d. UC Changes in COR and Text Requirements – Dr. Lee Grishman

- CORs must be no older than 5 years to retain transferability

- Texts must not be older than 7 years from the date of publication. Exceptions: Courses such as Computer Science and other technical disciplines which require updated texts for currency must be within 5 years of publication to retain transferability.

Dr. Grishman reiterated the requirements listed above and indicated when a course is approved as CSU or IGETC general education course we need to now follow these revision guidelines. A brief discussion took place regarding the current Title 5 revision requirements which is a six year cycle and this new requirement would change our cycle to every four years. Mrs. Lowry indicated this change is substantial and may require us to have some conversations at the division level. She asked the representatives to take this information back to their division so this item can return to the agenda on November 8, 2012 as a report item. Dr. Darcy Wiewall requested clarity on what she should discuss with her division since this seems to be a mandatory change to our revision cycle. - Ms. Lisa Karlstein stated that she would consult with the faculty in the music area and report back to the committee. - Ms. Cindy Littlefield asked if an assist document needs to be attached in CurricUNET for each movement course listed on her degree. Dr. Grishman stated that if the course is listed on the template then an assist document needs to be attached. The discipline faculty could pick and choose which courses to list on the TMC, which would benefit the students in this major if the faculty lists as many courses as possible. Mrs. Sharon Lowry stated that she would recommend the faculty narrow the scope of the degree by only linking those courses that would fulfill the major. Mrs. Melissa Jauregui stated that the TMC template states that if the course is listed in that section, an assist document needs to be on file for approval. Mrs. Lowry also stated that the aquatics courses should not be listed because the college may shut down the pool. Cindy Littlefield stated that if we have the courses then they need to be attached to the program.
