Protocol for Social Distancing: Appendix A

Recent Updates:
6/29/20: In the event that 3 or more cases are identified within the workplace within a span of 14 days the employer should report this cluster to the Department of Public Health
7/20/20: Additional information provided regarding face coverings and symptom checks for employees and visitors

Business name: Antelope Valley College
Facility Address: 3041 W Ave K, Lancaster CA 93536
Approximate gross square footage of space open to the public: 35 Acres & Multiple Buildings

Businesses must implement all applicable measures listed below and be prepared to explain why any measure that is not implemented is inapplicable to the business.

A. SIGNAGE

☒ Signage at each public entrance of the facility to inform all employees and customers that they should: avoid entering the facility if they have a cough or fever; maintain a minimum six-foot distance from one another.

☒ Signage posting a copy of the Social Distancing Protocol at each public entrance to the facility.

B. MEASURES TO PROTECT EMPLOYEE HEALTH (CHECK ALL THAT APPLY TO THE FACILITY)

☒ Everyone who can carry out their work duties from home has been directed to do so.

☒ All employees have been told not to come to work if sick.

☒ Upon being informed that one or more employees test positive for, or has symptoms consistent with COVID-19 (case), the employer has a plan or protocol in place to have the case(s) isolate themselves at home and require the immediate self-quarantine of all employees that had a workplace exposure to the case(s). The employer’s plan should consider a protocol for all quarantined employees to have access to or be tested for COVID-19 in order to determine whether there have been additional workplace exposures, which may require additional COVID-19 control measures.

☒ Employee screenings are conducted before employees may enter the workspace. Checks must include a check-in concerning cough, shortness of breath, difficulty breathing and fever or chills and if the employee has had contact with a person known to be infected COVID-19 in the last 14 days. These checks can be done remotely or in person upon the employees’ arrival. A temperature check should also be done at the worksite if feasible.

☒ In the event that 3 or more cases are identified within the workplace within a span of 14 days the employer should report this cluster to the Department of Public Health at (888) 397-3993 or (213) 240-7821. If a cluster is identified at a worksite, the Department of Public Health will initiate a cluster response which includes providing infection control guidance and recommendations, technical support and site-specific control measures. A public health case manager will be assigned to the cluster investigation to help guide the facility response.

☒ Employees who have contact with others are offered, at no cost, an appropriate face covering that covers the nose and mouth. The covering is to be worn by the employee at all times during the workday when in
contact or likely to come into contact with others. Employees who have been instructed by their medical provider that they should not wear a face covering should wear a face shield with a drape on the bottom edge, to be in compliance with State directives, as long as their condition permits it. A drape that is form fitting under the chin is preferred. Masks with one-way valves should not be used. Employees need not wear a face covering when the employee is alone in a private office or a cubicle with a solid partition that exceeds the height of the employee when standing.

- Employees are instructed to wash or replace their face coverings daily.
- All desks or individual workstations are separated by at least six feet.

Break rooms, restrooms, and other common areas are being disinfected frequently, on the following schedule:

- Break rooms: As used.
- Restrooms: Daily.

Other:

Disinfectant and related supplies are available to all employees at the following location(s):

Facilities Services lobby.

- Hand sanitizer effective against COVID-19 is available to all employees at the following location(s):

Facilities Services lobby.

- Soap and water are available to all employees at the following location(s):

Campus restrooms.

- Employees are allowed frequent breaks to wash their hands.
- Copies of this Protocol have been distributed to all employees.

Optional—Describe other measures:

C. MEASURES TO PREVENT CROWDS FROM GATHERING
(CHECK ALL THAT APPLY TO THE FACILITY)

- Limit the number of customers in the store at any one time, which allows for customers and employees to easily maintain at least six-foot distance from one another at all practicable times.

  Maximum number of customers in the facility:

- Post an employee at the door to ensure the maximum number of customers in the facility is not exceeded.

- Placing per-person limits on goods that are selling out quickly to reduce crowds and lines. Explain:

Optional—Describe other measures:
D. MEASURES TO KEEP PEOPLE AT LEAST SIX FEET APART (CHECK ALL THAT APPLY TO THE FACILITY)

☒ Placing signs outside the store reminding people to be at least six feet apart, including when in line.

☒ Placing tape or other markings at least six feet apart in customer line areas inside the store and on walkways at public entrances with signs directing customers to use the markings to maintain distance.

☐ Separate order areas from delivery areas to prevent customers from gathering.

☒ All employees have been instructed to maintain at least six feet distance from customers and from each other, except employees may momentarily come closer when necessary to accept payment, deliver goods or services, or as otherwise necessary.

☐ Optional—Institute one-way aisles to facilitate Social Distancing.

☐ Optional—Describe other measures:

E. MEASURES TO PREVENT UNNECESSARY CONTACT (CHECK ALL THAT APPLY TO THE FACILITY)

☒ Preventing people from self-serving any items that are food-related.

☐ All items are pre-packaged in sealed containers by staff.

☐ Bulk-item food bins are not available for customer self-service use.

☐ Food samples are prohibited.

☐ Providing for contactless payment systems or, if not feasible, sanitizing payment systems regularly. Describe:

☐ Optional—Describe other measures (e.g. providing senior-only hours):

F. MEASURES TO PROMOTE INFECTION CONTROL

☒ Visitors arriving at the establishment are reminded to wear a face covering at all times (except while eating or drinking, if applicable) while in the establishment or on the grounds of the establishment. This applies to all adults and to children 2 years of age and older. Only individuals who have been instructed not to wear a face covering by their medical provider are exempt from wearing one. To support the safety of your employees and other visitors, a face covering should be made available to visitors who arrive without them.

☒ Symptom checks are conducted before visitors may enter the facility. Checks must include a check-in concerning cough, shortness of breath, difficulty breathing and fever or chills. These checks can be done in person or through alternative methods such as on-line check in systems or through signage posted at the entrance to the facility stating that visitors with these symptoms should not enter the premises.

G. MEASURES TO INCREASE SANITIZATION (CHECK ALL THAT APPLY TO THE FACILITY)

☒ Restrooms normally open to the public shall remain open to the public.

☐ Disinfecting wipes that are effective against COVID-19 are available near shopping carts and shopping baskets.

☐ Employee(s) assigned to disinfect carts and baskets frequently, preferably after each use.
Hand sanitizer, soap and water, or effective disinfectant is available to the public at or near the entrance of the facility, at checkout counters, and anywhere else inside the store or immediately outside where people have direct interactions.

☐ Disinfecting all payment portals, pens, and styluses after each use.

☐ Disinfecting all high-contact surfaces frequently.

☐ Optional- Describe other measures:

Any additional measures not included above should be listed on separate pages, which the business should attach to this document.

You may contact the following person with any questions or comments about this protocol:

Date Last Revised: 09-11-2020
Protocols for Office Worksites: Appendix D

Recent Updates: (Changes are highlighted in yellow)

8/7/20: Clarification that enhanced cleaning should be done regularly (link to cleaning guidance added); And that COVID-19 exposures occurring between March 19 and July 5 are covered under the Governor’s Executive Order N-62-20

7/17/20: Additional information provided regarding employee and visitor face coverings and symptom checks

7/8/20: Information regarding employee leave benefits added

The Los Angeles County Department of Public Health (Public Health) is calling on the public, all business owners and community organizations to support the safe reopening of businesses and public spaces. Through our collective Safer at Home efforts, we have successfully slowed the number of new COVID-19 cases and hospitalizations, allowing for a phased reopening of many aspects of regular life with adaptations and infection control measures.

To aid in this transition, Public Health asks all businesses and institutions to take appropriate steps to plan for reopening, in alignment with the Recovery Plan. The following issues are critical and must be addressed to ensure that workers and consumers remain reduce the risk of spread as we transition to a more open phase:

1. Protecting and supporting employee and customer health
2. Ensuring appropriate physical distancing
3. Ensuring proper infection control
4. Communicating with the public
5. Ensuring equitable access to services

These five key areas must be addressed as your facility develops any reopening protocols.

Note that Office-Based Worksites that operate retail establishments, restaurants or gyms and fitness establishments should adhere to the following protocols, as appropriate:

☐ DPH Protocols for Retail Establishments
☐ DPH Protocols for Restaurants
☐ DPH Protocols for Gyms and Fitness Establishments

All businesses must implement all applicable measures listed below and be prepared to explain why any measure that is not implemented is not applicable to the business.

