Action Items</p>	<ul style="list-style-type: none"> A. Program Review is complete and has been submitted. Thanks to all that helped. B. Due to the difficulty in contact tracing, it has been suggested that all faculty use the seating chart in Canvas so only those students that have been within six feet of someone who tests positive will need to quarantine. Also, if students are working in groups, then those students should be permanently assigned to and only work in those groups to aid in contact training. More to come on this. C. Textbook requisitions are due November 15th. Course leads have now been given access to submit requisitions for all faculty in their area. If you are using OER or a special request, please make sure to fill out your own requisition within 1 week of receiving the reminder for BN. D. The Math128/Math135 pathway proposal may run into problems due to the passage of AB111. Workgroup should be aware of the potential problems with no “College Algebra” C-ID in existence.
