Items	Person(s) Responsible	Time	Action
STANDING ITEMS:			
I. Approval of Previous Minutes of January 24, 2024.	All	2 minutes	Pamela pointed out that part of the minutes was missing and it was agreed, with revisions, that they are approved.
II. Constituent Reports	All	3 minutes	Pamela stated that she had some concerns regarding the recording of Zooms and the Otter software. Bridget confirmed that in meetings it sometimes pops up. Shami stated that IT is working on it, that it appears to attach to an account, and that the host can remove people who have it. Ashley stated that the host could try not letting people into Zoom that have it. Shami stated that he would have IT check into it and get back to the group.
DISCUSSION/ACTION ITEMS:			
I. Administrative Reorganization Review of Input	Jennifer	30 minutes	The President Zoomed into the meeting and stated that she would like the group to look over the feedback and that she

would like to get together work groups and think tanks to analyze the feedback. She asked the group how everyone would like to see the revisions, like track changes, and highlights, and if everyone was okay with the timeline.

<u>Hal</u> stated that he does not like track changes and that it is ineffective but could not say which way would be best. He stated that with Spring Break coming up, people are away at conferences, which does not allow for getting feedback, and asked for extended time.

<u>Jennifer</u> stated that we need to find balance in getting the work done, we need to utilize the time we have, and we are all busy, and need to work together.

<u>Pamela</u> stated that she agreed with Hal, she does not like track changes and asked for highlighted changes.

Bridget stated that it is a little different than what was used before and that it is a little clearer and that less people will be editing the document.

<u>Pamela</u> stated that she wants to make sure to send out the feedback and then the revised document.

<u>Jennifer</u> reassured the group that the survey feedback would be sent out.

<u>Pamela</u> asked if the group could see all the feedback emails.

<u>Jennifer</u> stated that she would compile it into one document, that she has received feedback in meetings, in emails, and that she would do her best.

<u>Ledonna</u> stated that in the final draft of the reorg maybe provide the origin of the change and connect it with the feedback.

<u>Ashley</u> suggested that some people like track changes to provide maybe both that and a summary.

Jennifer stated that she would do an Executive Summary of Changes. She stated that there has been a modification, adding a Dean of Student Health & Wellness, that there is a need for counseling, and that the Dean will develop the center. She stated that the Dean of Student Life will be changed to the Dean of Student Health & Wellness and that the Dean of Student Support will be open for recruitment. She stated that the Reorg has

			been authored by her and her team,
			working collaboratively, to restructure
			AVC as we look forward. She asked
			everyone to digest this, there is a lot, to
			look at the timeline and that she would do
			her best to accommodate.
			Shami stated that the cost differential for
			the Budget Compliance is a 2-grade
			income increase and that created parity
			within the Director positions.
			<u>Jennifer</u> stated that this is the first
			conversation regarding the development
			of the Dean of Student Health & Wellness
			position.
			<u>Lauren</u> stated that the proposal is a lateral
			move and not a promotion.
			<u>Jennifer</u> stated that Merced combines
			positions, like the EOPS, and CalWORKs,
			and that the positions can be meshed
			together.
			<u>Pamela</u> asked about the workgroups, the
			makeup, and whether it would be CCC or
			outside.
			J <u>ennifer</u> stated that she would like to hold
			it at various times, open it up to everyone
			who wants to come to have an
			opportunity to take part and that it does
			not need to be formal.
			<u>Hal</u> asked if the Dean of Student Wellness
			would replace the Executive Director.
			Jennifer stated that yes, that it is a 1 to 1 exchange.
			<u>Lauren</u> clarified that the Executive
			Director of Student Health would now be
			morphed into the Dean position and that
			it is a lateral move.
			Jennifer stated that she would send out
			the metrics, that the Director of Student
			Development and Judicial Affairs, that the
			word "Judicial" is being struck as it sounds
			punitive, and that she wants to set a
			positive atmosphere.
II. BP 2715 Code of Ethics	Bridget	5 minutes	Bridget stated that this item has been at
			CCC several times and stated that she was
			aware that the faculty had some concerns
			and asked if there were suggestions for
			revisions.
			Hal stated that the earlier version did go
			out for constituent review and that the
			overall voice is that they are not interested
			in this policy.
			<u>Jason</u> asked for clarification of the process,
	I	1	

that a consensus is required to move this item to the Board and how would it go to the Board without consensus.

Bridget stated that the policies are the Board's, that the Board wants this, and that it would be inappropriate to obstruct the process.