Business name: Antelope Valley College
Facility Address: 3041 W Ave K, Lancaster, CA 93536
Maximum Occupancy, per Fire Code: 1566
A. WORKPLACE POLICIES AND PRACTICES TO PROTECT EMPLOYEE HEALTH (CHECK ALL THAT APPLY TO THE FACILITY)

- Everyone who can carry out their work duties from home has been directed to do so.
- Vulnerable staff (those above age 65, those who are pregnant, and those with chronic health conditions) are assigned work that can be done from home whenever possible, and should discuss any concerns with their healthcare provider or occupational health services to make appropriate decisions on returning to the workplace.
- Work processes are reconfigured to the extent possible to increase opportunities for employees to work from home.
- Alternate, staggered or shift schedules have been instituted to maximize physical distancing.
- Additional protections like shifts in job duty that allow employees that are vulnerable to work from home have been provided whenever possible.
- All employees have been told not to come to work if sick, or if they are exposed to a person who has COVID-19. Employees understand to follow DPH guidance for self-isolation and quarantine, if applicable. Workplace leave policies have been reviewed and modified to ensure that employees are not penalized when they stay home due to illness.
- Workers are provided information on employer or government-sponsored leave benefits the employee may be entitled to receive that would make it financially easier to stay at home. See additional information on [government programs supporting sick leave and worker’s compensation for COVID-19](https://www.cdc.gov/coronavirus/2019-ncov/worksites/sick-leave.html), including employee’s sick leave rights under the Families First Coronavirus Response Act and employee’s rights to workers’ compensation benefits and presumption of the work-relatedness of COVID-19 exposures occurring between March 19 and July 5 pursuant to the Governor’s [Executive Order N-62-20](https://www.gov.ca.gov/2020/04/23/executive-order-n-62-20/).

- Upon being informed that one or more employees test positive for, or has symptoms consistent with COVID-19 (case), the employer has a plan or protocol in place to have the case(s) isolate themselves at home and require the immediate self-quarantine of all employees that had a workplace exposure to the case(s). The employer’s plan should consider a protocol for all quarantined employees to have access to or be tested for COVID-19 in order to determine whether there have been additional workplace exposures, which may require additional COVID-19 control measures. See the public health guidance on [responding to COVID-19 in the workplace](https://www.cdph.ca.gov/Programs/EID/Prevent/Anti-Transmission/PreventionRecommendedProcedures/Documents/COVID-19-Workplace-Plan.pdf).
- Employee screenings are conducted before employees may enter the workspace. Checks must include a check-in concerning cough, shortness of breath, difficulty breathing and fever or chills and if the employee has had contact with a person known to be infected COVID-19 in the last 14 days. These checks can be done remotely or in person upon the employees’ arrival. A temperature check should also be done at the worksite if feasible.
- In the event that 3 or more cases are identified within the workplace within a span of 14 days the employer should report this cluster to the Department of Public Health at (888) 397-3993 or (213) 240-7821. If a cluster is identified at a worksite, the Department of Public Health will initiate a cluster response which includes providing infection control guidance and recommendations, technical support and site-specific control measures. A public health case manager will be assigned to the cluster investigation to help guide the facility response.
Employees who have contact with others are offered, at no cost, an appropriate face covering that covers the nose and mouth. The covering is to be worn by the employee at all times during the workday when in contact or likely to come into contact with others. Employees who have been instructed by their medical provider that they should not wear a face covering should wear a face shield with a drape on the bottom edge, to be in compliance with State directives, as long as their condition permits it. A drape that is form fitting under the chin is preferred. Masks with one-way valves should not be used. Employees need not wear a face covering when the employee is alone in a private office or a cubicle with a solid partition that exceeds the height of the employee when standing.

Employees are instructed to wash their face coverings daily.

All occupied desks, individual workstations or individuals on production lines are separated by at least six feet unless there are extenuating circumstances that require closer contact for brief periods of time.

In compliance with wage and hour regulations, breaks are staggered to ensure that physical distancing can be maintained in break rooms.

All employees, vendors and delivery personnel have been provided instructions regarding maintaining physical distancing and the use face coverings when around others.

Break rooms, restrooms and other common areas are disinfected frequently, on the following schedule:

- Break rooms: As used.
- Restrooms: Daily
- Other: 

Disinfectant and related supplies are available to employees at the following location(s):
- Facilities Services Lobby

Hand sanitizer effective against COVID-19 is available to all employees at the following location(s):
- Facilities Services Lobby

Soap and water are available to all employees at the following location(s):
- Campus restrooms.

Employees are allowed frequent breaks to wash their hands.

Workers are provided time during their shifts to implement cleaning practices. Cleaning assignments should be assigned during working hours as part of the employee’s job duties.

Each worker is assigned their own tools, equipment and defined workspace whenever possible. Sharing of workspaces and held items is minimized or eliminated. Where items must be shared, they are disinfected between shifts or uses, whichever is more frequent, including the following: shared office equipment such as copiers, fax machines, printers, telephones, keyboards, staplers, surfaces in reception areas, shared work stations, etc. with a cleaner appropriate for the surface.

Copies of this Protocol have been distributed to all employees.

Optional—Describe other measures:

B. MEASURES TO ENSURE PHYSICAL DISTANCING (CHECK ALL THAT APPLY TO THE
FACILITY)

- The number of employees in the building is limited at any one time such that employees can easily maintain at least a six-foot distance from one another at all practicable times.
  - Maximum number of employees in facility limited to: Varies by size of room.
  - Maximum number of employees in facility per floor is limited to: Varies by size of room.

- Tape or other markings have been placed at least six feet apart anywhere where individuals may have to line up, both inside the workplace and outside its public entrances, with signs directing employees and visitors to use the markings to maintain distance.

- Employees have been instructed to maintain at least six feet distance from customers, guests and from each other; employees may momentarily come closer when necessary to accept payment, deliver goods or services, or as otherwise necessary.

- Elevator capacity is limited to the number of people that can be accommodated while maintaining a 6-foot physical distance between riders; during peak building entry and exit times, this number can be adjusted to 4 individuals or fewer at a time for any elevator that does not allow for 6-foot physical distance between riders. All riders are required to wear cloth face coverings. Consider elevator sizes, number of building floors, and daily number of employees and visitors to establish physical distancing guidelines appropriate for elevator riders.

- To ease elevator traffic, stairwells have been opened for "up" or "down" traffic with increased cleaning of stairwells.

- Furniture in areas that are open to the public (e.g., lobby, reception areas, or waiting rooms) is separated to support physical distancing.

- Customer service windows or reception counters have been separated by 6 feet to allow for physical distancing.

- Workspaces, cubicles, etc. are redesigned to ensure for six feet between employees.

- Common areas (e.g., break rooms and kitchenettes) are closed or restricted, using barriers, or by increasing physical distance between tables/chairs in breakrooms and kitchenettes where personnel are likely to congregate and interact.

- Employees are discouraged from congregating in any area, but especially common areas or high traffic areas such as break rooms, bathrooms, hallways and stairwells.

- To the extent possible, flow of traffic within the workplace is modified to minimize contacts (e.g., doors for entry or exit only; directional hallways or passageways have been established for foot traffic in a way that prevents employees from passing by one another).

- Employees have been instructed to discontinue handshakes or other forms of greeting that break physical distance.

- In-person meetings are strongly discouraged in favor of virtual meetings. If in-person meetings are essential, they are limited to 10 or fewer participants and all participants must wear cloth face coverings and are held in rooms large enough to maintain physical distancing.

- Nonessential travel is discontinued.

C. MEASURES TO ENSURE INFECTION CONTROL (CHECK ALL THAT APPLY TO THE FACILITY)

- The HVAC system is in good, working order; to the maximum extent possible, ventilation has been increased. Consider installing portable high-efficiency air cleaners, upgrading the building’s air
filters to the highest efficiency possible, and making other modifications to increase the quantity of outside air and ventilation in offices and other spaces.

X Shared materials or objects (e.g., staplers, three-hole punches pens, coffee mugs etc.) have been eliminated, to the greatest extent possible.

X **Enhanced cleaning of entire office space is completed on a regular basis.**

X To the extent possible, doors, trash cans, etc. are contactless.

X Common areas and frequently touched object such as tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, elevator switches and buttons, touch screens, printers/copiers, and handrails are regularly disinfected using EPA approved disinfectants and following the manufacturer’s instructions for use.

X Disinfectant and related supplies are available to all employees at the following location(s):

Facilities Services Lobby

☐ Contactless payment systems are in place or, if not feasible, payment systems are sanitized regularly. Describe:

X If possible, customer service or reception areas have plastic barriers installed to limit contact between employees and visitors.

X To the extent possible, visitors to the worksite are by appointment only and are pre-registered in a visitor log that includes a visitor’s name, phone number and email address. Visitors are instructed to come to their appointments alone. If a visitor must be accompanied by another person (e.g., for translation assistance, or because the visitor is a minor, or has minor children) their information is captured in the visitor log.

X **Visitors arriving at the establishment are reminded to wear a face covering at all times (except while eating or drinking, if applicable) while in the establishment or on the grounds of the establishment. This applies to all adults and to children 2 years of age and older. Only individuals who have been instructed not to wear a face covering by their medical provider are exempt from wearing one.** To support the safety of your employees and other visitors, a face covering should be made available to visitors who arrive without them.

☐ Symptom checks are conducted before visitors may enter the facility. Checks must include a check-in concerning cough, shortness of breath, difficulty breathing and fever or chills. These checks can be done in person or through alternative methods such as on-line check in systems or through **signage** posted at the entrance to the facility stating that visitors with these symptoms should not enter the premises.

☐ To the extent possible, movement of visitors to the worksite is limited to designated areas such as the reception or lobby area, customer service area, conference or meeting rooms, and public rest rooms.

