

ANTELOPE VALLEY COLLEGE
ACADEMIC SENATE MEETING
February 17, 2011
3:00 p.m. – SSV 151

To conform to the open meeting act, the public may attend open sessions

- 1. CALL TO ORDER AND ROLL CALL**
- 2. OPENING COMMENTS FROM THE SENATE PRESIDENT**
- 3. OPEN COMMENTS FROM THE PUBLIC**
- 4. APPROVAL OF MINUTES**
 - a. December 2, 2010 (attachment)
- 5. REPORTS**
 - a. Program Review – Carol Eastin
 - b. Tenure & Evaluation – Jennifer Gross
- 5. ACTION ITEM**
 - a. Faculty Professional Development Chair (Kathryn Mitchell) - 3 year term 2010-2013
 - b. Status of the GED
 - c. Equivalencies:
 - Economics (attachment)
 - Education (attachment)
 - Physical Science (attachment)
 - Respiratory Care (attachment)
- 6. DISCUSSION ITEM**
 - a. College Budget Projections 2011 – 2015 (attachment)
 - b. Accreditation Standards Guide (attachment)
 - c. Faculty Training in Identifying Potentially Dangerous Students (attachment)
 - d. Substantive Change Report
- 7. SENATE ADMINISTRATIVE BUSINESS**
 - a. Announcements
 - 2011 Teaching Institute – February 25-26, 2011 - San Jose, CA
 - 2011 Accreditation Institute – March 18-19, 2011 - Napa, CA
 - 2011 Spring Plenary Session – April 14-16, 2011 - San Francisco, CA
 - 2011 Faculty Leadership Institute – June 16-18, 2011 - Monterey, CA (TBC)
 - 2011 Student Learning Outcomes Institute – July 13, 2011 - San Diego, CA
 - 2011 Curriculum Institute – July 14-16, 2011 - San Diego, CA
 - b. Appointments
 - Student Success & Equity Committee
 - Dorothy Williams – Basic Skills Rep. (2 year term)
 - Sara Breshears – Adjunct Assistant Professor
- 8. ADJOURNMENT**

NON-DISCRIMINATION POLICY

Antelope Valley College prohibits discrimination and harassment based on sex, gender, race, color, religion, national origin or ancestry, age, disability, marital status, sexual orientation, cancer-related medical condition, or genetic predisposition. Upon request, we will consider reasonable accommodation to permit individuals with protected disabilities to (1) complete the employment or admission process, (b) perform essential job functions, (c) enjoy benefits and privileges of similarly-situated individuals without disabilities, and (d) participate in instruction, programs, services, activities, or events.

Upon request, this agenda will be made available in appropriate alternative formats to persons with disabilities, as required by Section 202 of the Americans with Disabilities Act of 1990. Any person with a disability who requires a modification or accommodation in order to participate in a meeting should direct such request to Mr. Christos Valiotis, Academic Senate President, at (661) 722-6306 (weekdays between the hours of 8:00 a.m. and 4:30 p.m.) at least 48 hours before the meeting, if possible. Public records related to agenda items for open session are available for public inspection 72 hours prior to each regular meeting at the Antelope Valley College Academic Senate's Office, Administration Building, 3041 West Avenue K, Lancaster, California 93536.

**ANTELOPE VALLEY COLLEGE
ACADEMIC SENATE MEETING**

**February 17, 2011
3:00 p.m. – SSV 151**

1. CALL TO ORDER AND ROLL CALL

Mr. Christos Valiotis called the February 17, 2011 Academic Senate meeting to order at 3:02 p.m.

2. OPENING COMMENTS FROM THE SENATE PRESIDENT

- Mr. Valiotis welcomed Senate Representatives to another semester and reported the primary topic of conversation during the winter break (Intersession) has been the uncertain budget situation. He stated a complete overview of the various budget scenarios will be thoroughly reviewed during the discussion item portion of the meeting.
- The faculty constituency has recently suffered a great loss with the death of Mr. Alex Webster, a Math, Science and Engineering adjunct faculty member. Mr. Webster was found deceased in his home this past week. He served as the adjunct faculty representative for the Faculty Union, as well as the Academic Senate. The death of Mr. Webster is a tremendous loss to the campus community.
- An AVC technology outage is scheduled for the upcoming holiday weekend, February 18th – 21st. Mr. Valiotis reported he contacted Ms. Deb Wallace, Vice President of Administrative Services, to voice his concerns regarding performing a technology shut down during the semester. A big issue of concern is the potential adverse impact a temporary shut down will have on online courses and other services. Ms. Wallace indicated that the technology shut down is absolutely necessary due to a compromise of the technology system during the winter break. The district must make efforts to upgrade the technological system to secure it from future technological compromises. Mr. Valiotis reported he was informed that due to the compromise the campus has been placed on an email blacklist. All emails sent from AVC are flagged and will not be accepted by other higher educational institutions due to this system compromise. In efforts to be removed from this blacklist, a software upgrade must be performed, and in light of the long holiday weekend the additional time will provide ITS personnel the window needed to address any unforeseen technology glitches. In addition, Mr. Valiotis spoke with Ms. Kathryn Mergliano, ITS Computer Systems Manager, to obtain a clear understanding of the expected timeframe of interruption to Blackboard services. She reported Blackboard will be one of the first technological systems to be upgraded and with any technological shut down the downtime to perform these upgrades are unpredictable. ITS Staff optimistically expects all Blackboard software upgrades will be completed and operational by late Friday, February 18, 2011. The announced technology outage dates merely cover the complete shut down timeframe it will take to perform all upgrades and updates to technology systems on campus. It is most likely that a majority of technology services will be available prior to the end of the weekend.
- In light of the email system being compromised over the winter break, College Coordinating Council members have engaged in discussions regarding outsourcing AVC's email system. The issue of outsourcing AVC's email will be further discussed with the new Interim Director of ITS, as well as members of the Distance Education Committee to determine possible solutions.
- The Foundation for California Community Colleges is coordinating a statewide effort *Hands Across California*, "to create a unified statewide spectacle illustrating the impact of community colleges in the state, raise funds to move us as a system toward our \$100 million California Community Colleges Scholarship Endowment campaign goal, create vast public awareness of the value of our colleges to their communities, and generate unprecedented corporate partnerships, philanthropic investments, and community involvement supporting all our colleges statewide." This statewide event is scheduled for Sunday, April 17, 2011 and faculty are encouraged to participate to support the efforts of California Community Colleges.

