The average industry wage is \$55,140 in California but seasoned professionals make up to \$94,380!

## Connect to Success!

If you're looking for a cool career where the job prospects are heating up, you've come to the right place! Careers in air conditioning, refrigeration, and ventilation are projected to grow at a rate of 20% by 2026, adding 3,530 new jobs in California every year!

In AVC's Air Conditioning, Refrigeration & Ventilation (ACRV) Program, classes are taught in a state-of-the-art technology building where students gain hands-on experience installing, maintaining, and repairing the newest air conditioning, refrigeration and ventilation equipment. From interpreting schematics to laying out air handling systems, students master the use of cutting-edge specialty tools while getting the training they need to pass the EPA's Refrigerant Handling Certification tests.

Successful graduates start careers in installation, maintenance and service positions, as well as sales, parts distribution, system design, equipment testing, and manufacturing. And because of AVC's strong industry partnerships and internship program, transitioning into careers with regional employers like Manitowoc, Cal Trans, and Northrop Grumman has never been easier!
