Go up to the left hand corner and click on the 3 lines to open up the play list. There are 6 different training videos:

- 2. WTE- Exception Entry: How to enter your exceptions on the Web Time Entry screen
- 3. WTE- Using Copy Feature: The copy feature allows you to enter the exception time for one day then copy it so that same time and type of exception is applied to other days through the use of a check box screen.
- 4. WTE- Return Time to Edit: If your supervisor has not approved your time sheet and you need to make changes, you can use the "Return Time" button to edit the time sheet then submit for approval again.

It is imperative that Web Time Entry deadline dates for submittal and approval followed in order for payroll staff to meet their deadlines to process payroll to the banks. Time Sheet submittal and approval deadline dates will be posted on the Human Resources website under "Payroll". You will also be able to accept a "view payroll due dates in your google calendars

If you accidently enter time on the wrong time period, it's easy to clear out all of these entries at one time. Go to the bottom and click the button "Restart". It will then say that "restarting will delete all changes that you have made to your time record. Do you want to Restart?" Go ahead and click "submit". That clears out all of the entries so that

you can go back by clicking the "position selection" button and then choose the correct pay period.

WTE- Hourly Employee Input:

How to input your hours if you are an hourly employee

Once you have logged into the web time entry system in MyAVC, you will click on "Time Sheet". Make sure you are looking under the correct title and department. If you work for more than one, you should be able to choose it using the "My Choice" radial button. Make sure to choose the proper pay period and then click "time sheet". You can then go and enter the hours you worked, or the sick time you are taking. For instance Monday, June 6, 2016 you would click "enter hours" under "regular pay". Select the correct shift and then enter the number of hours actually worked and click "save". After clicking "save" your hours entered will show in the spreadsheet under the appropriate date. You may then "preview" or "submit for approval" at the end of the pay period. "Restart" is used to start over and correct any errors. "Next" is to go to the next week. Once on the next week, there will be a "previous" button to go back to the prior week.

FREQUENTLY ASKED QUESTIONS

 How do I show corrections to my time sheet if it is past my supervisor's approval deadline?

Note any corrections on the next pay period under the "Comment" section. (Please do not select a random day in the current pay period to account for a day not recorded in the prior pay period.)

 Can a supervisor change time sheets before they approve it, as opposed to rejecting it when it's too close to a deadline?

Yes. Supervisors must "act as a Superuser" in order to extract a time sheet and make any changes. The supervisor then submits the time sheet for approval and then approves the timesheet.

 Why can't I see the current pay period in the "Position Selection" when I access my Time Sheet?

Check the drop down arrow to see time period choices and click on the correct one. If you still do not see the correct time period, most likely it is <u>past</u> the deadline to submit your timesheet. Deadlines for employees to submit timesheets and supervisors to approve timesheets can be found on the Human Resources website under the "Payroll" link.

- How do I add or remove a Proxy?
 - 1. From MyAVC go to "Employee Services"
 - 2. Select "Update Approval Proxies."
 - 3. Select person from drop down menu.
 - 4. Check off the box next to the name.
 - 5. SAVE.
 - 6. Person will be added to list of proxies.
 - 7. Check REMOVE next to name to remove someone as your proxy.
 - 8. SAVE.
- As an approver, why can't I see any of my employees' timesheets?

If at least one employee in your routing organization has not submitted their timesheet for approval, you will not be able to see <u>any</u> of your employees.