- The terms of several Senate Representative's will expire at the end of the spring 2011 semester. Electronic notifications were distributed the first week of the spring semester requesting current representatives announce the vacancy and find replacements to begin a new two year term beginning fall 2011. Replacement names should be forwarded to Ms. Gloria Kastner no later than the March 3, 2011. This deadline date is necessary to allow sufficient time to begin the process of establishing the 2011 – 2012 Senate Executive Committee.

3. OPEN COMMENTS FROM THE PUBLIC

- Given the recent announcement of the Technology outage scheduled for the weekend, Senators expressed their concerns regarding the add authorization deadline established for Monday, February 21, 2011. If students are unable to access MyAVC to submit add authorization codes to enroll in courses by the deadline date due to technological outage, they should be possibly awarded additional time to submit add authorization codes. In addition, all campus constituencies should be notified how the outage will impact student's ability to submit add authorizations. If MyAVC technology services are made available prior to the expected deadline date students will at least have a short window of opportunity to submit add authorization codes to enroll in courses but should be notified to ensure they are aware of the necessity to continually check MyAVC to see if the system is operational.
- Ms. Sara Rothenberg, Associated Student Organization (ASO) Representative, announced the *Hearts and Hands* project. This project has been initiated to address the hunger needs of AVC students, as well as institute campus community and pride with making efforts to assist students in fulfilling their educational goals in spite of difficulties. Project applications can be found online on the ASO website. Students need to complete the application to be considered as a food assistance recipient. All approved applicants will receive food assistance twice a month. Distribution dates can also be found on the ASO website. ASO is seeking campus support with monetary and non-perishable food item donations. All monetary donations will be used to stock the established food pantry. A campus service project committee has been established and met several times over Intersession to coordinate project goals and outcomes. The service project committee is currently discussing the possibility of coordinating a fall clothing drive in addition to the current *Hearts and Hands* project. Senators were encourages to disseminate project information to division faculty and request that they consider supporting the *Hearts and Hands* project by either donating food items or offering a monetary donation of support.
- The Health Science Division Senate Representatives requested the possibility of engaging in a discussion regarding the current deadline date for online course enrollment. Currently, online course enrollment deadline date is the Friday prior to the beginning of the start of the semester, which does not allow faculty the opportunity to acquire solid student rosters until the morning of the first date of the semester. The Health Science Division Faculty find this deadline date difficult being that some have to establish student groups for courses and having to make last minute changes causes a lack of fluidity to course instruction. Currently, a faculty member cannot obtain a solid roster until midnight the Sunday prior to the start of the term and does not facilitate a smooth transition to the start of courses. Health Science Division faculty are requesting the deadline date for online course enrollment be opened for discussion and consider instituting a new deadline date of the Friday prior to the start of the term. This new proposed deadline date would allow faculty a minimum of two days prior to the start of the term to establish workgroups and other instructional decisions prior to the start of courses. Mr. Valiotis indicated he would contact Ms. LaDonna Trimble, Dean of Admission and Records, to inquire about the possibility of engaging in a discussion regarding this matter at a future Enrollment Management Committee meeting and Senate meeting in efforts to determine if establishing an earlier deadline date for online student enrollment is possible.
- Dr. Susan Lowry, AVFCT President, reported an email regarding current budgetary information was distributed to campus faculty in efforts to dispel inaccurate information or rumors being discussed on campus. The email included detailed information regarding the three expected budget scenarios, as well as budgetary figures. There are several inaccurate rumors floating around campus and is hopeful

the information included in the email will dispel all current budget and employment rumors. Senators were encouraged to inform constituent faculty about the email and the accurate budget information it contains to assure campus faculty. The current budget situation is still in a constant state of flux, and is still evolving. The district expects to be fiscally secure for the 2010 – 2011 academic year, but the future academic years are currently in question depending on the final state budget outcome. If faculty have any concerns or questions regarding the information detailed in the distributed email they should contact Dr. Susan Lowry for clarification.

4. APPROVAL OF MINUTES

a. December 2, 2010 (attachment)

A motion was made and seconded to approve the December 2, 2010 Academic Senate minutes. Motion carried as corrected.

5. REPORTS

a. Program Review – Carol Eastin

Ms. Carol Eastin reported most annual reports have been received. The following annual update reports have been received:

- Business, Computer Studies, and Economic Development
- EOPS (Extended Opportunity Programs and Services)
- Health Sciences/Child and Family Education/Child Development Center
- Social and Behavioral Sciences; STAR (Student Transition and Retention)
- Technical Education.

