

Sample Smith

As a returning AVC student followed by making the Dean's list and Honor's program, I am inclined to give back the knowledge I gain here at AVC. To say the least, I am dedicated and involved in not only the Antelope Valley Community but AVC as well. I am group-minded, non-judgmental, and I want the best for every student, including special needs. I value a diverse setting where we all are treated equally with access to all of the same resources. I am coming forth to bring awareness and advocacy to AVC. I vow to do my best and give it my all in order for student and faculty success along with the future success of AVC.
