2013-2014
Academic Policies & Procedures Committee Meeting No. 4
MINUTES

1. CALL TO ORDER AND ROLL CALL

A motion was made and seconded to call the October 10, 2013 AP&P Committee Meeting to order at 3:08p.m. Mrs. Linda Harmon, AP&P Faculty Co-Chair, called the meeting to order at 3:08p.m. Motion carried.

2. OPENING COMMENTS FROM THE COMMITTEE CO-CHAIR

Mrs. Linda Harmon stated that courses continue to move through the CurricUNET approval process. Several course listed at the end of the agenda still have not been submitted. It was requested that the representatives work with faculty to ensure all courses are submitted quickly so they may be approved on or before November 14, 2013.

Mrs. Linda Harmon requested a motion to amend the agenda to include item 4g COR and SLO Qualifications for making changes, moving BIOL 120, General Organismal, Ecological, and Evolutionary Biology to action item 7gg, DM 128L, Web Design and Production II Lab to action item 7hh, moving PSCI 101, Physical Science to action item 7ii, and moving PHYS 211, General Physics to action item 8axii. A motion was made and seconded to amend the agenda as requested. Motion carried.

3. APPROVAL OF MINUTES – September 26, 2013 Minutes

A motion was made and seconded to approve item 3 September 26, 2013 meeting minutes. Motion carried.

4. INFORMATIONAL ITEMS

a. 2013-14 AP&P Deadline – Courses and Programs need to be approved by 11/14/2013 for Fall 2014 inclusion

- CORs that need to be revised this academic year – List at the end of the agenda
- TMC Degrees that need to be developed and brought to AP&P – List at the end of the agenda
- C-ID Approval needed, COR revised and brought to AP&P – List at the end of the agenda

Mrs. Harmon reminded the representatives that this deadline is fast approaching with only four weeks left to receive course and program approval so changes can be implemented in the coming academic year. She requested an update from the faculty representatives on the remaining TMC programs that need to be developed. It was noted that at this time Film, Television and Electronic Media along with Journalism cannot be developed since we do not have a full-time faculty member in these areas that can undertake this challenging work. Dr. Cowell informed the committee that in regards to C-Id descriptor AJ 160, the faculty have created a new course to fulfill this criteria, which when approved, will be AJ 210. This is also the case for C-Id descriptor KIN 100, the Kinesiology faculty have developed a new course, KIN 100, to match the requirements of this descriptor. It was also stated that CHEM 101 (AVC Course) is not the proper course to pair with C-Id descriptor CHEM 100, nor is AVC course ENGL 102 the pair for C-Id descriptor ENGL 110. As a result, Dr. Grishman indicated that he would need communication from the faculty requesting the courses to be resubmitted for the appropriate C-Id designation.

b. 13-14 Academic Year AP&P Representative Proxy Memo needed for all committee members

- Establish Proxy for voting purposes by submitting a memo to AP&P

Ms. Jeffrie Ahmad notified the committee that her proxy has since retired from the college or will be shortly and a new proxy memo will be submitted for future meetings.

c. Existing Programs in CurricUNET – Contact Melissa prior to creating a program copy

d. CurricUNET Workshops:

- **No additional trainings**

Mrs. Linda Harmon notified the committee of the completion of the training opportunities this fall semester. If faculty need assistance during the revision or course development process, they are welcome to contact her directly to set up a meeting date to review the steps within CurricUNET.

Mrs. Linda Harmon stated that the Website listed on the agenda is the latest document produced by the Chancellor's Office and those faculty members who are responsible for establishing repeatability in their disciplines should reference this document during the research process.

g. COR and SLO Qualifications for making change (Amended Agenda Item)

Mrs. Linda Harmon requested clarification from the committee on whether it is appropriate for a faculty member who is not qualified to teach the course material to review and revise the student learning outcomes. Mrs. Sharon Lowry stated that only the faculty responsible for the course and qualified to teach the information should review and revise the student learning outcomes.

5. REPORT ITEM

a. Dance Repeatability – Cindy Littlefield

Ms. Cindy Littlefield notified the committee that the document is nearly complete and will be submitted for inclusion on the November 14, 2013 agenda. She also stated that while it has been an immense amount of work trying to compile the information for Dance, she is also working with the faculty to bring the documentation together for Kinesiology and Athletic Training.

Mrs. Linda Harmon requested an update on the steps taken to resolve the low score card rating. Dr. Jeffrie Ahmad indicated that Scott Jenison was planning on attending today's meeting and should arrive momentarily to discuss this item. He is not combining or consolidating courses he is simply not offering the higher level course. Mr. Jenison is requesting that the courses be approved without drastic changes made at this time. Mrs. Harmon confirmed that the Student Learning Outcomes for each course have been completed and approved by the Student Learning Outcomes committee. Mr. Luis Echeverria stated that he received the English as a second language course outline of records from American River that is equivalent to English 101 and transfers as such to four year institutions. Mrs. Harmon indicated that she reviewed score cards from other colleges with a similar score to ours and some have fewer courses but some have a similar structure to ours.

6. DISCUSSION ITEM

a. Content Review and Course Validation Process for Prerequisites

Mrs. Linda Harmon explained to the committee that she feels this item should be tabled until the spring term when more time can be given to this item. Dr. Jeffrie Ahmad asked whether we already had another way of establishing prerequisites by providing the catalog language from three California State University or University of California colleges that have the requisite established. Mrs. Harmon indicated that our college does already have that practice in place.