The two outstanding Annual Reports are:

- Human Resources
- Student Development.

Completed 2010 – 2011 Self Study Reports received are:

- Financial Aid Office
- The Palmdale Center

The following Self Study Reports are outstanding:

- Enrollment Services
- Institutional Research and Planning
- Instructional Resources and Extended Services
- Math, Science and Engineering
- Physical Education and Athletics.

Three of the Self Study Reports were due in October and have still not been received. Mr. Valiotis requested for Division Senate Representative in areas where outstanding Self Study Reports and/or Annual Reports are identified to go back to their respective divisions to determine the status of these documents. In addition, they were requested to contact Ms. Carol Eastin to summarize the progress of specific reports. All reports should be submitted expeditiously. Ms. Eastin reported eight different programs will be undergoing an orientation process this semester to orient each area/team member of the Self Study Report process for the 2011 – 2012 academic year. The areas/programs undergoing Program Review will be:

- Counseling
- Facilities Planning and Campus Development
- Information Technology Services
- Job Placement
- Language Arts
- Maintenance and Operations
- Outreach/Information and Welcome Center
- Visual and Performing Arts.

b. Tenure & Evaluation – Jennifer Gross

Ms. Jennifer Gross reported all 2nd and 4th year committees will have met with their respective Vice President's by March 1st, 2011. At the March Board of Trustees meeting all seventeen 4th year candidates will be recommended for tenure approval. There are only fourteen 2nd and 3rd year Tenure committees remaining out of seventy-six original tenure committees. Currently, all 3rd year committees are preparing for their 6th semester reports.

Ms. Gross provided the following update on the peer input process. There is an agreement on a new online process for peer input with the Office of Institutional Research and Planning, but she is currently awaiting word from ITS in efforts to move forward. Faculty seemed to be happy with the paper peer input process. Ultimately, there is a confidentiality issue with the paper process which is one of the reasons why it is necessary to reestablish an electronic process as soon as possible. An electronic peer input process is part of the Faculty Contract and any changes made must be negotiated and contract language must be revised. Even if it is necessary to return to the paper process temporarily, the contract language has to be changed and approved. Faculty seemed to respond more positively to submitting paper peer input evaluations, but given the current state of the budget it may not be a good time to be considering given the amount of paper the process would require. Mr. Valiotis indicated returning to a paper peer input process is an issue Senators should take back to division faculty for feedback. All division feedback will be collected at the March 3, 2011 Senate meeting.

The expansion of the Tenure Review Coordinator leadership duties is still being solidified by the Union and the District. Both sides agree on the substantive matters, but the language is under negotiations. In addition, due to the current dismal budget situation, there are funding issues which will have to be worked out. In closing, Ms. Gross reported she would be attending a Teacher Evaluation Conference the week of February 21st sponsored by AFT to help improve AVC's evaluation standards.

6. ACTION ITEM

a. Faculty Professional Development Chair – Kathryn Mitchell (3 yr term; 2010 – 2013)

A motion was made and seconded to approve Ms. Kathryn Mitchell as the Faculty Professional Development Chair for a three year term beginning fall 2010. Mr. Valiotis announced this action item has been placed on the agenda because there is not any documentation in Senate Executive Meeting Minutes or Senate Minutes indicated Ms. Mitchell was confirmed as the Faculty Professional Development Chair. The call was disseminated at the end of the spring 2010 semester and Ms. Mitchell was the only faculty interested in this leadership position. Mr. Valiotis reported he recalls engaging in discussions about this appointment with Senate Executive members but needs to establish documentation of her appointment approval in the minutes. Provided that Ms. Mitchell was the only faculty to submit an interest letter to serve as the Faculty Professional Development Program Chair the action item has been established to have documented minutes indicating the Senate body confirms the appointment of Ms. Mitchell as the Faculty Professional Development Chair. Motion carried.

b. Status of the GED

A motion was made and seconded to confirm the Academic Senate's position in support of keeping the GED courses on hiatus. Mr. Valiotis announced there is not any additional news in regards to GED courses. GED courses are not considered or identified as a college program. The courses as a whole are not self sustaining and being that this is not an established Chancellor's Office approved program the Discontinuance Procedure cannot be initiated. The Senate engaged in discussion regarding GED courses during the spring 2010 semester and agreed to revisit the possibility of reinstating courses if potential funding sources could be found. In light of the current budget situation, it is not feasible to reinstitute GED courses anytime in the foreseeable future. It was agreed that there is no finality in the decision to keep GED courses from the schedule. If in the future the budget allows it, then we can look into reinstating the GED courses. Motion carried.

c. Equivalencies:

- Economics (attachment)
A motion was made and seconded to approve the Economics discipline equivalency. Motion carried.
- Education (attachment)
A motion was made and seconded to approve the Education discipline equivalency. Motion carried.
- Physical Science (attachment)
A motion was made and seconded to approve the Physical Science discipline equivalency. Motion carried.
- Respiratory Care (attachment)
A motion was made and seconded to approve the Respiratory Care discipline equivalency. Motion carried.

