

154 Earth Science

Definition

Earth Science is the study of the Earth's atmosphere, lithosphere, hydrosphere, and biosphere together with its place in the solar system and the universe.

Program Advisement:

Dr. Leslie Uhazy, Dean ext. 6417

Administrative Assistant:

Wendy Cios ext. 6415

Clerical Assistant:

Suzanne Olson ext. 6046

Faculty:

Dr. Richard Coffman ext. 6176

Program Description

The Earth Science course will present an overview of the general principles of geology, astronomy, meteorology and oceanography.

Distinctive Features

Traditional teaching may be supplemented with computer and Internet based activities. Laboratory activities will provide "hands-on" experiences and discovery into the natural, physical and chemical characteristics of the earth and our universe.

Career Options

Environmental Management

Naturalist

School Teacher

(These careers require education beyond the two-year college level.)

Certificate Program

Certificate is not available.

Associate Degree

An associate degree with a major in Earth Science is not available. Earth Science course(s) can be included in the 18 units necessary for an associate degree with a major in Liberal Arts and Sciences. (See Graduation/Associate Degree Requirements.)

Transfer

Students planning to continue studies at a four-year college or university after AVC should visit the Transfer Resource Center and consult with a counselor as soon as possible. Additional information on official transfer articulation agreements from AVC to many CSU/UC campuses can be found at the following Web site: www.assist.org

Prerequisite Completion

If a course is listed as a prerequisite for another course, that prerequisite course must be completed with a satisfactory grade in order to enroll in the next course. According to Title 5, Section 55200(d), a satisfactory grade is a grade of "A," "B,"

"C" or "P". Classes in which the Pass/No Pass option is available are indicated with an asterisk (*) before the course title. See "Pass/No Pass Option" in the catalog for full explanation.

Earth Science Courses

ERSC 101 *INTRODUCTION TO EARTH SCIENCE

4 units

6 hours weekly

(3 hours lecture, 3 hours lab)

Advisory: Eligibility for College Level Reading, ENGL 101 and MATH 102.

Introduction to Earth Science is an overview of the general principles of geology, astronomy, meteorology and oceanography. Students will examine minerals, rocks, and the geological processes that shape Earth's surface, the atmosphere and oceans, stars and planets. Laboratory exercises will expose students to a variety of hands-on activities exploring the Earth Sciences. (CSU, AVC)