☐ If necessary, staff are available to direct guests to meeting rooms upon entry to office space rather than congregating in lobbies or common areas.

X Visitors arriving at the worksite with children must ensure that their children stay next to a parent, avoid touching any other person or any item that does not belong to them, and are masked if age permits.

X Restrooms normally open to the public remain open to the public if the public can enter the facility.

☐ Hand sanitizer, soap and water, tissues and trash cans are available to the public at or near the entrance of the facility, at reception, and anywhere else inside the workplace or immediately outside where people have direct interactions.

X Use of digital files rather than paper formats (e.g., documentation, invoices, inspections,
forms, agendas) is encouraged.

☐ Break rooms, restrooms, and other common areas are being disinfected frequently, on the following schedule:
  - Break rooms: As used.
  - Restrooms: Daily.
  - Other: 

☐ Building infrastructure that supports bike commuting is open and capacity for bike storage increased if possible.

☐ Sharing of communal food is prohibited.

☐ Optional-Describe other measures (e.g. providing senior-only hours):

D. MEASURES THAT COMMUNICATE TO THE PUBLIC
  - A copy of this protocol is posted at all public entrances to the facility.
  - Signage has been posted to provide clear guidance to the public about how to maintain safety within the facility (e.g., maintaining physical distance, wear face covering, etc.).
  - Signage is posted at each public entrance of the facility to inform all employees and visitors that they should: Avoid entering the facility if they have a cough or fever.
  - Online outlets of the workplace (website, social media, etc.) provide clear information about hours, required use of face coverings, policies in regard to making appointments, and other relevant issues.

E. MEASURES THAT ENSURE EQUITABLE ACCESS TO CRITICAL SERVICES
  - Services that are critical to the customers/clients have been prioritized.
  - Transactions or services that can be offered remotely have been moved on-line.
  - Measures are instituted to assure access to goods and services for visitors who have mobility limitations and/or are at high risk in public spaces.

Any additional measures not included above should be listed on separate pages, which the business should attach to this document.

You may contact the following person with any questions or comments about this protocol:

Business Contact Name: Ed Knudson
Phone number: 661-722-6301

Date Last Revised: 09-16-2020
Reopening Protocol for Gyms and Fitness Establishments:
Appendix L

Effective as of Friday, June 12, 2020

Recent updates: (Changes highlighted in yellow)

8/11/20: Face covering are not required while engaged in outdoor activities requiring heavy exertion, but at least 8 feet of distance from others are required during these activities. Clarification also added to worker’s compensation benefits.

The County of Los Angeles Department of Public Health is adopting a staged approach, supported by science and public health expertise, to allow certain gyms and fitness establishments to safely reopen. The requirements below are specific to gym and fitness establishments permitted to reopen by the Public Health Officer. In addition to the conditions imposed on these specific businesses by the Governor, these types of businesses must also be in compliance with the conditions laid out in this Checklist for Gym and Fitness establishments.

Note that until further notice all gym and fitness establishment operations must be conducted outdoors. Outdoor operations may be conducted under a canopy, or other sun shelter but only as long as the sides are not closed and there is sufficient outdoor air movement. Outdoor pools may remain open. Be reminded that all employees and patrons must wear a face covering at all times except for outdoor activities requiring heavy exertion. These activities will require at least 8 feet of distancing from others.

Please note: This document may be updated as additional information and resources become available so be sure to check the LA County website http://www.ph.lacounty.gov/media/Coronavirus/ regularly for any updates to this document.

This checklist covers:

1. Workplace policies and practices to protect employee health
2. Measures to ensure physical distancing
3. Measures to ensure infection control
4. Communication with employees and the public
5. Measures to ensure equitable access to critical services

These five key areas must be addressed as your facility develops any reopening protocols.

All businesses covered by this guidance must implement all applicable measures listed below and be prepared to explain why any measure that is not implemented is
not applicable to the business.

Business name: Antelope Valley College
Facility Address: 3041 W Ave K, Lancaster CA 93536
Maximum Occupancy, per Fire Code: 440
Approximate total square footage of space open to the public: 8807

A. WORKPLACE POLICIES AND PRACTICES TO PROTECT EMPLOYEE HEALTH
(CHECK ALL THAT APPLY TO THE FACILITY)

☑ Everyone who can carry out their work duties from home has been directed to do so.

☑ Vulnerable staff (those above age 65, those with chronic health conditions) are assigned work that can be done from home whenever possible and should discuss any concerns with their healthcare provider or occupational health services to make appropriate decisions on returning to the workplace.

☑ Work processes are reconfigured to the extent possible to increase opportunities for employees to work from home.

☑ Alternate, staggered or shift schedules have been instituted to maximize physical distancing.

☑ All employees have been told not to come to work if sick, or if they are exposed to a person who has COVID-19. Employees understand to follow DPH guidance for self-isolation and quarantine, if applicable. Workplace leave policies have been reviewed and modified to ensure that employees are not penalized when they stay home due to illness.
  ○ Information on employer or government-sponsored leave benefits the employee may be entitled to receive that would make it financially easier to stay at home. See additional information on government programs supporting sick leave and worker's compensation for COVID19, including employee's sick leave rights under the Families First Coronavirus Response Act and employee's rights to workers' compensation benefits and presumption of the work-relatedness of COVID-19 exposures occurring between March 19 and July 5 pursuant to the Governor's Executive Order N-62-20.

☑ Upon being informed that one or more employees test positive for, or has symptoms consistent with COVID-19 (case), the employer has a plan or protocol in place to have the case(s) isolate themselves at home and require the immediate self-quarantine of all employees that had a workplace exposure to the case(s). The employer's plan should consider a protocol for all quarantined employees to have access to or be tested for COVID-19 in order to determine whether there have been additional workplace exposures, which may require additional COVID-19 control measures. See the public health guidance on responding to COVID-19 in the workplace.

☑ Employee screenings are conducted before employees may enter the workspace. Checks must include a check-in concerning cough, shortness of breath, difficulty breathing and fever or chills and if the employee has had contact with a person known to be infected COVID-19 in the last 14 days. These checks can be done remotely or in person upon the employees’ arrival. A temperature check should also be done at the worksite if feasible.

☑ In the event that 3 or more cases are identified within the workplace within a span of 14 days the
Employer should report this cluster to the Department of Public Health at (888) 397-3993 or (213) 240-7821. If a cluster is identified at a worksite, the Department of Public Health will initiate a cluster response which includes providing infection control guidance and recommendations, technical support and site-specific control measures. A public health case manager will be assigned to the cluster investigation to help guide the facility response.

Employees who have contact with others are offered, at no cost, an appropriate face covering that covers the nose and mouth. The covering is to be worn by the employee at all times during the workday when in contact or likely to come into contact with others. Employees who have been instructed by their medical provider that they should not wear a face covering should wear a face shield with a drape on the bottom edge, to be in compliance with State directives, as long as their condition permits it. A drape that is form fitting under the chin is preferred. Masks with one-way valves should not be used. Employees need not wear a face covering when the employee is alone in a private office or a cubicle with a solid partition that exceeds the height of the employee when standing.

Employees are instructed to wash or replace their face coverings daily.

All workstations are separated by at least six feet.

Break rooms, restrooms and other common areas are disinfected frequently, on the following schedule:

- Break rooms
  - As used.
- Restrooms
  - Daily.
- Other

Breaks are staggered to ensure that six (6) feet between employees can be maintained in break rooms at all times.

Ensure temporary or contract workers at the facility are also properly trained in COVID-19 prevention policies and have necessary supplies and PPE. Discuss these responsibilities ahead of time with organizations supplying temporary and/or contract workers.

Face coverings are required when employees are in the vicinity of others. Workers must have face coverings available and wear them in the fitness facility, offices, or in company-owned vehicles when traveling with others. Face covering are particularly important if physical distancing cannot be maintained on the job (for example, personal trainers and staff assisting members with exercises). Face coverings must not be shared. Employers are required to provide face coverings to all employees.

To ensure that masks are worn consistently and correctly, employees are discouraged from eating or drinking except during their breaks when they are able to safely remove their masks and physically distance from others.

Disinfectant and related supplies are available to employees at the following location(s):

- Facilities Services Lobby

Hand sanitizer effective against COVID-19 is available to all employees at the following location(s):

- Facilities Services Lobby

Employees are allowed frequent breaks to wash their hands.

A copy of this protocol has been distributed to each employee.

Each worker is assigned their own tools, equipment and defined workspace. Sharing held items is minimized or eliminated.

All policies described in this checklist other than those related to terms of employment are applied to staff of delivery and any other companies who may be on the premises as third parties.

Optional—Describe other measures:
B. MEASURES TO ENSURE PHYSICAL DISTANCING

☑ All gym and fitness establishment operations that are offered to the public are conducted outdoors. Outdoor operations may be conducted under a canopy, or other sun shelter, provided that the sides of the canopy or sun shelter are not closed and there is sufficient outdoor air movement within the space. Occupancy of outdoor spaces is limited to 50% or such a level that enables all employees and patrons to maintain at least a 6 foot physical distance at all times.