7. DISCUSSION ITEM

a. College Budget Projections 2011 – 2015 (attachment)

Mr. Valiotis reported at the recent town hall meetings hosted by Dr. Jackie Fisher, Superintendent/President, and Ms. Deborah Wallace, Vice President of Administrative Services, three district budget scenarios were reviewed. Each scenario is dependent on current State budget information as well as taking into consideration the June tax extensions, and Proposition 98 funding or lack thereof (see District Budget Impact attachment). The Legislative Analyst Office (LAO) is projecting and recommending all community colleges prepare for budget scenario #2, which is what AVC is currently preparing for at this time. Given the nature of current budget information, it is difficult to even project what the ultimate outcome will have on AVC. The budget information changes daily. Current budgetary projections scenarios indicate approximately 1,200 to 3,300 students will not be served. In addition to the State budgetary information, on February 16, 2011 an LAO memo was leaked to the press reporting community colleges will ultimately face a one billion dollar deficit scenario. A public statement has been made confirming this new budget information which would ultimately be catastrophic to the entire community college system. Current budgetary information also indicates the Legislature is looking into workload reduction cuts to enable a reduction in FTES each community college would be responsible to obtain full apportionment funding. In years past, community colleges have always been able to serve more students with less money. Community colleges generally operate on 1/5 to 1/2 the budget apportionment CSUs receive to serve students.

Ms. Sara Rothenberg reported the Associate Study Body Organization will be forwarding a letter to local legislature detailing how the budget situation is adversely impacting students.

Dr. Susan Lowry indicated the problem with continually serving more students with less money is it gives the taxpayers the impression this type of service should be expected, and is ultimately taken for granted. In the end, there is an expectation of receiving more when everyone is stretched to the limit. Given the recent budgetary information faculty must remember there are state laws requiring 50% of district budgetary expenditures to be paid on instructional costs. Currently, the district is barely meeting this requirement, which is why faculty should not be panicking about possible layoffs. In addition, there is also a requirement for the district to maintain a 75%/25% full-time to adjunct faculty instruction ratio. Campus faculty should not contribute to rumors about potential faculty layoffs as the budget situation is clearly uncertain. There are so many different facets to take into consideration in determining the ultimate impact the State budget outcome may ultimately have on the district.

Mr. Valiotis indicated the agenda packet included some additional budgetary spreadsheets including district expenditures as well as a detailed report on the potential budgetary impact for the 2011 – 2012 budget year. He briefly reviewed the AVC's Board of Trustees (BOT) Guidelines to Mitigate

Proposed Budget Reductions beginning 2011 – 2012. The Board has softened their stance on these guidelines given the new budget information, although they are still not supportive of implementing furlough days. All campus constituencies are being requested to forward budget reduction suggestions. An additional attachment from the McCallum Group, Inc. was included in the agenda packet to review and recognize some of the actions the legislature is suggesting to mitigate budgetary issues. Below is an excerpt of the McCallum Group, Inc. report:

”While budget staff prefer to “keep it simple” and not make the \$400 million cut to community colleges effective through a census date change, they are looking at some of the Legislative Analyst Office (LAO) proposals that may be included in the solutions, particularly if a workload reduction is a part of the budget solution. Those include:

1. *Repeatability for PE and Certain Recreational Courses* – this proposal would limit the number of times most students could repeat “activity courses” which the LAO estimates could lead to \$60 million savings.
2. *100 Unit Limit* - this proposal would limit students to 100 state subsidized units saving the state approximately \$175 million.
3. *Prioritization of Students* – this proposal would set up statewide registration guidelines that districts would be required to follow. Under the recommendation, students fully matriculating would have higher priority for registration than would others.
4. *75/25 and 50% Law* – there have been some discussions regarding changes to the 50% law and FON, however, there is little consensus regarding what the changes would be. There is a proposal to provide limited flexibility on the 50% law that would exempt maintenance costs and added square footage when new facilities go online or when certain facilities are expanded.”

Mr. Valiotis pointed out given the current budget situation of the State there is nothing that is deemed sacred any longer. Everything is being reviewed and targeted as being part of the efforts to save money. The campus community needs to collectively think of means to mitigate expenses. No district budget reduction ideas will be considered too weird or small. At this point, the budget information is constantly changing but all efforts will be made to disseminate any new information to the campus.

b. Accreditation Standards Guide (attachment)

Mr. Valiotis reported the district was provided written notified of the Reaffirmation of Accreditation, which is great news. In efforts to prepare for future Accreditation cycles, Ms. Patricia Márquez organized pertinent campus documents used in the 2010 Accreditation Report into a user friendly guide for future Accreditation Coordinators. The Accreditation Standards Guide has been compiled in two forms: organized by pertinent documents listed in alphabetical order referencing standards where the documents were referenced; and organized by individual standards/substandards with documents included within that particular standard/substandard listed in alphabetical order. The document guide will be an incredibly helpful tool to assist and direct future Accreditation Coordinators/team members to the appropriate documented information needed to include in future Self Study Reports. Mr. Valiotis requested that if anyone recognizes any inadvertent omissions to the document guide to please contact Ms. Gloria Kastner so the information can be added. These document guides were created to establish a foundational understanding of the pertinent documents referenced in the Accreditation Report. All additional documents used in future reports can and should be included to maintain a current guide for future cycles.

c. Faculty Training in Identifying Potentially Dangerous Students (attachment)