Mrs. Lowry wanted to clarify that the instructor was not seeking revision to the class maximum. Currently the lecture component is approved at 48 student seats while the laboratory is approved at 24 student seats. Mr. Towe indicated that the class maximum is still appropriate for the class. Motion carried without revision.

b. First Reading: New Course Development (COR Complete / SLO Complete)

i. HD 102, Soldiers to Scholars

A motion was made and seconded to approve HD 102, Soldiers to Scholars course development. Dr. Bob Harris was present to discuss the course creation and answer questions. Mrs. Linda Harmon stated that CSUs offer this type of course but not necessarily for units. Citrus college offers a course like this as well. Dr. Harris indicated that CSUN has a great program, offering workshops/seminars. In coming years, 2.9 million veterans will potentially seek enrollment in California colleges alone. These individuals go from zero to hero to zero again when they come back home. Dr. Harris expressed the importance of meeting the needs of this growing population by offering this course and showing them that we care for them and they can succeed. Motion carried without revision.

c. First Reading: New Program Development (PLO Complete)

i. Associate in Arts in Theatre Arts

A motion was made and seconded to approve the new Associate in Arts program development in Theatre Arts. Genie Trow and Jonet Leighton were present to discuss the program development and answer questions. Ms. Trow indicated that students have approached her to express their interest in transferring to a UC or private college outside of California and this new degree will address the needs of those students. She indicated that the TMC degree in Theatre Arts limits students to CSUs only but this degree will allow an opportunity for those students who are more interested in other colleges. Cindy Littlefield expressed her agreement with the development of this degree but the faculty should be prepared for a long wait for the Chancellor's Office to approve. Mrs. Harmon asked Dean Trimble whether it will be confusing for students to have both degrees as an option. Ms. Trimble indicated that it would be but it is the role of this committee and the faculty to determine if it is appropriate to have both degrees. She suggested that the faculty meet with the counselors to provide them with the information necessary to properly guide students to the correct degree based on their needs. Mrs. Lowry stated that she feels we need to focus on the TMC and get that resolved first. Jonet Leighton requested clarity on the issues surrounding the TMC as she was not aware of any hold ups on that degree's approval. It was indicated that repeatability continues to be a concern under the new regulations and the courses that have been denied C-id approval need to be revised. Mrs. Lowry indicated that she does not understand why we would have two degrees all of a sudden when we went years without a degree at all. She feels we should finish and receive approval on the TMC first before pursuing approval on this degree. Motion carried without revision but with one abstention.

d. Course Deactivation

i. MUS 191, Treble Choir-Children's Music

A motion was made and seconded to approve designating the course listed as deactivated. Motion carried.

Mrs. Linda Harmon stated that the course deactivations listed here will be approved at the next meeting, while items 9a and 9b are courses that require SLO approval through the paper form since they were submitted in CurricUNET prior to the incorporation of the SLO link. She requested the committee representatives discuss the above courses with the discipline faculty walking them through the new process and requirement of SLO approval prior to AP&P approval of the COR. Ms. Lisa Karlstein requested clarification on the proper process as she was led to believe that the SLOs for courses in CurricUNET would be entered and revised within the system. She indicated that she spoke with Fredy Aviles, SLO Cochair, who explained that faculty should want their courses as up to date as possible. She explained that of course she wants to present the most up to date course to students, but

this whole process is so time consuming that faculty are no longer allowed the time to focus on teaching. Mrs. Harmon explained that any course listed under 9a or 9b need to have the SLO form completed and submitted via email to their SLO representative and Fredy Aviles for review and approval. This extra step is only completed by those courses that were submitted in the CurricUNET prior to the inclusion of the new SLO approval step. Once approved, AP&P can review and approved the COR and DE components of the course.

Mrs. Linda Harmon wanted to note that at this time we cannot develop the TMC in three degree areas: Elementary Teach Education; Film, Television and Electronic Media; and Computer Science. She indicated that we do not have full-time instructors in the first two areas mentioned and we do not have course work in the third area mentioned. Ms. Trimble requested clarification on when the four newly approved TMC degrees will be added to our college catalog and available for students to claim as their major. Mrs. Lowry indicated that we cannot advertise the new degrees until they are approved by ACCJC but we cannot seek approval until after our accreditation visit and the preliminary report is written.

Scott Jenison informed the committee that a taskforce has been created to review the ESL course structure, which consists of Lucia Pozo, Angela Koritsoglou, Dr. Scott Lee, and Dr. Tom O'Neil. Mr. Jenison indicated that a survey went out to faculty to gather information. He also stated that it is not the intent of the faculty to add prerequisites to the current courses but to streamline the courses to move students through faster by not offering certain courses in the spring semester. The taskforce is also investigating the possibility of developing ESL 101, which will be equivalent to ENGL 101. Mrs. Linda Harmon requested clarification on whether the classes are lecture or lab based to which Mr. Jenison explained the courses are lecture in nature. Mrs. Harmon also asked whether we had good student retention rates in our online courses. Mr. Jenison stated that we have

30-50% retention in the online courses and the face-to-face courses are about 70% retention. Mrs. Lowry asked Dean Parnell whether she knew our retention rate for all online courses. She responded that AVC online courses currently have a 56% retention rate. Mrs. Linda Harmon requested another update on November 14, 2013.

c. Content Review and Course Validation Process for Prerequisites

Mrs. Linda Harmon suggested that this item be tabled until the spring semester. Mrs. Melissa Jauregui indicated that we were already out of compliance with the request from the Chancellor's Office to submit our report of how our college plans to proceed with the establishment of future requisites. As a result, Mrs. Lowry suggested that a taskforce be created to review the documents and present their final version of our action plan to the committee at our first meeting in the spring. Lisa Karlstein, Darcy Wiewall, Scott Lee, and Linda Harmon agreed to participate on the taskforce.
