2013-2014 Academic Policies & Procedures Committee Meeting No. 3 MINUTES

1. CALL TO ORDER AND ROLL CALL

A motion was made and seconded to call the September 26, 2013 AP&P Committee Meeting to order at 3:07 p.m. Mrs. Linda Harmon, AP&P Faculty Co-Chair, called the meeting to order at 3:05 p.m. Motion carried.

2. OPENING COMMENTS FROM THE COMMITTEE CO-CHAIR

Mrs. Linda Harmon stated that courses are now moving through CurricUNET a little quicker and the next agenda should be fuller.

3. APPROVAL OF MINUTES – September 12, 2013 Minutes

4. INFORMATIONAL ITEMS

- a. 2013-14 AP&P Deadline Courses and Programs need to be approved by 11/14/2013 for Fall 2014 inclusion
 - CORs that need to be revised this academic year List at the end of the agenda
 - TMC Degrees that need to be developed and brought to AP&P List at the end of the agenda
 - C-ID Approval needed, COR revised and brought to AP&P List at the end of the agenda

Mrs. Linda Harmon reminded the committee that all course and program revisions need to be approved by AP&P on or before November 14, 2013. She urged representatives to work with those faculty members who are responsible for revising the courses at the end of the agenda especially those that are needing revision due to C-id designation.

Dr. Lee Grishman stated there should be a process for notifying him of those courses that can now be resubmitted after approved by AP&P. Mrs. Linda Harmon suggested that a note be added to the agenda next to the course listing indicating it was previously denied for C-id designation. Dr. Grishman agreed that would help in the resubmitting process.

Dr. Lee Grishman also indicated that lecture/lab courses with multiple components listed on a single course outline of record need to have the course content elaborated on to include each course component. For example, the lecture component would be listed first followed by a section that calls out specifically those items that will be taught in the laboratory course. Ms. Lisa Karlstein requested clarification since her courses are lecture/lab as well. Dr. Grishman indicated that photography and commercial photography have separate laboratory courses and therefore this would not apply to those courses. Dr. Grishman stated that this is particularly important if the faculty are seeking CSU and UC transferability approval.

b. 13-14 Academic Year AP&P Representative Proxy Memo needed for all committee members

• Establish Proxy for voting purposes by submitting a memo to AP&P

Mrs. Linda Harmon asked representatives who had not turned in their proxy memo to do so as soon as possible.

Ms. Jeffrie Ahmad spoke on behalf of the faculty as Mr. Scott Jenison was not able to attend the meeting. She circulated a document titled "Progress Report: ESL Score Card Task Force" and went over each item listed. Luis Echeverria stated American River College offers a section of ENGL 101 specific for those students who are English Language Learners and he is currently working to obtain a copy of their course outline of record. He indicated that ESL students potentially feel intimidated by a regular ENGL 101 course and could benefit from a course that is tailored to their needs. Ms. Ahmad also stated the ESL faculty are downsizing their program offering less sections in spring 2014. The AP&P Committee reminded the task force of what was asked of them, which was to streamline our program conforming to those that are more successful based on the score card. Mrs. Sharon Lowry stated that she attended a student summit on Monday and Tuesday where score cards were discussed for ESL. They especially commented on the fact that there is an 80 point gap between the highest and lowest score card.

8 Keys to Success: Supporting Veterans, Military and Military Families on Campus

Posted by Sarah Baker on August 13, 2013 at 04:02 PM EDT

On Saturday, at the Disabled American Veterans National Convention, President Obama outlined five Administration priorities that ensure we are fulfilling our promises to those who have served our nation, including supporting our veterans in institutions of higher learning. In his speech, President Obama announced that 250 community colleges and universities have committed to implementing the 8 Keys to Success on their campuses. Developed by the Administration, the Department of Education (ED), and the Department of Veterans Affairs (VA) in conjunction with more than 100 education experts, the 8 Keys to Success on campus are eight concrete steps that institutions of higher education can take to help veterans and service members transition into the classroom and thrive once they are there.

The 8 Keys to Success on campus are:

- 1. Create a culture of trust and connectedness across the campus community to promote well-being and success for veterans.
- 2. Ensure consistent and sustained support from campus leadership.
- 3. Implement an early alert system to ensure all veterans receive academic, career, and financial advice before challenges become overwhelming.
- **4.** Coordinate and centralize campus efforts for all veterans, together with the creation of a designated space (even if limited in size).
- **5.** Collaborate with local communities and organizations, including government agencies, to align and coordinate various services for veterans.
- **6.** Utilize a uniform set of data tools to collect and track information on veterans, including demographics, retention and degree completion.
- 7. Provide comprehensive professional development for faculty and staff on issues and challenges unique to veterans.
- 8. Develop systems that ensure sustainability of effective practices for veterans.

With more and more service members returning home in the next year, it has never been more important for schools to have a roadmap in place to make sure veterans are getting the best possible educational experience. By adopting the 8 Keys to Success, schools are taking a positive step in that direction.

The 250 schools that have committed to the 8 Keys to Success are helping veterans and military families afford and complete their college degrees, certificates, industry-recognized credentials and licenses, and—importantly—preparing them for jobs in high-growth sectors of the economy. More schools are expected to adopt the 8 Keys to Success on campus in the coming months.

The 8 Keys to Success are only part of the Administration's efforts to support and protect service members in the classroom. The Keys build on the Administration's Principles of Excellence, which President Obama established by Executive Order in April 2012. The Principles of Excellence provide protections for our military and veterans in institutions of higher education to prevent against dishonest recruiting and predatory practices. To further veterans' success in higher education, the VA is also expanding its VetSuccess on Campus and Veterans Integration to Academic Leadership programs, which connect veterans to VA resources. Together, all of these measures will help provide our veterans and military families with the high-quality, affordable education they deserve.

We all owe a great debt to those who have served this country. Giving schools tools they can use to truly welcome and support our returning service members is one way we can help repay that debt by making sure we are providing our veterans and military families with an education worthy of their exceptional talents and experience.