<u>Jason</u> clarified that he was not obstructing but that consensus is needed to move to the Board and asked why a process is there if it's just the Board's policy.

Bridget clarified that the process is to have people participate, that the responsibility falls on the President's shoulders, and that this policy was introduced 9 months ago, and understands that there are challenges. She stated that she wanted more than just "we don't want it," for reasons as to why not to move the policy forward. She stated that the Board wants the policy and "you Jason, are interfering with the process."

Pamela stated that the atmosphere in CCC has changed and the group is trying to get things done. She stated that the feedback comes back and that this is not out of line. She stated that the original document came out, and the group requested examples of what other colleges were doing. She stated that she has never seen such a level of disrespect for 1 board member, with their tone, and with whispering to each other. She stated that she has noticed a more positive tone with Legal Counsel. She stated that the Board members represent constituents in their District areas, so it is important to share questions and concerns. **Bridget** stated that the board relies on the staff.

<u>Pamela</u> stated that stated that CCC's input does matter.

<u>Bridget</u> stated that we cannot personalize this and that all the members have a responsibility.

Shami read a portion of AP 2510 under Membership and Functions of Governance Councils, Section A, 7, (f) and that everyone has input, that it genuinely is sought and encouraged input from the constituent groups.

<u>Hal</u> stated that he was fine with this going out.

Bridget asked the group to come prepared

Jason stated that he had had several discussions with his constituents and that at the current moment, there is no place for this policy, and he asked to pull it entirely. Shami reminded the group tift fout of 7 members were in favor, it would move forward. Bridget asked the group if there were any new revisions to bring them forward. Jason stated that he had provided a compatible revision with links, but that the broader problem is, that his flat-out wrong. Ran out of time, but it was tabled until the next meeting for further discussion. Pamela asked what the competencies are and how they would be measured. Lauren stated it is from the Chancellor's Office, that she needs to talk to the faculty and look at how other schools are doing this. Pamela stated that there needs to be training in DEIA to understand how it is measured. Lauren stated that it is a journey for everyone and is determined as a community. Ashley stated that training is needed before evaluating takes place, to determine what it looks like as it sounds punitive. Lauren stated that Educational Administrators sit on evaluations for faculty, and everyone needs the DEIA training and understand the metrics. Bridget stated that the policy could be developed and then get the procedures in place after that. Pamela asked that this not go out until the competencies are worked out. and look at how other schools are doing this. Pamela stated that there needs to be training in DEIA to understand how it impacts evaluations and how it is measured. Lauren stated that it is a journey for everyone and is determined as a community. Ashley stated that training is needed before evaluating takes place, to determine what it looks like as it sounds punitive. Lauren stated that Educational Administrators sit on evaluations for faculty, and everyone needs the DEIA training and understand the metrics. Bridget stated that the policy could be developed and then get the procedures in place after that. Pamela asked that this not go out until the competencies are worked out. LaDonna stated that she wants to make sure that the timeline for when people are held responsible is communicated. Bridget stated that language could be added with the implementation date. Pamela suggested that this be brought back with suggested language. Shami stated that the evaluation has to include this, the District decides what it is and that there is work to do.

Items	Person(s) Responsible	Time	Action
STANDING ITEMS:			
I. Approval of Previous Minutes of February 28, 2024, & March 13, 2024.	All	5 minutes	Minutes are approved.
II. February 14, 2024 – Waiting on Language	All	1 minute	
III. Constituent Reports	All	10 minutes	There was a discussion as to whether the changes for reorg were already going through before approval by the board. It's stated that per Final draft reorganization 2_27_2024 there was not going to be implementation until July. In the HR sub-committee, prioritizing sheets came out with cost analysis and there is a saving so there are not going to be additional positions unless the new administration makes that determination. One of the positions was prosed under Academic Affairs is Alex Parisky, approved by Kathy and this position was not previously part of Academic Affairs. This

change reflects a change in the reorg.

It's explained that these are 2 separate processes at play, the reorg is one, and the outline is in the document of what is happening on dates of implementation, HR's process is separate, it is an annual process they go through. Managers can put positions in and that is not part of the reorg, it is required for the manager to provide their program review documents, or if there is a grant requirement and support documents. HR sent an email regarding the process; they have to provide applications to the committee and mark down who doesn't meet eligible requirements.

It's mentioned that because a position is proposed this doesn't guarantee the committee will accept positions.

It's noted again that Parisky is now part of Academic Affairs giving the impression that the move is part of the reorg.

The memo is referenced, and it's noted that the memo doesn't have an implement date at the end of each item, unless states otherwise, changes will be implemented on July 1st.