In light of the recent attack on Rep. Gifford in Tuscon, Arizona, there has been increased discussion on campus regarding how to effectively prepare in recognizing potentially dangerous students, and whether a process of referral for help should be instituted. Mr. Valiotis discussed this matter with Mr. Shane Turner, Vice President of Human Resources and Employee Relations. Mr. Turner indicated there are training opportunities available from outside sources. Mr. Valiotis also discussed this matter

with Mr. Terry Cleveland, Director of Risk Management and Environmental Health. Mr. Cleveland indicated he would explore the possibilities of a workshop to identify potential problem personnel as early as possible, so that successful intervention can be accomplished before people are hurt. Mr. Valiotis reported he has sought the assistance of Counseling Services to see if they could possibly assist in coordinating an effort to train faculty in identifying potentially dangerous students. A lengthy discussion ensued on how to address the issue of identifying potentially dangerous students. It was proposed to research implementing a campus behavioral assessment team to organize workshops, trainings, and disseminate pertinent information on how to address various issues related to this issue. Mr. Valiotis indicated Dr. De'Neen Coleman-Carew is currently working on researching and collecting information on this issue and will forward acquired information to the College Coordinating Council. Currently, Pima College, located in Arizona, has an established behavioral assessment team/process, which happened to identify the perpetrator of the attack on Rep. Gifford as potentially dangerous. As a student he was referred to County Mental Health Services, but somehow slipped through the cracks.

Dr. Glenn Haller expressed his concern on trying to institute a campus process. He stated ultimately instituting a behavioral assessment process will turn into a big legal issue. Faculty may be given the authority to refer students to seek Counseling Services but cannot mandate it. Ultimately, as an instructor he/she must teach all students registered to their courses regardless of perceived or identified mental health issues.

Ms. Susan Knapp, Counselor, indicated in her years of experience the students needing personal Counseling Services are the last to seek it even though it is available.

Dr. Susan Lowry expressed her concern about faculty rights. When can a faculty deem these students as disruptive and refer them to the Vice President of Student Services? There seems to be a discrepancy of understanding the right of a faculty member to suspend or refer a student to the Vice President (VP) of Student Services Office for disciplinary action. It is not clear in how disciplinary actions are handled because in past incidents the Dean has handled disciplinary issues that arise, not the VP of Student Services. Are Deans allowed to intercede on behalf of the VP? And is this the appropriate procedure that should be taking place?

Mr. Michael Hancock indicated 50% of students seeking assistance through the Office of Students with Disability (OSD) are identified as having psychological disabilities. The percentage of student with psychological disabilities have increased significantly over the past two years and is not sure if it is due to the recession or if it is the overall trend across community colleges. Faculty must be made aware that many of these students with psychological issues will not be the ones acting out in courses and will not want to talk to faculty. Instead, these students will be talking to other students. Therefore the student body should also obtain training and made aware of how to identify signs of psychological instability. OSD cannot identify specific student accommodations but students are given a grey slip of paper to provide to the faculty indicating an accommodation is needed. Often times OSD students do not provide faculty accommodation slips and ultimately faculty aren't able to determine an accommodation is necessary until the student is failing or near failing the course. The purpose of the notifications is to allow faculty the opportunity to adequately prepare for accommodations. At San Jose City College it was a standard practice for a copy of all accommodation information slips of OSD students are forwarded to faculty, in cases where students did not provide the faculty a copy of the notification. This is not the standard practice at AVC, although faculty can contact the OSD to determine if any students enrolled in their courses require an accommodation.

Mr. Valiotis indicate he will request to discuss this matter further with members of College Coordinating Council (CCC) to determine if there is a need to develop a campus behavioral assessment team. He will provide the outcome of the discussion at future Senate meeting.

d. Substantive Change Report

Mr. Valiotis reported that AVC's Substantive Change Report for Accreditation is completed and has been emailed to the campus for review and feedback. This effort is in addition to the accreditation

report that we submitted last year. This report is required anytime 50% of a district's program is offered online. Also, the establishment of the Palmdale campus as a center requires a substantive change report to accreditation. AVC has several programs that offer more than 50% of their courses online. Ms. Patricia Márquez began the writing process of the report during the fall semester but was unable to bring this project to completion due to the necessity of needing to finalize course preparation work for spring courses abroad. The finalization of the report has been turned over to the current Accreditation Coordinator, Mr. Santi Tafarella. He will finalize the report and complete the process for submission to the Commission. Mr. Tafarella indicated the report has been finalized and is ready for distribution to the campus community for feedback. Mr. Valiotis requested Senators to inform division faculty of the expected distribution in the next week or so, and encourages them to provide feedback/input in the specific time period required.

8. SENATE ADMINISTRATIVE BUSINESS

a. Announcements

- 2011 Teaching Institute – February 25-26, 2011 - San Jose, CA
- 2011 Accreditation Institute – March 18-19, 2011 - Napa, CA
- 2011 Spring Plenary Session – April 14-16, 2011 - San Francisco, CA
- 2011 Faculty Leadership Institute – June 16-18, 2011 - Monterey, CA (TBC)
- 2011 Student Learning Outcomes Institute – July 13, 2011 - San Diego, CA
- 2011 Curriculum Institute – July 14-16, 2011 - San Diego, CA

b. Appointments

- Student Success & Equity Committee
 - Dorothy Williams – Basic Skills Rep. (2 year term)
A motion was made and seconded to approve Ms. Dorothy Williams as the Basic Skills Representative on the Student Success & Equity Committee. Motion carried.
- Sara Breshears – Adjunct Assistant Professor
A motion was made and seconded to approve the academic ranking of Adjunct Assistant Professor for Sara Breshears. Motion carried.

