

26-27 A.S. General Engineering (ENRG)

ABOUT THIS MAJOR

The Associate in Science in General Engineering provides students with a broad foundation in the principles of engineering, mathematics, and physical sciences. This degree is designed to support students who are exploring multiple engineering disciplines or who intend to transfer to a university program that does not align precisely with a single engineering track. The program enhances students' problem-solving abilities, critical thinking, and technical skills.

Students completing this degree will be prepared for junior-level coursework in a variety of engineering fields, including but not limited to Mechanical, Aerospace, Electrical, Civil, and Computer Engineering. The curriculum includes core courses common to most engineering transfer programs, allowing students to tailor their education to their interests while remaining within an eligible program of study. For more information on Engineering, visit the [Mathematics, Sciences, and Engineering](#) division.

TO EARN A DEGREE A STUDENT MUST COMPLETE THE FOLLOWING:

- [1] Completion of a minimum of 60-semester units or 90 quarter units of degree applicable courses
- [2] A minimum of 18-semester units in a major
- [3] Completion of 21 units AVC General Education Requirements
- [4] Minimum overall grade point average of 2.0

2026-2027 AVC General Education Requirements

Advising Form Effective Fall 2026 - Summer 2027

GE AREA	COMPLETED	IN PROGRESS	NEED	
				The requirements for an AA or AS degree include the following: 1. A minimum of 60 semester units; with at least 12 semester units completed in residence at AVC for an AA/AS degree (credit earned by examination will not be included in these 12 units); maximum of 12 pass/no-pass credit units can be accepted towards an AA/AS degree. 2. Refer to each individual program for major requirements. All major courses as specified in the AVC catalog must be completed with a grade of "C" or better. 3. An overall grade point average (GPA) of 2.0 ("C" average) is required. Double counting: While a course may satisfy more than one general education requirement, it may not be counted more than once for these purposes. A course may be used to satisfy both a general education requirement and a major or area of emphasis requirement. Prerequisite: If a course is listed as a prerequisite for another course, that prerequisite course must be completed with a satisfactory grade in order to enroll in the next course. A satisfactory grade is a grade of "A," "B," "C" or "P". Students who enroll in classes for which they do not meet the prerequisites will be involuntarily dropped. Students will be notified of this involuntary drop. Complete at least 3 semester units from each of the following areas below: 1A, 1B, 2, 3, 4, 5, and 6.
