REQUEST FOR DISCLOSURE OF PUBLIC RECORDS GUIDELINES:

General Rule: All records of a public agency are public records and must be disclosed upon request, unless the request falls under an exception provided by the California Public Records Act Request (Government Code Section 6250 et al.).

Right to Inspect Public Records: Public records are open to inspection at all times during the office hours of the District and every person has a right to inspect any public record. This right to inspect includes any reasonably segregable portion of a public record after deletion of the portions that are exempted by law. (Government Code Section 6253 (a). This does not mean that a requester has a right to demand to see a record and immediately gain access to it. The standard of promptness set forth for copies

Right to Copy Public Records: Except with respect to public records exempt from disclosure by express provisions of law, the District, upon receipt of a request for a copy of records that reasonably describes an identifiable record or records, must make the records promptly available to any person upon payment of the appropriate fees. As with the right to inspect public records, the same rule of reasonableness applies to the right to obtain copies of those records. Thus, the District may impose reasonable restrictions on general requests for copies of voluminous classes of documents.

Records that do not exist: Under the Act, an agency is not required to create any record(s) in response to a public records request. The District is only required to disclose existing records.

Fees: Per District Administrative Procedure 3300, the Superintendent may set a fee for the direct cost of duplicating a record when seeking a copy. The District requires payment in advance before providing the requested copies; however, no payment is required to inspect a record.

Duplication costs of electronic records are limited to the direct cost of producing the electronic copy. Requestor bears the additional costs of producing a copy of an electronic record.