9. ADJOURNMENT

A motion was made and seconded to adjourn the February 17, 2011 Academic Senate Meeting at 4:28 p.m. Motion carried.

MEMBERS PRESENT		
Paul Ahad	Mike Pesses	Casey Scudmore
Ron Chapman	Berkeley Price	Ken Shafer
Mark Covert	Harish Rao	Justin Shores
Luis Echeverria	Terry Rezek	Elizabeth Sundberg
Glenn Haller	Van Rider	John Toth
Mike Hancock	Sandra Robinson	Christos Valiotis
Susan Knapp	Sara Rothenberg	Larry Veres
Kathy Moore	Alex Schroer	
GUEST PRESENT		MEMBERS ABSENT
Carol Eastin	Jennifer Gross	Jack Halliday

ANTELOPE VALLEY COLLEGE

ACADEMIC SENATE

Minimum Qualification and Equivalency Review Form

The discipline faculty in the Social and Behavioral Sciences division/area have reviewed the most current (2008) Minimum Qualifications for Faculty and Administrators in California Community Colleges for the following disciplines Economics.

The discipline faculty agree that: (Select only one)

- an equivalency for this discipline is not needed.** *The Minimum Qualifications for the designated discipline contains a broad range of degree requirements for all those who are prepared to teach within the discipline.*
- the current (within the last three years) Academic Senate approved equivalency does not need revision.** *The Minimum Qualification for the designated discipline has not changed.*
- the current (within the last three years) Academic Senate approved equivalency requires revision.** *The Minimum Qualifications for the designated discipline have changed (attach revised equivalency proposal for Senate review).*
- the current (within the last three years) Academic Senate approved equivalency requires revision.** *The approved equivalency is below the Education Code Section 87359 which requires individuals employed by the district to possess qualifications that are at least equivalent to the applicable Minimum Qualifications **or** no longer meets the criteria set forth by the AVC Academic Senate Equivalency Procedure and, therefore, needs revision (attach revised equivalency proposed for Senate review).*

District Budget Impact

Antelope Valley

Antelope Valley

Assuming June Tax Package is Approved

Source	Amount
State General Fund:	-\$4,067,000
Increased Student Fees:	\$1,118,000
Net Reduction:	-\$2,948,000

Lost Students:

- Antelope Valley: 1,227

If June Tax Package Fails and Prop. 98 is Funded at Minimum

Source	Amount
State General Fund:	-\$6,304,000
Increased Student Fees:	\$1,118,000
Net Reduction:	-\$5,185,000

Lost Students:

- Antelope Valley: 2,158

If June Tax Package Fails and Prop. 98 is Suspended

Source	Amount
State General Fund:	-\$9,150,000
Increased Student Fees:	\$1,118,000
Net Reduction:	-\$8,032,000

Lost Students:

- Antelope Valley: 3,338

Notes and Assumptions

- Each district's impact is calculated using Recalculation information from 2009-10.
- For the scenario "Assuming Governor's Budget is Approved," the projected cut is the district's proportionate share of a \$400 million reduction, with a net reduction calculated based on the district's proportionate share of \$110 million in statewide fee revenue.
- For the scenario "If June Tax Package Fails--Prop. 98 Funded at Minimum," the projected cut is the district's proportionate share of a \$620 million reduction, with a net reduction calculated based on the district's proportionate share of \$110 million in statewide fee revenue. The \$620 million assumes California Community Colleges Receive 11% of a Proposition 98 funding level \$2 billion below (\$47.3b) the governor's January 10 budget (\$49.3b).
- For the scenario "If June Tax Package--Prop. 98 Suspended," the projected cut is the district's proportionate share of a \$899 million reduction, which is apportsions 4.2% of the additional \$12 billion in cuts necessary to balance the budget, with a net reduction calculated based on the district's proportionate share of \$110 million in statewide fee revenue.
- In all cases, the student enrollment reduction assumes each college's share of the net funding cut on an average statewide weighted funding rate of credit, noncredit and noncredit-CDCP FTES.

Board of Trustees
Guidelines to Mitigate Proposed Budget
Reductions
Beginning 2011-2012

1. Deficit spend for the 2011-12 a.y. with maintaining an unrestricted reserve 10%
 - a. Anticipated 15% unrestricted reserve balance end of 2010-11
2. Maintain a 5 day work week
 - a. Summer intersession and winter intersession
3. No elimination of programs and services
 - a. Personnel assigned to Offices, Departments, and Areas will submit plans to reduce expenditures
 - b. President and Vice Presidents will collect plans and send to Board of Trustees for approval
4. Strong possibility of issuing March 15th to mitigate budget reduction
 - a. All Educational Administrators
 - b. CMS
 - c. No furloughs
 - d. Salary reduction (e.g., percent reduction, and/or freeze step and column)
 - e. Capping health benefits
5. Maintain compliance with 50% law
6. Maintain Full-Time Faculty Obligation Number (FON)
7. Classified employees
 - a. Must negotiate all agreements regarding compensation
8. Employee lay-offs as last step to mitigate budget reductions

All budget reduction plans are due to President and Vice Presidents by the end of February 2011.