The team is encouraged to review page 3 under 1 changes in administrative services, the last sentence is referenced – "Upon acceptance of the reorganization the change in reporting structure will take effect.", 3 positions like this position are moving they are Director of Instructional Technology and Multimedia, Internal Auditor, Supervisor of Campus Events and Operations.

The team agrees to review the reorg as well as the HR sub-committee process further at a later time to think about the process and make suggested amendments.

Topics shift to other updates. The Senate has just gotten around to giving implementation guidelines from the state, and gen ed requirements must be decided

				before the end of the semester because of changes under AB 928. AB 1705 latest guidelines will help students in terms of math and English success. ASO went to Washington and had a very good learning opportunity going to Capitol Hill and talking to Mike Garcia. ASO has a general assembly coming up this week, they currently have ASO elections going on.
				CMSA and HR are working with HR on creating reclass space for CMSA staff, CMSA will present awards to confidential at the annual classified appreciation lunch.
DISC	JSSION/ACTION ITEMS:		•	
I.	CMSA Reclass Process	Lauren	5 minutes	CMS is working with HR to reclass the process mirroring that of the classified process, so as this process in the future will align with CVA, it will be released later like the classified process it is a recommendation to the president.
II.	BP/AP 3515 – Reporting Crimes	Jennifer	5 minutes	The team approved the postponement of agenda items 2, 3, and 4 for the next meeting to allow more time for review.
III.	BP/AP 3550 – Drug-Free Environment and Drug Prevention Program	Jennifer	5 minutes	Postponed until next meeting
IV.	BP/AP 3560 – Alcoholic Beverages	Jennifer	5 minutes	Postponed until next meeting
RETU	RNING ITEMS:			
I.	BP 2715 Code of Ethics	Bridget	5 minutes	
II.	Student Service Members Guidelines - Revised	Hal	5 minutes	A copy of the Service Members Guidelines with suggested changes is distributed and discussed. A concern is raised with the document stating that "Faculty shall partner with", and whether this document is requiring faculty outside of bargain and state code, ed code, and law, to complete duties and if the institution can require faculty to collaborate with student service members, when we already have a policy for incompletes, and we resort to an incomplete policy that faculty must abide by. It is asked that as an institution to

converse with a student, who within the institution has purview over the process of students in class.

It is noted that faculty should discuss and collaborate with students when they have things come up, but the concern is if it can be required.

It is pointed out that as an institution if a veteran goes to the dean, the dean can't grant the request which is why the student should collaborate with the instructor. It's noted that communication with the student in contract and law is with the faculty. It is part of their responsibility, it is coded in law, especially for online courses, that frequent and substantiated contact is required. In online education it's an accreditation standard and required in the federal rules around accreditation, it is required that faculty speak with students.

There is a question about a recommendation to strike the first sentence of the document stating as a military-friendly campus, there's a request for an elaboration on the reasoning behind this.

The reasoning is that it may not be appropriate for the school to take a position, that it is up to students and the community, that doing so may be infringing on 1st amendment rights, and that AVC can't speak for all. It is also stated that faculty being required to collaborate with students who are deployed military legally have 2 options to withdraw without penalty or receive an incomplete.

It's mentioned that there are other options like fully online sections, and there are options that we have that the government doesn't include. The dean and faculty can agree to move the student to the same section for seamless enrollment and the dean and student can sign off.

It's mentioned that the document states that faculty shall partner with student service members regarding assignments.

This is not the right that the student has. The student has 2 rights and to require faculty to alter completion dates may be interfering with academic freedom rights. If there are military members out, the law gives them 2 options. We have an incomplete grade policy that already addresses that and that is what we do for all, the difference is that military students have 2 additional rights as well, and faculty must abide by college policies.

The question is raised what if something happens and a student requires an incomplete?

If there is an incomplete the faculty discusses how to remove the incomplete.

It's stated that this document is not saying students determine due dates, it is just saying a conversation takes place, the point of the document is not to take the place of the process but to enfold the existing process into a different paradigm with a student who is a military service person.

There is a comment in regard to the concern with the statement in support of military service members, to caution that what if it were to say LGBTQ+ campus, what are we saying or not saying when striking or not striking out?

It's mentioned that may not be appropriate either.

It's noted that if pertinent to the subject matter it is appropriate. We make statements like we are a Hispanic serving institution; the topic is military and that is why it is there.

There is another comment made that we are military friendly, we do programs that are military specific, priority registration, outreach, and are involved in military and veteran events on campus, not groundbreaking to say, we have already taken that side.

