None This would be very bad, do not do this. It would limit our education even more,
16	we should be looking to improve our EDUCATION and resources. I live in tehachapi so I don't use the Palmdale resource center. I will tell you that I really love the Palmdale site in comparison to the main campus. The rooms are nice, the chairs are alot more comfortable and it's easy parking. There is not as much cigarette smoke as the main campus.. I have walked in to the main campus before from the far parking lot by child development and other times too and had to breath and walk through billows of cigarette smoke, It is disgusting and even though there are signs not to smoke near the classrooms, people do. I will try to take as many classes as I can at the Palmdale site for the rest of my classes. All and all though, Avc is a fantastic college. Oh the vending machine in the Palmdale site for the scantrons and pencils has ripped off three students
17	including myself of our money. none, on the contrary you should have more resources available for the students
18	that live in Palmdale, therefore we save ourselves some gas money.

A library/study hall because there is currently no place to study especially in between
27 classes and more computers for students to use, there are only 9 currently.

This would be great, for the students that live closer to Palmdale. Remember IMPROVE,
28 move forward not backward!!!!!!!!!!!!

29 More library hours, & financial aid center with more hours.

30 More hours for Financial Aide Office

Absolutely, you should add resources such as tuoring, academic books from the library,
31 student relaxation, networking events, so on.

32 helping with specific assingments

33 none that i can think of,

34 turtoring

35 Would be most welcome and convienient to this site for the Palmdale students

The student services center should be open for use for studying. I went to find a quite
place to study and was directed by one of the workers in the □

Student Services to the student lounge where off course it was noisy. Who can s study
in the student lounge. Many times I look in and see all the tables empty and no one
using the student services area. What a waste of space. I understand the center is also
used for tutoring but I have yet to see it busy. Something needs to be done. It does not

36 serve the students.

37 more classes

38 tutors???

39 Frequent Math Tutoring

40 library where they have text books to check out