☒ Employees may continue to access indoor areas of the gym/fitness establishment to use the restroom or take breaks, to conduct essential office operations and to move supplies and materials in and out of the building each day. Patrons may not enter the gym/fitness establishment at any time or for any reason.

☐ If possible, implement a reservation system for patrons to reserve time in the outdoor fitness space so the facility can manage occupancy. Utilize the reservation system to contact patrons with reservations 24 hours before their scheduled arrival to confirm their reservation and ask if they or someone in their household is exhibiting any COVID-19 symptoms. If the patron answers in the affirmative the patron should be reminded that they should only utilize the fitness facility if they are not ill. Such communication can be done via app, email, or text, if possible.

☐ Avoid patrons queuing outside the facility and consider having a staff person at the entrance of the outdoor fitness space to help maintain occupancy levels.

☐ All patrons are required to wear cloth face coverings while they are at the outdoor fitness space. The only exception is when patrons may be swimming in an outdoor pool or when they are taking part in activities that require heavy exertion (These exertion activities will require a minimum of 8 feet of distancing from others). This applies to all adults and to children 2 years of age and older. Only individuals who have been instructed not to wear a face covering by their medical provider are exempt from wearing one. To support the safety of your employees and other visitors, a face covering should be made available to visitors who arrive without them.

☐ Gym occupancy is limited to 50% or less. Only those patrons that are actually exercising should be at the outdoor facility. Patrons waiting for their reservation time should wait in their cars.

☐ Group training classes such as aerobics, yoga and dance must take place outdoors and should be modified to limit the size of the class to ensure a minimum of six feet of physical distance between patrons.

   o Group exercise classes should only be offered if distancing requirements can be maintained and there is no person-to-person physical contact.

   o For high aerobic classes such as aerobics, spin or conditioning or machines such as elliptical, tread or stair machines, consider placing individuals and equipment at least 8 feet apart rather than 6 ft.

☐ High contact programs that require close contact less than six feet in distance should be suspended. This would include activities such as group sporting events, organized intramural activities, pick-up basketball, or organized races.

☑ Outdoor sports courts can be used for individual practice or for activities where 6 feet of physical distance can be maintained throughout the activity. When people are waiting to use a court, a maximum time limit for court use by each participant should be implemented. Participants waiting must practice physical distancing.

☒ Yoga classes held in temperatures over 100 degrees should be discouraged.

☐ Personal trainers are permitted if they maintain a six-foot distance from the client and wear a face covering.
Patrons must wear a face covering while receiving instruction and should be cautioned to only do exercises to the extent they can breathe comfortably while wearing a face covering over both their nose and mouth at all times.

Equipment is moved outdoors if it can be safely used outdoors, and marked off to ensure that clients can maintain at least a six (6) feet distance from others. Tape or other markings assist customers in keeping a 6 feet distance between them and others in any line. A marking identifies both a starting place for customers arriving in the line and 6-foot intervals for subsequent customers who are joining the line.

Use one-way foot traffic patterns throughout the outdoor fitness space with visual cues and signs.

Space all equipment and machines outdoors and at least six feet apart or take some out of service to achieve physical distancing.

Employees have been instructed to maintain at least a six (6) feet distance from customers and from each other in all areas of the outdoor gym space. Employees may momentarily come closer when necessary to accept payment, deliver goods or services, or as otherwise necessary.

Spa services are not allowed.

Consider suspending non-core activities, including retail operations, childcare, and food service. If fitness facilities operate such amenities, they should review and following the applicable posted county public health protocols for these activities.

Swimming facilities within the gym should comply with posted county protocols for public swimming pools and may continue to operate only if they are located outdoors.

C. MEASURES FOR INFECTION CONTROL

The HVAC system is in good, working order; to the maximum extent possible, ventilation has been increased. Consider installing portable high-efficiency air cleaners, upgrading the building’s air filters to the highest efficiency possible and making other modifications to increase the quantity of outside air and ventilation in offices and other spaces.

Symptom checks are conducted before patrons may enter the facility. Checks must include a check-in concerning cough, shortness of breath, difficulty breathing and fever or chills. These checks can be done in person or through alternative methods such as on-line check in systems or through signage posted at the entrance to the facility stating that visitors with these symptoms should not enter the premises.

Contactless payment and check-in systems are in place or, if not feasible, systems are sanitized regularly. Describe:

Perform thorough cleaning throughout the day in high traffic areas in the gym or fitness establishment building that may be used by employees, such as break rooms and areas of ingress and egress including stairways, stairwells, escalators, handrails, and elevator controls.

Frequently disinfect commonly used surfaces, including personal exercise machines and equipment, doorknobs, and hand washing facilities.

Require patrons to disinfect individual exercise equipment, mats, and machines before and after use with provided disinfecting wipes. Ensure that lined, non-touch trash receptacles are available throughout the fitness facility to dispose of used wipes.

- If members are unable or unwilling to wipe/desinfect equipment after exercise, provide “ready to clean” tags for members to place on equipment after use, to ensure equipment is disinfected by staff before the next use.

Make sure all workers have been trained to use and have an adequate supply of all-purpose cleaners and disinfectants, when needed. Follow Cal/OSHA requirements and manufacturer instructions for safe use.
and required personal protective equipment for cleaning products.

- Workers should have enough ventilation (air flow) in areas where they are disinfecting.
- Sanitary facilities are available for employee use only. Ensure that sanitary facilities stay operational and are continuously stocked at all times. Provide additional soap, paper towels, and hand sanitizer when needed. Install hands-free devices, if possible, including motion sensor sinks faucets, soap dispensers, sanitizer dispensers, and paper towel dispensers.
- Make sure trash cans are emptied regularly.
- Patrons should be reminded to maintain six feet of distance from janitorial or custodial staff. Implement a process to regularly check in with workers to ensure visitors are following this protocol. Ensure workers are able to share such information without fear of reprisal or retaliation.
- Procure options for third-party cleaning companies to assist with the increased cleaning demand, as needed.
- Consider implementing a check-out system for patrons to utilize any small equipment and accessories (i.e. exercise bands, ropes, mats, foam rollers, etc.). Develop a process to clean and disinfect these items upon return.
- Customers are encouraged to bring their own water bottles. Encourage patrons to bring their own towels and mats and consider disbanding the provision of any facility-provided towels or personal hygiene products.
- For any towels, cloth wipes, or other laundered items, provide a closed container where patrons can place used towels or other items. Ensure those items cannot be used again until properly laundered either by a commercial laundering service or an in-house laundering process. Store all clean linens in a clean, covered place. Ensure workers who handle dirty linens or laundry wear gloves.
  - Have a staff member provide the linens or other materials upon request instead of setting up a self-serve area.
- Amenities, including magazines, books, self-serve water stations (unless touchless), and other items for patrons, must be removed from all areas.
- When choosing cleaning chemicals, employers should use products approved for use against COVID-19 on the Environmental Protection Agency (EPA)-approved list and follow product instructions. Use disinfectants labeled to be effective against emerging viral pathogens, diluted household bleach solutions (5 tablespoons per gallon of water), or alcohol solutions with at least 60% alcohol that are appropriate for the surface. Provide employees training on manufacturer's directions and Cal/OSHA requirements for safe use. Workers using cleaners or disinfectants should wear gloves and other protective equipment as required by the product. Follow the asthma-safer cleaning methods recommended by the California Department of Public Health.
- Consider installing portable high-efficiency air cleaners, upgrading the building's air filters to the highest efficiency possible, and making other modifications to increase the quantity of outside air and ventilation in offices and other spaces.
- Public restrooms are closed.
- Hand sanitizer, tissues and trash cans are available to the public in the outdoor gym/fitness establishment space. Consider setting up at least one handwashing station that is available to employees and patrons in the outdoor space.
- Optional - Describe other measures (e.g. providing senior-only hours):

---

D. MEASURES THAT COMMUNICATE TO THE PUBLIC

APPENDIX L: Reopening Protocol for Gyms and Fitness Establishments
8/11/20/17/2020
A copy of this protocol is posted at all public entrances to the facility.

Signage at the entry, where customers line up and highly-visible locations that notifies employees and patrons of occupancy limits, the prohibition on entering the facility, requirements to maintain social distancing and that face coverings are required at all times, except in pools. Signage should also caution patrons about not overexerting themselves while wearing a face covering and exercising.

Online outlets of the establishment (website, social media, etc.) provide clear information about store hours, required use of face coverings, outdoor operations, limited occupancy, policies in regard to pre-booking, prepaid, and other relevant issues.

E. MEASURES THAT ENSURE EQUITABLE ACCESS TO CRITICAL SERVICES

- Services that are critical to the customers/clients have been prioritized.
- Transactions or services that can be offered remotely have been moved on-line.
- Measures are instituted to assure access to services for customers who have mobility limitations and/or are at high risk in public spaces.
  - Consider implementing special hours designated for high risk or medically vulnerable populations, including seniors with admittance by reservation only

Any additional measures not included above should be listed on separate pages, which the business should attach to this document.