SACRAMENTO REPORT **February 7, 2011**

IN THIS SACRAMENTO REPORT

- **Budget Update**
- **SB 1440 Implementation**
- **STRS Penalties and Interest**
- **Entrepreneur Support**
- **College Health**
- **Bills of Interest**

EXECUTIVE SUMMARY

- **Budget Update:** The Senate Budget Subcommittee #2 on Education met last week to focus on community college issues. The three-member committee was split on the administration's census date proposal with Senator Huff favoring the change, Senator Wright opposed and Senator Liu undecided. The good news is that the budget votes will take place with the entire committee chaired by Senator Leno and not within the Subcommittee. Due partly to the structure of the vote, the census proposal is almost 90% dead. The focus is now on the LAO proposals of prioritization and limiting repeatability and overall units should a workload reduction be included as a part of the overall budget solution. We are working with FACCC and the League to develop a template/manual for you to use to promote the June ballot measures in your free time, assuming that they are adopted as part of the budget plan (which is not a done deal). We continue to meet with members and staff in the capitol, but we also need you to be meeting with your representatives in the district, particularly those that have Republican representatives, and emphasize how important it is that the budget solution contains a balanced approach to bridging the gap.
- **SB 1440 Implementation:** We met with Senator Padilla's office last week to discuss SB 1440 implementation. There are concerns from students and from the Senator's staff regarding some of the classes being included in the transfer model curricula (TMC). The concern is that not many colleges offer some of the courses and with the Chancellor's Office only able to fast track approval of the TMC degrees, colleges would have to add courses while absorbing a \$400 million cut in order to be in compliance with the new law.
- **STRS Penalties and Interest:** The Teachers' Retirement Board will take up the second reading on the penalties and interest regulations. Among the changes made were pushing out the effective date of the regulations, the exclusion of any retroactive

pay increases, and additional time to report part-time work assignments. Additionally, the board will seek legislation to eliminate the \$500 penalty leaving the penalty as the regular interest that would have accrued.

- **Entrepreneur Support:** A new initiative from the American Association of Community Colleges being supported by the White House will provide resources to community colleges to assist in local business development. Ten pilot colleges were selected and they will look to develop and implement best practices and AACC hopes to expand the program so that other community colleges, particularly those in economically depressed areas, can provide necessary assistance for business development in their local communities.
- **College Mental Health:** A new UCLA study finds that while an increasing number of students are reporting a high drive to achieve, emotional health for first-year students is at an all-time low. The study finds that less than half of all women in the survey reported that their health was either in the "highest 10%" or "above average" while 59% of men reported their emotional health was at least above average.

BUDGET UPDATE

The Senate Budget Subcommittee number 2 on Education met last week and focused entirely on the proposed community college budget. Community college representatives argued that the colleges cannot serve more students with less funding as the administration proposes in their January budget.

It was clear from his comments during the hearing that Senator Huff supports changing the census date. Additionally, Senator Huff suggested increasing fees to \$40/unit rather than the proposed \$36. Senator Wright indicated opposition to the census date change. We understand that Senator Liu has not made up her mind, but is initially partial to vetting the issue through the SB 1143 task force of which she is a part. The good news is that the budget votes will not be taken in the subcommittee, but rather by the entire budget committee which is chaired by Senator Mark Leno who has indicated opposition to the census date proposal. So this is where we are:

- **Census Proposal:** The census proposal is about 90% dead. The recently released trailer bill language does not contain the census language and we do not see the votes on either budget committee to put it through.
- **Will the legislature pass a budget:** We understand that the legislature will put together a budget as opposed to just passing trailer bills as the Governor had requested.
- **What form will the budget take:** Senator Steinberg has asked the Legislative Analysts' Office to put together a "contingency budget" that assumes \$25 billion in cuts. However,

it is unclear if the budget passed will assume the revenues, or lay out all \$25 billion in cuts with the backfill should the tax extensions pass. That the tax extensions will make it to the ballot is still a sticking point as Republicans continue to say that they do not support placing the extension on the ballot. Those of you that have Republican members need to continue to meet with them and stress how important it is that this budget problem be solved through a balanced approach that includes the extension of the recent tax increases.

If they do build a \$25 billion cut budget, we have been working to ensure that the initial \$400 million cut to community colleges is accounted for in the next round and that the K-14 cut is proportional.

- Issues still outstanding: While budget staff prefers to "keep it simple" and not make the \$400 million cut to community colleges effective through a census date change, they are looking at some of the LAO proposals that may be included in the solutions, particularly if a workload reduction is a part of the budget solution. Those include:
1. *Repeatability for PE and Certain Recreational Courses* – this proposal would limit the number of times most students could repeat "activity courses" which the LAO estimates could lead to \$60 million savings.
 2. *100 Unit Limit* – this proposal would limit students to 100 state subsidized units saving the state approximately \$175 million.
 3. *Prioritization of Students* – this proposal would set up statewide registration guidelines that districts would be required to follow. Under the recommendation, students fully matriculating would have higher priority for registration than would others.
 4. *75/25 and 50% Law* – there have been some discussions regarding changes to the 50% law and FON, however, there is little consensus regarding what the changes would be. There is a proposal to provide limited flexibility on the 50% law that would exempt maintenance costs on added square footage when new facilities go online or when certain facilities are expanded.

Working for the Budget

While there is still no certainty that there will be a June election, we are preparing for it as we lobby Republican members on the need for a balanced approach to solving the budget. It will be a short campaign assuming the measures make it to the ballot and we are coordinating with John McDowell, President of FACCC, and Scott Lay, CEO of the League, who will be collaborating on a template/manual to go out to districts to provide guidance for your work in your off-time to promote the June ballot measures, assuming the tax extensions make it to the ballot. If you have any suggestions, let us know.

