

# A.S. Computer Networking Multi-Platform 25-26

## ABOUT THIS MAJOR

Students who complete the associate degree have enhanced employability in several fields and are well prepared for entry-level career opportunities in areas such as computer repair, service, maintenance, and installation of computer network hardware and software. The associate degree will also provide students with a broad range of knowledge with which to evaluate and appreciate the physical environment, culture, and society in which they live, with the ability to think and communicate clearly and effectively. Except in cases of a prerequisite requirement, it is not required that courses be taken in exactly this sequence; they are recommended in this order to facilitate success. For more information, visit the [Social and Behavioral Sciences](#) division.