You may contact the following person with any questions or comments about this protocol:

Protocols for Institutes of Higher Education

Recent updates:
9/14/20:
- Updated in section A to clarify Public Health reporting requirements when there is a COVID-19 exposure at the IHE. Changes include the addition of a link to the Line List for Cases and Contacts for reporting to the Department of Public Health (changes highlighted in yellow).
- Updated in section C to allow for opening select outdoor spaces that students living on campus may use for a limited set of academic activities provided that students using such spaces must keep a 6-foot physical distance and wear face coverings at all times (changes highlighted in yellow).
- Updated in section C to allow for limited film productions on campus (changes highlighted in yellow).
- Updated the Protocol for Exposure Management Plan (appendix) to define COVID-19 cases affiliated with Institutes of Higher Education, provide additional clarification on epidemiologically linked cases, and update the COVID-19 Outbreak Criteria (changes highlighted in yellow).

The Los Angeles County Department of Public Health is adhering to guidance from the California Department of Public Health, which recommends that counties with high levels of community transmission of COVID-19 limit the reopening of colleges and universities.

Colleges and universities in Los Angeles County will not be able to resume all in-person academic instruction, at this time. Institutions may continue to offer in person training and instruction for essential workforce for required activities that cannot be accomplished through virtual learning. All other academic instruction must continue to be done via distance-learning.

Faculty and other staff may come to campus for the purpose of providing distance learning, and other activities related to the purposes above, as well as maintaining minimum basic operations. The institution must comply with all relevant portions of this protocol to maximize safety for all employees.

Colleges and universities should also limit their on-campus student residency but may continue to provide housing for students who have no alternative housing options. For students enrolled in programs providing training and instruction for essential workforce, on campus housing should be offered only to students who must participate in in-person instruction in order to complete their training and who do not have alternative local housing options. For student athletes who are participating in on campus sports, campus housing should be offered in the small training cohorts as recommended by the state guidance.

Collegiate sports may only proceed in compliance with all the California Department of Public Health Specific Interim Guidance for Collegiate Athletics.

The County of Los Angeles Department of Public Health is adopting a staged approach, supported by science and public health expertise, to limit activities permitted at Institutes of Higher Education (IHE) until circumstances permit safe opening. The requirements below are specific to IHE. In addition to the conditions imposed on IHE by the State Public Health Officer, Institutes of Higher Education in Los Angeles County must also be in compliance with this Checklist for Institutes of Higher Education.
As noted in the summary box above, permitted activities are the following:

- On campus housing for students with no alternative residential option;
- Education, training and other support for essential workforce activities;
- Activities required for faculty to carry out distance-learning and other remote activities;
- Activities required for faculty and staff to carry out essential research projects;
- Activities required to maintain minimum basic operations;
- Any activities carried out as part of State or County COVID-19 response;
- Collegiate sports in compliance with CDPH guidance (see link above).

Note that IHEs may additionally be expected to comply with other DPH or CDPH protocols, including but not limited to:

- DPH retail establishment protocols
- DPH public health protocols for gyms and fitness centers
- DPH protocols for restaurants
- DPH protocols for office-based worksites
- DPH protocols for places of worship
- CDPH guidance for collegiate athletics.

Note that on-campus events remain prohibited with the exception of events related to constitutionally protected freedoms such as public protests and in-person faith-based services conducted by places of worship.

Please note: This document may be updated as additional information and resources become available so be sure to check the LA County website http://www.ph.lacounty.gov/media/Coronavirus/ regularly for any updates to this document.

This checklist covers:

1. Workplace policies and practices to protect employee health
2. Policies to protect the health of students
3. Measures to ensure physical distancing
4. Measures to ensure infection control
5. Communication with employees and the public
6. Measures to ensure equitable access to critical services.

These five key areas must be addressed as your facility develops any reopening protocols.

Institutes of Higher Education must implement all applicable measures listed below and be prepared to explain why any measure that is not implemented is not applicable to the institution.

APPENDIX U: REOPENING PROTOCOLS FOR INSTITUTES OF HIGHER EDUCATION

Revised 9/14/2020
A. WORKPLACE POLICIES AND PRACTICES TO PROTECT EMPLOYEES (CHECK ALL THAT APPLY)

✗ For the purposes of this protocol, the term “employees” includes but is not limited to paid, full-time and part-time faculty and staff, employees of companies that contract with the IHE for purposes of activities permitted above, student employees, interns and volunteers.

✗ Vulnerable employees (those above age 65, those who are pregnant, and those with chronic health conditions) should discuss any concerns with their healthcare provider or occupational health services to make appropriate decisions on returning to the workplace and if requested, should be assigned work that can be done from home whenever feasible.

✗ Work processes are reconfigured to the extent feasible to increase opportunities for employees to work from home.

✗ In compliance with wage and hour regulations, alternate, staggered or shift schedules have been instituted to maximize physical distancing.

✗ All employees continuing to work on campus during this period, have been told not to come to work if sick, or if they are exposed to a person who has COVID-19. Employees understand to follow DPH guidance for self-isolation and quarantine, if applicable. Workplace leave policies have been reviewed and modified to ensure that employees are not penalized when they stay home due to illness.

✗ Employees are provided information on employer or government-sponsored leave benefits the employee may be entitled to receive that would make it financially easier to stay at home. See additional information on government programs supporting sick leave and worker’s compensation for COVID-19, including employee’s sick leave rights under the Families First Coronavirus Response Act and employee’s rights to workers’ compensation benefits and presumption of the work-relatedness of COVID-19 pursuant to the Governor’s Executive Order N-62-20.

✗ The IHE has a COVID-19 Containment, Response and Control Plan that describes the IHE’s comprehensive approach to preventing and containing the spread of COVID-19 on campus. The Plan includes, but is not limited to the following elements:

✗ A designated COVID-19 Compliance Task Force that is responsible for establishing and enforcing all COVID-19 safety protocols and ensuring that staff and students receive education about COVID-19. A designated COVID-19 Compliance Officer who serves as a liaison to DPH in the event of an outbreak on campus.

✗ An IHE Exposure Management Plan consistent with DPH guidance that outlines the process for IHE instruction to known COVID-19 case(s) to isolate themselves at home; identification of persons that had an exposure to the case(s) on campus; requiring the immediate self-quarantine of all employees or students that had an exposure; reporting all COVID-19 exposures associated with the IHE to the Department of Public Health by completing the COVID-19 Case and Contact Line List for the Educational Sector; and, for all quarantined individuals to have access to or be tested for COVID-19 to understand the extent of spread on campus to inform additional COVID-19 control measures. See public health guidance on responding to COVID-19 in the workplace.

✗ In the event that a cluster of cases (3 or more cases within a span of 14 days) are identified, a plan or protocol to report this cluster immediately to the DPH via email at ACDC-Education@ph.lacounty.gov or via telephone at (888) 397-3993 or (213) 240-7821. DPH will work with the site to determine if the cluster meets the outbreak criteria for IHE. If the outbreak criteria have been met, DPH will initiate an outbreak response which includes providing infection control guidance and recommendations, technical support and site-specific control measures. A public health case manager will be assigned to the outbreak investigation to help guide the response.
The identification of an adequate supply of housing for students and/or staff who reside in on-campus congregate housing for purposes of isolation and quarantine.

A plan to ensure support for quarantined students, including meals, remote coursework, health services, transportation and monitoring/tracking affected students to promote compliance.

A plan to provide options for remote online education, including asynchronous delivery to accommodate ill or quarantined students, as well as those with technology or travel constraints.

A robust communication plan and associated communication tools to ensure timely and accurate delivery of information to employees, students, and as appropriate, students’ families and the broader community.

Employee screenings are conducted before employees may enter the workspace. Screening must include a check-in concerning cough, shortness of breath, difficulty breathing and fever or chills and if the employee has had contact with a person known to be infected COVID-19 in the last 14 days. These checks can be done remotely or in person upon the employees’ arrival. A temperature check should also be done at the worksite if feasible.

Employees who have contact with others in the course of their employment (e.g., the public, students, or other employees) are offered, at no cost, an appropriate face covering that covers the nose and mouth, unless Cal/OSHA standards require further respiratory protection. The covering is to be worn by the employee at all times while on campus when in contact or likely to come into contact with others. Employees who are faculty members, teachers or lecturers may wear face shields with a cloth drape attached to the bottom of the shield and tucked into the shirt, instead of face coverings when lecturing, provided that such employees remain 10 feet from the nearest student or other employee. Employees need not wear a cloth face covering when the employee is alone in a private office or booth or a walled cubicle with a solid partition that exceeds the height of the employee when standing.

Employees are instructed to wear their face coverings properly and to properly wash, replace, or sanitize their face covering frequently.

All individual workstations, or individuals working in the same areas as part of a team are separated by at least six feet.

In compliance with wage and hour regulations, breaks are staggered to ensure that physical distancing can be maintained in break rooms.

All employees, vendors and delivery personnel have been provided instructions regarding maintaining physical distancing and the use face coverings when around others.

The IHE shall require or strongly recommend that all staff be immunized each autumn against influenza unless contraindicated by personal medical conditions.

