

26-27 Cert. Practical Robotics (PR) (NONCREDIT)

ABOUT THIS MAJOR

Embark on an exhilarating journey into the dynamic field of robotics with our Certificate of Completion program. This comprehensive curriculum integrates foundational principles from Introduction to Robotics with advanced applications explored in Applications of Robotics. Throughout the program, students delve into robotics components, programming techniques, and project-based learning scenarios, honing their skills in motion, sensing, and competition-oriented challenges. By program completion, students emerge equipped with a robust understanding of robotics technology, prepared to innovate and excel in industries and disciplines leveraging automation and robotics solutions.