There is a reference to the section "Faculty will have the discretion to determine the scope and extent of any changes to the standard course requirements (such as the timeframe in which late assignments will be due); they shall exercise that discretion reasonably under the circumstances and in the spirit of promoting academic progress of Student-Servicemembers." And to the section, "in collaboration with their instructors, shall discuss options that are in the best interest of the student's academic progress and service to the country." There is a comment that we may be overinterpreting the faculty's ability to make decisions and that this is just stating for faculty to discuss progress. There is a comment that it looks like not a lot of crosstalk between the Union and Senate, that they should draft the

This recommendation is taken as a motion and accepted.

The Antelope Valley Community College District shall be known as a "Drug Free" District, and adopt a "Zero" tolerance policy within regards to any Scheduleschedule I and Schedule II substance deemed unlawful by local, state, and federal laws.

The District shall be free from all drugs and from the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees.

The unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in all facilities under the control and use of the District.

Any student or employee who violates this policy will be subject to disciplinary action (consistent with local, state, or federal law), which may include referral to an appropriate rehabilitation program, suspension, demotion, expulsion, or dismissal.

The following are summaries of the major health risks of and common symptoms associated with alcohol and other drug use and abuse. This is not a complete listing but an overview. Each individual will experience the effects of alcohol and other drugs in a slightly different way given his/her tolerance, body size, family history, gender, and other physical and psychological factors. Abuse of alcohol and other drugs can lead to chemical dependency and can be harmful during pregnancy.

Alcohol

Health Risks: Alcohol in moderate amounts causes dizziness, dulling of the senses, impairment of coordination, reflexes, memory and judgment. Increased amounts of alcohol produce staggering, slurred speech, double vision, mood changes and, possibly, unconsciousness. Larger amounts result in death. Alcohol causes damage to the liver, heart and pancreas. It also may lead to malnutrition, stomach irritation, lowered resistance to disease and irreversible brain or nervous system damage.

Symptoms: Glazed eyes, obvious odor, pale and dry skin, broken blood vessels in facial area, 33 slowed motor coordination and enlarged stomach.

Marijuana

Health Risks: Marijuana use leads to a substantial increase in heart rate. It impairs or reduces short-term memory and comprehension, and motivation and cognition are altered. With extended use it can produce paranoia and psychosis. Smoking marijuana damages the lungs and pulmonary system. Marijuana contains more cancer causing agents than tobacco. It also lowers male sex hormones, suppresses ovulation, and causes changes in the menstrual cycle and possibly causes birth defects.

Symptoms: Someone who uses marijuana may laugh inappropriately and have bloodshot eyes, dry mouth and throat, and a tell-tale odor of the drug, a poor sense of timing and increased appetite.

Cocaine and Crack

Health Risks: Cocaine and its derivative crack produce dilated pupils and elevated blood pressure, heart rate, respiratory rate and body temperature. They may also cause insomnia, loss of appetite, tactile hallucinations, paranoia, seizure and death.

Symptoms: Someone using cocaine may experience muscle twitching, panic reactions, anxiety, numbness in hands and feet, loss of weight, a period of hyperactivity followed by a depression, a running or bleeding nose and sustained depression.

Barbiturates

Health Risks: In small doses, barbiturates produce calmness, relaxed muscles and lowered anxiety. Larger doses cause slurred speech, staggering gait and altered perception. Very large doses taken in combination with other central nervous system depressants (e.g., alcohol) cause respiratory depression, coma and sometimes death.

Symptoms: A person who uses barbiturates may have poor muscle control, appear drowsy or drunk, become confused, irritable, inattentive or have slowed reactions.

Amphetamines

Health Risks: Amphetamine use causes increased heart and respiratory rates, elevated blood pressure, and dilated pupils. Larger doses cause rapid or irregular heartbeat, tremors and physical collapse. An amphetamine injection creates a sudden increase in blood pressure that can result in stroke, high fever and heart failure.

Symptoms: An individual using amphetamines might begin to lose weight, have periods of excessive sweating, and appear restless, anxious, moody and unable to focus. Extended use may produce psychosis, including hallucinations, delusions and paranoia. **Hallucinogens (including PCP, LSD, Mescaline, Peyote, Psilocybin)**

Health Risks: PCP, or angel dust, interrupts the part of the brain that controls the intellect and impulsive behavior. PCP blocks pain receptors. Violent episodes, including self-inflected injuries, are not uncommon. Chronic users report memory loss and speech difficulty. Very large doses produce convulsions, coma, heart and lung failure, or ruptured blood vessels in the brain. LSD, mescaline, peyote, etc. cause dilated pupils, elevated body temperature, increased heart rate and blood pressure, and tremors.