Break rooms, restrooms, classrooms, and other common areas are disinfected frequently, on the following schedule:

- Break rooms: As Used
- Restrooms: Daily
- Classrooms: Daily
- Other: Daily

Disinfectant and related supplies are available to employees at the following location(s):

Facilities Services Lobby.
Hand sanitizer effective against COVID-19 is available to all employees at the following location(s):

- Facilities Services Lobby.

Soap and water are available to all employees at the following location(s):

- Restrooms.

Employees are allowed frequent breaks to wash their hands.

Each employee is assigned their own tools, equipment and defined workspace consistent with health and safety standards. Sharing of workspaces and held items is minimized or eliminated, consistent with health and safety standards.

Employees are provided time during their shifts to implement cleaning practices. Cleaning assignments should be assigned during working hours as part of the employee's job duties.

All policies described in this checklist other than those related to terms of employment are applied to staff of delivery and any other companies who may be on the premises as third parties.

This Protocol has been made available to all employees.

Optional—Describe other measures:

B. POLICIES TO PROTECT THE HEALTH OF STUDENTS (CHECK ALL THAT APPLY)

The provisions below apply for the limited activities permitted on campus.

- All students who have reason to be on campus to conduct one of the permitted activities listed above are required to wear a face covering anywhere on campus or participating in any IHE sponsored activity where there are or may be other people. They are not required to wear the face covering when on campus in their own personal living space.

- Vulnerable students (those above age 65, those who are pregnant, and those with chronic health conditions) are able to complete their coursework from home whenever feasible and should discuss any concerns with their healthcare provider to make appropriate decisions about returning to campus.

- All students who have reason to be on campus to conduct one of the permitted activities listed above have been told to remain home or in their campus residence if they are feeling sick and to report their illness to the appropriate contact (e.g., student health services) within the IHE.

- Symptom checks are conducted before any permitted activity that may require students to be on campus. Students living in on-campus housing have been instructed to carry out daily screening, including a check-in concerning cough, shortness of breath or fever and any other symptoms the student may be experiencing. A temperature check should be done if feasible.

- The IHE has instructed all students who have reason to be on campus to conduct a permitted activity that immunization against influenza is required.

- The IHE has provided students with educational materials about the IHE's approach to preventing transmission of COVID-19 on campus, including, but not limited to:
  - Proper respiratory etiquette;
  - Hand hygiene;
  - Required use of cloth face coverings unless Cal/OSHA standards require respiratory protection when in contact with other students or employees on campus;
  - Appropriate use of cloth face coverings, including the need to launder cloth face coverings regularly.
COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER

X What to do if they are feeling sick; and
X How to access health care services on campus.

X IHEs provide students with easily accessible alcohol-based hand sanitizer, tissues, and, if feasible, contactless trash cans in all common areas.

X The IHE maintains a supply of cloth face coverings to provide to students who are required to be on campus to conduct a permitted activity and are unable to obtain their own.

C. MEASURES TO ENSURE PHYSICAL DISTANCING (CHECK ALL THAT APPLY)

X The number of people in any indoor room on campus (e.g., labs or other specialized classrooms, staff meeting rooms, offices) is limited at any given time, such that all people in the room can easily maintain at least a six-foot distance from one another at all practicable times.

☐ On-campus housing (e.g., residence halls, dormitory style housing, on-campus apartments):
  ☐ Occupancy of on-campus housing is limited to students who have no other feasible residential option.
  ☐ Total occupancy of on-campus housing is limited to no more than one student per bedroom.
  ☐ To the extent feasible, the number of students sharing a given bathroom facility is reduced. Impermeable barriers (such as Plexiglas) are installed between sinks and other fixtures if it is not possible to maintain at least six feet distance during use. When sinks are closer than six feet, disable every other sink to create more distance. Students are educated about the infection risk associated with bathrooms and are discouraged from placing toothbrushes or other personal care items directly on the bathroom sink or counter. Encourage students to consistently use the same bathroom and shower facilities to contain any possible transmission to within that cohort.
  ☐ To the extent feasible, students have been instructed to stay in their individual rooms while in their on-campus housing.
  ☐ Students have been instructed to maintain at least six feet distance from each other when in on-campus housing; students may momentarily come closer when passing in hallways or stairwells, riding elevators, when in restrooms, or as otherwise necessary.
  ☐ Common areas (e.g., kitchenettes, community rooms, lobbies, lounges, study areas) have been closed.
  ☐ Outdoor areas may be open for use by students residing on campus for academic purposes only, such as studying or attending online classes. Use of such spaces is limited to students who are living on-campus and any such designated space must comply with the following requirements:
    ☐ Any space must be entirely outdoors; a canopy may be used, but only if all 4 sides are not enclosed;
    ☐ Occupancy is limited such that all students using the space are able to maintain a physical distance of at least 6 feet from one another at all practicable times;
    ☐ Any seating is arranged to enable physical distancing of at least 6 feet between students;
    ☐ All frequently touched surfaces, including tables and chairs, are cleaned regularly; and
    ☐ Signs are posted to remind students to wear face coverings, keep a 6 feet distance from others, and not to congregate.

X No social events or activities are permitted as per current local and state health officer

APPENDIX U: REOPENING PROTOCOLS FOR INSTITUTES OF HIGHER EDUCATION

Revised 9/14/2020

Page 6 of 17
orders.

☐ Building access is limited to residents only; non-residents, including outside guests, non-residential staff, and others is prohibited, except for essential visitors, such as personal care attendants for students with disabilities.

☒ Elevator capacity is limited to the number of people that can be accommodated while maintaining a 6-foot physical distance between riders; this number can be adjusted to a maximum number of 4 riders at a time for any elevator that does not allow for 6-foot physical distance between riders. All riders are required to wear cloth face coverings and are directed to refrain from talking. Consider elevator sizes, number of building floors, and daily number of employees and visitors to establish physical distancing guidelines appropriate for elevator riders.

☒ To ease elevator traffic, encourage stairwells to be used for “up” and “down” traffic, if feasible, with increased cleaning of stairwells.

☐ Dining halls: Other directives below notwithstanding, dining hall operations at this time are limited to outdoor dining and takeout activities only.

☐ IHE dining halls offer meal pick-up for all students that have a meal plan.

☐ Self-service buffets are prohibited. To the extent feasible, mealtimes are staggered so as to reduce the number of students and employees in line for meal pick up or waiting to be seated for outside dining. Consider scheduled mealtimes or meal pick-up times.

☐ Physical distance between tables/chairs in outdoor dining areas has been increased to support at least 6 feet of physical distancing. Effective July 3, 2020 and until further notice, indoor dining is prohibited per order of the Los Angeles County Health Officer.

☐ Steps are taken to limit contact between dining hall staff, employees and students. Physical barriers such as partitions or Plexiglas are installed at registers, host stands, ordering counters, etc., where maintaining physical distance of six feet is difficult.

☐ Operations have been redesigned, where feasible, to achieve physical distancing between employees. (e.g., Kitchen and other back of house area's floors are marked to reinforce physical distancing requirements.)

☐ Additional measures to ensure physical distancing are recommended, including one-way lines for pick-up, entrance, and exit, no self-serve buffets, floor markings, and signage.

☒ Instructional settings (classrooms, lecture halls, laboratories), in person campus instruction is limited at this time to activities required for training of essential workforce. Provisions below apply only to training of essential workers that cannot be carried out via distance learning, under the terms of current state directives. Indoor education is only permitted for coursework or training that is essential for completing certification, licensure, or educational requirements for essential workforce which requires specialized indoor settings (e.g. laboratories) and cannot be provided virtually or outdoors specialized.

☒ In-person classes for essential workers should be held outdoors whenever possible, weather permitting, and IHEs may utilize a canopy, or other sun shelter, but only if the sides of the canopy or sun shelter are not closed and there is sufficient outdoor air movement. Outdoor classroom occupancy is limited to a maximum of 50% of total occupancy for the space, provided 6 feet of distance can be maintained between students at all times.

☒ To the extent feasible, students who are on campus to conduct permitted activities are cohorted in groups of fewer than 30 to reduce the risk of widespread exposure among students.

☒ Administrative office buildings:

☒ Employees and students have been instructed to maintain at least six feet distance from
each other and anyone else encountered on campus in course of conducting permitted activities; employees may momentarily come closer when necessary to accept deliveries, to accept payments, or as otherwise necessary.

X Elevator capacity is limited to the number of people that can be accommodated while maintaining a 6-foot physical distance between riders; this number can be adjusted to a maximum number of 4 riders at a time for any elevator that does not allow for 6-foot physical distance between riders. All riders are required to wear cloth face coverings and are directed to refrain from talking. Consider elevator sizes, number of building floors, and daily number of employees and visitors to establish physical distancing guidelines appropriate for elevator riders.

X To avert elevator crowding above the levels noted above, use of stairs is encouraged. Stairwells are designated to be used for "up" or "down" traffic, if feasible, with increased cleaning of stairwells.

X Measures are implemented to ensure physical distancing of at least six feet between employees and other individuals on campus. This can include use of physical partitions or visual cues (e.g., floor markings, colored tape, or signs to indicate where workers and/or employees should stand.)

