		AVH

Absent: Kompson Potipitak, Stacey Potipitak Clinical Adjunct Faculty

Recommended Topics:

Introductions were made.
Minuets of prior meeting were approved as read.

Program goals were reviewed and opened for comments. Program goals were approved as written. However over the next term we may want to rethink wording due to the Advance Respiratory degree that will soon go into effect within COARRC .

ANTELOPE VALLEY COLLEGE

Organizational Chart was approved
Credentialing/CoARC Benchmarks: Wendy gave an over view on how the program is doing with Credentialing and stated that we currently meet all of CoARC benchmarks. We received a second year 90% success rate for RRT for the 2019 class. In 2019 80% of graduates obtaining CRT was the bench mark. The new benchmark is 60% of graduates will test at the high cut score on the TMC we meet that for the 2019 year.
Strong work force proposal. Wendy Spoke about the need to update the RCP lab with mechanical ventilators, computers, charting software and more. The committee agreed there was a need to upgrade the lab. The committee felt that it was import to update simulation lab and approved the t process to Acquire funding and equipment to support educational activates in computer-based charting, communication and pediatric and neonatal patient care skills. The projected cost is \$165,000
Internships-At this time due to the change in calendar year there was a discussion on where internships could take place. This discussion will be brought back at the next meeting.
Pinning Ceremony: 2 nd year students asked about pinning due to Covid-19 restrictions. Wendy Stated that at this time it is believed that no in person pinning will be done.
Open discussion: Covid-19 impact on program and necessary changes. At this time both PRMC and AVH have asked that we not be in the hospital due to COVID-19 and PPE shortage. This took place just prior to spring break. To cover for these alternative assignments are being made using distance education. At this time, it is felt that second year students have meet all graduation requirements and we should be back in the hospital by Summer.
Adjournment: 1700
