ABOUT THIS MAJOR

The Multi-Platform Certificate builds on the Computer Networking certificate to enhance the skills and knowledge of the student. Any course taken in the Computer Networking Certificate does not need to be taken again for the Multi-Platform Certificate. Students who successfully complete the certificate requirements may apply for positions as network administrators, systems technicians, infrastructure support specialists, or network operations technicians responsible for maintaining multi-platform computing environments. The program prepares students to support heterogeneous enterprise networks including Windows, Linux, and virtualization-based systems commonly used in modern IT infrastructures.
