

Anthropology for Transfer (AA-T) 25-26

ABOUT THIS MAJOR

The Associate in Arts in Anthropology for Transfer (AA-T in Anthropology) degree program has been developed to provide the student with a fundamental understanding of the field of Anthropology and its

four main sub-fields: Archaeology, Biological Anthropology, Cultural Anthropology, and Linguistics. Anthropology is the study of humankind, both past and present. It is a holistic discipline, which means that anthropologists study the similarities and differences in human biological and cultural origins, evolution, adaptations, and features across the globe throughout all of human history. From this wide perspective anthropology helps us to understand other people and thereby enables us to better understand ourselves. For more information, visit the [Social and Behavioral Sciences](#) division.