X Furniture in areas that may need to be open for public use (e.g., building lobbies, reception areas, or waiting areas) has been eliminated or greatly reduced to support physical distancing. If removal of furniture is not feasible, signage has been added to encourage physical distancing.

X Customer service windows or counters have been closed to the extent feasible. When open, users are required to maintain a distance of 6 feet from service personnel.

X Employees and students are discouraged from congregating in any area, but especially common areas or high traffic areas such as bathrooms, hallways and stairwells.

X To the extent feasible, flow of traffic within the workplace is modified to minimize contacts (e.g., doors for entry or exit only; directional hallways or passageways have been established for foot traffic in a way that prevents employees from passing by one another).

X In-person meetings are strongly discouraged in favor of virtual meetings. If in-person meetings are essential, in the course of conducting permitted activities, they are limited such that all participants in the room can easily maintain at least six-foot distance from one another at all practicable times and all participants must wear cloth face coverings and meetings are held in rooms large enough to maintain physical distancing.

☐ On-campus transport vehicles:

☐ Use of on-campus transport vehicles (e.g., buses, shuttle vans, etc.) is limited such that all riders are able to maintain a physical distance of at least 6 feet from one another if feasible. Consider removing or spacing seats to support physical distancing or use of colored tape to mark seats that riders are allowed to use. Where possible, additional transport vehicles are available to support excess capacity on busy routes. If it is not feasible to maintain physical distance, then impermeable barriers have been installed to limit contact between riders.

☐ Where feasible, impermeable barriers have been installed to protect the driver from passengers that are boarding and exiting the vehicle.

☐ A passenger entry and exit plan has been developed to minimize physical contact and crowding with other passengers during entry and exit of the transport vehicle.

☐ All riders are required to wear cloth face coverings.

☐ Vehicle windows are opened, when practicable, to increase outdoor air flow.
D. MEASURES TO ENSURE INFECTION CONTROL (CHECK ALL THAT APPLY TO THE FACILITY)

- The HVAC system in all campus buildings is in good, working order; to the maximum extent feasible, ventilation has been increased in all buildings, consistent with the American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE) standards. To the extent feasible, portable high-efficiency air cleaners are installed, the building’s air filters are upgraded to the highest efficiency possible, windows and doors are opened, and other modifications have been made to increase the quantity of outside air and ventilation in offices and other spaces. Mechanical ventilation systems in buildings must be operated continuously when persons are in the building.

- To minimize the risk of Legionnaires’ disease and other diseases associated with water, take steps to ensure that all water systems and features are safe to use after a prolonged facility shutdown.

- Use of drinking fountains is prohibited. Faculty, staff and students are encouraged to carry their own water and to use water refilling stations where available for personal water bottles. Water refilling stations should be cleaned and disinfected regularly. Post signs at refilling stations that encourage users to wash or sanitize their hands after refilling.

- Enhanced cleaning of all campus buildings is completed on a regular basis by a professional cleaning service or trained custodial staff.

- To the extent feasible, doors, light switches, trash cans, etc. are contactless.

- Common areas and frequently touched objects such as tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, elevator switches and buttons, touch screens, printers/copiers, grab bars, and handrails are disinfected at least daily or more frequently depending on use, using EPA approved disinfectants and following the manufacturer’s instructions for use.
Sharing of materials or objects (e.g., staplers, three-hole punchers, pens, coffee mugs, etc.) has been eliminated, to the greatest extent feasible. Where items must be shared, they are disinfected between shifts or uses, whichever is more frequent, including the following: shared office equipment such as copiers, fax machines, printers, telephones, keyboards, staplers, surfaces in reception areas, shared work stations, etc. with a cleaner appropriate for the surface.

All classroom or meeting room AV equipment that must be shared (computers, projectors, microphones, remotes, clickers) is sanitized between uses.

At all times while on campus to conduct permitted activities, employees, students and visitors to campus are instructed that they must wear cloth face coverings unless Cal/OSHA standards require respiratory protection. This applies to all adults and to children age of 2 and older. Only individuals who have been instructed not to wear a face covering by their medical provider are exempt from wearing one. Students or employees alone in closed offices, or walled cubicles, or when students are within their own dormitory rooms, residential suites, and apartments are not required to wear cloth face coverings. Students may also remove cloth face coverings when eating in the dining halls or when wearing a cloth face covering is otherwise impracticable (e.g., while showering, brushing teeth, etc.).

To the greatest extent permitted by law, campus access for non-essential visitors or volunteers is limited. In-person activities or meetings involving external groups, especially with individuals who are not from the local geographic area (for example, community, town, city or county) are not allowed at this time. Visitors to campus buildings are by appointment only and are pre-registered in a visitor log that includes a visitor’s name, phone number and email address. Visitors are instructed to come to their appointments alone. If a visitor must be accompanied by another person (e.g., for translation assistance, or because the visitor is a minor, or has minor children) their information is captured in the visitor log, if feasible. To the extent feasible, movement of any visitors while on campus is limited to designated areas such as the reception or lobby area, customer service area, conference or meeting rooms, and public rest rooms.

Disinfectant and related supplies are available to all employees at the following location(s):
- Facilities Services Lobby.

Disinfectant and related supplies are available to students at the following location(s):
- Facilities Services Lobby.

If feasible, all reception areas where physical distancing is difficult to achieve have barriers (e.g., Plexiglas barriers) installed to limit contact between employees and students or visitors.

Visitors to campus buildings are by appointment only and are pre-registered in a visitor log that includes a visitor’s name, phone number and email address. Visitors are instructed to come to their appointments alone. If a visitor must be accompanied by another person (e.g., for translation assistance, or because the visitor is a minor, or has minor children) their information is captured in the visitor log, if feasible.

Screening is conducted before visitors may enter campus buildings. Checks must include a check-in concerning fever, cough, shortness of breath, difficulty breathing and fever or chills, and whether the person has had contact with a person known or suspected to be infected with the Novel Coronavirus (COVID-19) within the last 14 days. These checks can be done in person or through alternative methods such as on-line check in systems or through signage posted at the entrance to the facility stating that visitors with these symptoms should not enter the premises.

Visitors arriving at the campus with children must ensure that their children stay next to a parent while inside buildings or in courtyards, avoid touching any other person or any item that does not belong to them, and are masked if age permits.

Hand sanitizer, soap and water, tissues and trash cans are made conveniently available to the public within all buildings.
COUNTY OF LOS ANGELES DEPARTMENT OF PUBLIC HEALTH
ORDER OF THE HEALTH OFFICER

☒ Restrooms, lobbies, break rooms, and lounges and other common areas are being disinfected frequently, on the following schedule:

☒ Restrooms: Daily
☒ Lobbies: Daily
☒ Break rooms: As used.
☒ Waiting areas: Daily
☒ Other:

☐ Building infrastructure that supports bike commuting is open and capacity for bike storage increased if feasible.

☐ Optional-Describe other measures:

E. MEASURES THAT COMMUNICATE TO THE CAMPUS COMMUNITY AND THE PUBLIC

☒ A copy of this protocol is posted at all public entrances to the facility, provided that for large institutions, a sign with a QR code or link to the IHE's website that posts a copy of the protocol is sufficient to meet this requirement.

☒ Signage has been posted to provide clear guidance to the public about how to maintain safety within the facility (e.g., maintaining physical distance, wear face covering, etc.).

☒ Signage is posted at each primary public entrance of each campus building to inform all employees, students, and visitors that they should: Avoid entering the building if they have a cough or fever.

☒ IHE has a communication plan for campus closure that includes outreach to students, employees and the community.

☒ Online outlets of the workplace (website, social media, etc.) provide clear information about required use of face coverings, policies in regard to making appointments, and other relevant issues.

☒ This protocol is shared with any organizations affiliated with the IHE, such as off-campus clubs, Greek organizations, etc., and the IHE ensures that these organizations are in compliance. Develop systems to enforce and hold affiliated organizations accountable for adhering to this protocol.

F. MEASURES THAT ENSURE EQUITABLE ACCESS TO CRITICAL SERVICES

☒ Measures are instituted to assure access to online or specialized in-person educational services for vulnerable students.

☒ Administrative services or operations that can be offered remotely (e.g. class registration, form submission, assignment submission, etc.) have been moved on-line.

☒ Measures are instituted to assure access to goods and services for students and visitors who have mobility limitations and/or are at high risk in public spaces.
Any additional measures not included above should be listed on separate pages, which the business should attach to this document.

You may contact the following person with any questions or comments about this protocol:

Protocol for COVID-19 Exposure Management in Institutes of Higher Education

Recent Updates:
9/14/20: Provided definition for COVID-19 cases affiliated with Institutes of Higher Education (changes highlighted in yellow) and updated
8/23/20: Provided additional clarification on epidemiologically linked cases and updated the COVID-19 Outbreak Criteria.

A targeted public health response to contain COVID-19 exposures at a community-level can help maximize the impact of the Los Angeles County Department of Public Health (DPH) COVID-19 response.

