

ANTELOPE VALLEY COLLEGE

Automotive Tech and Auto Body

Revving Up Paychecks

From building new careers to upgrading the skills of seasoned professionals, AVC's Automotive Technology and Auto Body programs provide hands-on instruction from real-world professionals and pave the way for students like you to gain the skills they need to get their automotive careers into the fast lane!

In Automotive Technology, students learn everything they need to know about diagnosing and repairing domestic and foreign cars, while practicing their skills in a cutting-edge, high-tech repair shop. In Auto Body, students prepare for their industry-standard I-CAR certifications by training on actual collision-damaged vehicles and using our state-of-the-art spray paint booth.

Regardless of which program students choose, our wide array of industry-aligned degrees and certificates prepare students for in-demand careers in the automotive industry at regional car dealerships, independent garages, mass merchandisers, and local, state, and federal motor pools. If you're driven to success, AVC's automotive and auto body programs might be just what you need to rev up your career!