Symptoms: Someone using PCP might appear moody, aggressive or violent. Such an individual may become paranoid and experience hallucinations and have time and body movements slowed. LSD users may experience loss of appetite, sleeplessness, confusion, anxiety and panic. Flashbacks may also occur.

Narcotics (including Heroin, Codeine, Morphine, Opium, Percodan)

Health Risks: Because these narcotics are generally injected, the use of contaminated needles may result in AIDS and hepatitis. Symptoms of overdose include shallow breathing, clammy skin and convulsions. An overdose may result in a coma or even death.

Symptoms: Some signs of narcotic use are euphoria, drowsiness, constricted pupils and nausea. Other symptoms include itchy skin, needle or "track" marks on the arms and legs, nodding, loss of sex drive and appetite. When withdrawing from the drug, sweating, cramps and nausea occur.

The Superintendent/President shall assure that the District distributes annually to each student and employee the information required by the Drug-Free Schools and Communities Act Amendments of 1989 and complies with other requirements of the Act.

The District shall provide educational and preventive information about opioid overdose and the use and location of opioid overdose reversal medication to students at all campuses. The Superintendent/President shall establish administrative procedures to assure that each campus health center applies to distribute dosages of a federally approved opioid overdose reversal medication and participates in the Naloxone Distribution Project through the State Department of Health Care Services.

Draft email guidelines for listservs

Things to Do:

- Post questions. Offer answers. Share your knowledge.
- Messages that know your audience. It is important to recognize that your audience may have varying degrees of knowledge and experience.
- Messages that are courteous.
- Messages posted to a listserv must relate to the issues and business of the committee or entity for which the listserv was established.
- Send only items that will interest everyone on the list when using the listserv.
- Always be courteous and respectful of others' opinions.
- Use descriptive subject lines. The subject line is the main access point for following a specific discussion.
- Be brief and to the point.
- Please make sure to include a signature this should include your name, library, position and email address. This will enable someone to respond directly to you instead of the entire listsery.
- Please be considerate of others. For example: do not SHOUT (e.g. use ALL CAPS) at people and be careful with humor and sarcasm as email is easily misinterpreted.
- Spell check your message before sending.
- Reread your message before hitting send, make sure it includes everything you want included. Multiple messages to finish a thought can be frustrating for the other members of the listsery. Ideally, two messages would be the maximum messages to send per day.

Do Not Post:

- Political messages that advocate a particular viewpoint, including links to articles and editorial pieces, unless they relate to a legal issue and the need to place it in context.
- Materials, such as newsletters and related content, generated by a for-profit entity.
- Any message, data, information, text or other material ("Content") that is unlawful, libelous, defamatory, obscene, pornographic, indecent, lewd, harassing, harmful, invasive of privacy or publicity rights, abusive, inflammatory, threatening, offensive, vulgar or otherwise injurious to third parties, or that would constitute or encourage a criminal offense, create any liability or violate any local, state, national, or international law or regulation. Users of the listserv may be held individually liable for any communications they send through the listserv.
- Any content such as charity requests, chain letters or letters relating to pyramid schemes, advertising or solicitations for funds, political campaigning, and mass mailings.
- Any harmful content including without limitation, viruses, Trojan horses, worms, time bombs, zombies, cancel bots, or any other computer programming routines that may damage, interfere with, surreptitiously intercept or expropriate any system, program, data or personal information.
- Any email received from someone else without their expressed permission to do so.
- Any copyrighted material without the permission of the copyright holder.

• Avoid sending multiple listserv messages in quick succession or sending more than two messages in a day.

Replying to a message on the listserv:

- Be extremely judicious in your use of the "reply all" button. Remember that when you press "Reply All" to a listsery message, you are sending your message to the entire listsery, not just to the author. To reply just to the author, press reply or address your email to the individual's personal email address.
- If you have a new question or train of thought start a new email or change the subject heading to signal a change in subject.
- Do not send a reply to the listserv correcting someone else's spelling or grammar. If you feel the need to send such a letter, send it only to the person you are correcting not the entire listsery.
- Do not subject any list member to a personal attack. If a message or topic angers or frustrates you, wait until you are calm before responding. Consider calling the individual or waiting until you next meet them in person to discuss the issue at hand. Much nuance is lost without face-to-face contact to read body language.
- Spell check your message before sending.
- Reread your message before hitting send, make sure it includes everything you want included.
