

Checklist for compliance with
Section 508 §1194.22 - Web-based Intranet and Internet Information and Applications

This checklist is intended to be used in conjunction with the Academic Senate approved *Guidelines for Designing and Online Course*, specifically section 8, which is available at <http://www.avc.edu/organizations/dec/documents.htm>.

Accessibility Requirement	Yes	No
<u>Text Tags</u> : Is there a text equivalent for every non-text element (e.g., via "alt", "longdesc", or in element content)? Reference Section 508 §1194.22 (a).		
<u>Multimedia Presentations</u> : Are there equivalent alternatives for any multimedia presentation synchronized with the presentation? Reference Section 508 §1194.22 (b).		
<u>Color</u> : Are the Web pages designed so that all information conveyed with color is also available without color? Reference Section 508 §1194.22 (c).		
<u>Readability</u> : Are the documents organized so they are readable without requiring an associated style sheet? Reference Section 508 §1194.22 (d).		
<u>Server-Side Image Maps</u> : Are redundant text links provided for each active region of a server-side image map? Reference Section 508 §1194.22 (e).		
<u>Client-Side Image Maps</u> : Are client-side image maps provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape? Reference Section 508 §1194.22 (f).		
<u>Data Table</u> : Are row and column headers identified for data tables? Reference Section 508 §1194.22 (g).		
<u>Data Table</u> : Is markup used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers? Reference Section 508 §1194.22 (h).		
<u>Frames</u> : Are frames titled with text that facilitates frame identification and navigation? Reference Section 508 §1194.22 (i).		
<u>Flicker Rate</u> : Are pages designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz? Reference Section 508 §1194.22 (j).		
<u>Text-Only Alternative</u> : Is a text-only page, with equivalent information or functionality, provided to make a web site comply with Section 508 standards, when compliance cannot be accomplished in any other way? Reference Section 508 §1194.22 (k).		

Checklist for compliance with
Section 508 §1194.22 - Web-based Intranet and Internet Information and Applications

Accessibility Requirement	Yes	No
<u>Scripts</u> : Do pages that utilize scripting languages to display content, or to create interface elements, provide functional text that can be read by assistive technology? Reference Section 508 §1194.22 (l).		
<u>Applets and Plug-Ins</u> : Do pages that require an applet, plug-in or other application be present on the client system to interpret page content, provide a link to a plug-in or applet that complies with 508 §1194.21(a) through (l)? Reference Section 508 §1194.22 (m).		
<u>Electronic Forms</u> : Do electronic forms that are designed to be completed on-line, allow people using assistive technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues? Reference Section 508 §1194.22 (n).		
<u>Navigation Links</u> : Are there methods that permit users to skip repetitive navigation links? Reference Section 508 §1194.22 (o).		
<u>Time Delays</u> : When a timed response is required, will the user be alerted and given sufficient time to indicate more time is required? Reference Section 508 §1194.22 (p).