IHE are trusted community partners that can help DPH improve the timeliness and impact of the Public Health response through rapid initiation of an IHE COVID-19 Exposure Management Plan (EMP) when notified of COVID-19 cases and clusters on campus. Immediate implementation of an EMP when a single case of COVID-19 is identified at an IHE can accelerate the ability to contain the spread of infection and prevent outbreaks from occurring on campus.

The steps for managing exposures to 1, 2, and 3 or more COVID-19 cases on campus are described below and summarized in Appendix A. Because IHE will vary in the level of resources available for COVID-19 exposure management, required steps are the minimum elements that must be included in the EMP. Recommended steps include optional elements for exposure management where IHE resources are sufficient.

The term “campus” in this document refers to non-residential settings on the IHE property and residential congregate settings that house or employ large groups of IHE students and employees, both on- and off-campus.

Exposure Management Planning Prior to Identifying 1 COVID-19 Case at IHE Setting

☒ Required: A designated IHE COVID-19 Compliance Task Force that is responsible for establishing and enforcing all COVID-19 safety protocols and ensuring that staff and students receive education about COVID-19. A designated COVID-19 Compliance Officer who serves as a liaison to DPH in the event of a COVID-19 cluster or outbreak at an IHE setting.
☐ Required: Adequate supply of housing for students and faculty living on campus to safely isolate or quarantine when needed.
☒ Required: A plan for all students and employees who have symptoms consistent with COVID-19 infection or are quarantined because of exposure to case(s) on campus to have access to testing or be tested for COVID-19 infection.

Exposure Management for 1 COVID-19 Case at IHE Setting

☒ Required: After identifying 1 laboratory confirmed COVID-19 case (student or employee), IHE Compliance Task Force instructs the case to follow Home Isolation Instructions for COVID-19 (www.publichealth.lacounty.gov/acd/hcorona_2019/covidisolation/).
☒ Required: IHE Compliance Task Force informs the case that DPH will contact the case directly through the DPH Case and Contact Investigation Program to collect additional information and issue the Health Officer Order for Case Isolation.
☒ Required: IHE Compliance Task Force works with the case to generate a list of students and/or employees who were in close contact with the case within the 2 days prior to the case being identified.

Revised 9/14/2020
employees with exposure to the case while infectious. IHE cases include all students or employees affiliated with the IHE including those who work or reside both on- and off-campus. IHE Compliance Officer submits this information to DPH using the COVID-19 Case and Contact Line List for the Educational Sector within 1 business day of notification of a case. If needed, additional time may be requested. For technical assistance on how to complete the line list contact: ACDC-Education@ph.lacounty.gov.

- A case is considered to be infectious from 2 days before their symptoms first appeared until they are no longer required to be isolated (i.e., no fever for at least 24 hours without the use of medicine that reduces fever AND other symptoms have improved AND at least 10 days have passed since symptoms first appeared). A person with a positive COVID-19 test but no symptoms is considered to be infectious from 2 days before their test was taken until 10 days after their test.

- A person is considered to have been exposed if they are one of the following:
  - An individual who was within 6 feet of the infected person for more than 15 minutes, even if a non-medical face covering was worn;
  - An individual who had unprotected contact with the infected person’s body fluids and/or secretions of a person with confirmed or suspected COVID-19 (e.g., being coughed or sneezed on, sharing utensils or saliva, or providing care without using appropriate protective equipment).

**Required:** Students and employees that are identified to have had an exposure to the case are notified by the IHE Compliance Task Force through a letter or other communication strategies. A Campus Exposure Notification letter template is available at: COVID-19 Template Notification Letters for Education Settings. The notification of exposure should include the following messages:

- Students and employees with exposure to a campus case should test for COVID-19, whether or not they have symptoms, and inform IHE of test results. This will determine the extent of disease spread on campus and serve as a basis for further control measures. Testing resources include: Employee Health Services or Occupational Health Services, Student Health Center, Personal Healthcare Providers, Community Testing Sites: covid19.lacounty.gov/testing. Individuals who need assistance finding a medical provider can call the LA County Information line 2-1-1, which is available 24/7.

- Exposed students and employees should quarantine for 14 days since last exposure to the case while infectious (as defined above), even if they receive a negative test result during their quarantine period. A person who tests negative may subsequently develop disease, with or without symptoms, if tested during the incubation period (i.e. time period between exposure and disease onset). Home Quarantine Guidance for COVID-19 is available at: www.publichealth.lacounty.gov/acd/nccoronavirus/covid19quarantine.

- IHE will assist with identifying housing for students and faculty living on campus to safely isolate or quarantine when needed.

- DPH will contact exposed students and employees directly though the Case and Contact Investigation Program to collect additional information and issue the Health Officer Order for Quarantine.

**Recommended:** IHE Compliance Task Force will determine whether additional notification is needed to inform the wider campus community about the exposure and precautions being taken to prevent spread of COVID-19. A general notification letter template is available at: COVID-19 Template Notification Letters for Education Settings.

---

**Exposure Management for 2 COVID-19 Cases within a 14-day Period at IHE Setting**

**Required:** After identifying 2 laboratory confirmed cases (students and/or employees) within a 14-day period, IHE follows required steps for 1 confirmed case.
Recommended: IHE Compliance Task Force assesses whether the 2 cases are epidemiologically linked, meaning that the two affected individuals were both present at some point in the same setting and same time while either or both were infectious.*

*A case is considered to be infectious from 2 days before symptoms first appeared until they are no longer required to be isolated (i.e., no fever for at least 24 hours without the use of medicine that reduces fever AND other symptoms have improved AND at least 10 days have passed since symptoms first appeared). A person with a positive COVID-19 test but no symptoms is considered to be infectious from 2 days before their test was taken until 10 days after their test.

- Determination of epidemiological links between cases may require further investigation to understand exposure history and identify all possible locations and persons that may have been exposed to the case while infectious at the site. NOTE: Epidemiologically linked cases include persons with identifiable connections to each other such as sharing a physical space (e.g. in a classroom, office, or gathering), indicating a higher likelihood of linked spread of disease in that setting rather than sporadic transmission from the broader community. A tool is available to assist in the assessment of epidemiological links at: COVID-19 Exposure Investigation Worksheet for the Education Sector. For technical assistance on how to assess epidemiological links, please contact ACDC-Education@ph.lacounty.gov.
  - If epidemiological links do not exist, IHE continues with routine exposure management.
  - If epidemiological links exist, IHE reinforces messages to students and employees on precautions to take to prevent spread on campuses, including implementation of site-specific interventions.

Exposure Management for ≥ 3 COVID-19 Cases within a 14-day Period at IHE Setting

Required: If IHE identifies a cluster of 3 or more laboratory confirmed cases (students and/or employees) within a 14-day period, IHE should proceed with the following steps:

- Report the cluster to DPH Acute Communicable Disease Control (ACDC) Education Sector Team within 1 business day via email at: ACDC-Education@ph.lacounty.gov or by calling (888) 397-3993 or (213) 240-7821.
- Complete the Line List for Cases and Contacts, available at: COVID-19 Case and Contact Line List for the Educational Sector and submit to ACDC-Education@ph.lacounty.gov. For technical assistance on how to complete the line list contact ACDC-Education@ph.lacounty.gov.
- The ACDC Education Sector Team will review the Line List for Cases and Contacts to determine whether the outbreak criteria have been met. The ACDC team will contact IHE within 1 business day to advise on next steps.
  - If outbreak criteria are not met, IHE continues with routine exposure management.
  - If outbreak criteria are met, DPH Outbreak Management Branch (OMB) is activated.
  - An OMB public health investigator is assigned to coordinate with the IHE on outbreak management for the duration of the outbreak investigation.
  - IHE Compliance Task Force will submit requested information, including updates to the Line List for Cases and Contacts to the OMB Investigator until the outbreak is resolved (i.e., at least 14 days since the last confirmed case).

Recommended: Prior to reporting cluster to the DPH ACDC Education Sector Team, IHE Compliance Task Force will determine whether at least 3 cases in the cluster have epidemiological links. A tool is available to assist in the assessment of epidemiological links at: COVID-19 Exposure Investigation Worksheet for the Education Sector.
COVID-19 Outbreak Criteria for Institutes of Higher Education

IHE Non-residential Setting: At least 3 laboratory-confirmed cases with symptomatic or asymptomatic COVID-19 infection within a 14-day period in a group* with members who are epidemiologically linked, do not share a household, and are not a close contact of each other outside of the campus.

*IHE groups include persons that share a common membership (e.g., Greek or other social organization, athletic teams, sports and recreation clubs, academic cohort, workplace on campus). Epidemiological links require the infected persons to have been present at some point in the same setting during the same time period while infectious.

IHE Residential Setting*: At least 3 laboratory-confirmed cases with symptomatic or asymptomatic COVID-19 infection within a 14-day period within the same or multiple dwellings that share a common area.

*IHE Residential Settings include on- and off-campus residential housing facilities where groups of IHE students and/or employees congregate and/or reside (e.g., on-campus residences, on- or off-campus Greek housing).
Appendix A: Steps for managing exposures to 1, 2, and ≥ 3 confirmed COVID-19 cases in non-residential or residential congregate settings associated with IHE