We are still in a full-court-press to get our message out. Please continue to make visits to your members' offices on Fridays; particularly those of you in Republican districts. At Least 5 republicans, two in the Assembly and three in the Senate, will need to vote to place the measures on the June ballot and the majority of them have taken "no tax" pledges. Please let

us know if you need help in setting these up and if you need talking points once the meetings are set up.

Budget Tools

The Faculty Association of California Community Colleges (FACCC) has a point and click letter writing campaign that makes it easy for you to express your opinion on the state budget. Visit their website at www.FACCC.org and find the "Point & Click/Online Letter Writing" section.

The *Sacramento Bee* has a tool on their website that lets you solve the state budget. Make a number of decisions on taxing and spending to fill the \$25 billion gap. Go to the *Bee's* website: <http://www.sacbee.com/2011/02/03/3281240/erase-californias-budget-deficit.html>

SB 1440 IMPLEMENTATION

The SB 1440 Implementation Task Force has completed three of the transfer model curricula (TMC) that have been developed in Communication Studies, Sociology, and Psychology. Three other areas of study are currently in the review phase. Those three areas are Math, Criminal Justice and Kinesiology. Due to the short timeline required to implement the bill, the model curricula are being left up for review for only a limited time.

We met with Senator Padilla's office last week and they were concerned with the implementation process. Their office is concerned, in looking at the first set of model curricula, that colleges will be able to offer all of the courses that are being required in each TMC. For example, one of the course requirements for Psychology is estimated to only be offered at about 50 colleges. Since the Chancellor's Office is only fast tracking approval for TMC degrees, this would mean that colleges would be forced to add courses while they are absorbing at least a \$400 million cut in order to be in compliance with the law.

Another issue with the implementation of the bill is that over half of the CSU campuses are impacted and those campuses believe that they are not subject to the requirements of the bill that SB 1440 degree students have priority over all other transfer students. The Senator may introduce legislation clarifying that SB 1440 transfer students only have priority at non-impacted campuses.

Adding to the issue of implementation are not only the cuts to community colleges, but the cuts to CSU. The proposed \$500 million cut to the State University system will certainly mean less students that CSU campuses are able to accept and could impact the ability of the system to take students once they have completed the SB 1440 requirements.

You can view the transfer model curriculum that have been developed as well as track the progress of others at the Course Identification Numbering System (C-ID) website [here](#).

STRS PENALTIES AND INTEREST

The California State Teachers' Retirement Board will meet this week and take up new regulations governing penalties and interest for late payments to the fund. The regulations that will be presented to the board have a number of changes from those that were presented for first reading in November of last year. In response to a number of concerns that we articulated and concerns that were voiced by the board at the November meeting, the regulations that will be presented this week will contain the following changes:

1. The effective date of the regulations will be pushed back to July 1, 2012.
2. No penalties or interest will be assessed for retroactive salary changes unless the monthly report is not received within 60 days of the change.
3. No penalties or interest will be assessed for late reporting or payment during the time that a workers' compensation claim is being reevaluated or when a salary adjustment is required by state or federal law.
4. All part-time work assignments will be provided with extra calendar days before the assessment of penalties.
5. The employer appeal process is clarified.

Staff will also see legislation to eliminate the \$500 penalty which was believed by many to be excessive. The only penalty under the new legislation would be the regular interest that would be assessed.

You can download the Penalties and Interest agenda item with the changes to the proposed regulations [here](#) and view the entire agenda at the STRS website [here](#).

ENTREPRENEUR SUPPORT

Ten community colleges, including one in California, will test a new initiative to provide online assistance to business entrepreneurs. The White House has also included the program in their "Startup America" initiative. The program is sponsored by the American Association of Community Colleges in collaboration with the National Association for Community College Entrepreneurship.

The program is intended to help increase the capacity for community colleges to assist their local business communities. The ten pilot colleges will look to develop and implement best practices and AACC hopes to expand the program so that other community colleges, particularly those in economically depressed areas, can replicate the program.

You can view more details on the program and the grants on the AACC website [here](#).

McCallum Group, Inc.
A Catalyst for Change

SB 184 (Steinberg) would require the Controller annually to allocate \$8,000,000 from the Energy Resources Program Account, upon appropriation by the Legislature, to the Superintendent of Public Instruction for expenditure in the form of grants to school districts to be allocated pursuant to the existing provisions for creating and maintaining partnership academies. The bill would require a grantee to implement or maintain a partnership academy that focuses on employment in clean technology businesses and renewable energy businesses and provides skilled workforces for the products and services for energy or water conservation, or both, renewable energy, pollution reduction, or other technologies.

SBX1 1 (Steinberg) would require the Controller annually to allocate \$8,000,000 from the Energy Resources Program Account, upon appropriation by the Legislature, to the Superintendent of Public Instruction for expenditure in the form of grants to school districts to be allocated pursuant to the existing provisions for creating and maintaining partnership academies. The bill would require a grantee to implement or maintain a partnership academy that focuses on employment in clean technology businesses and renewable energy businesses and provides skilled workforces for the products and services for energy or water conservation, or both, renewable energy, pollution reduction, or other technologies.

REPORT OF THE JANUARY 11-13, 2011 COMMISSION MEETING

At its meeting, January 11-13, 2011, the Accrediting Commission for Community and Junior Colleges, Western Association of Schools and Colleges, took the following institutional actions:

Reaffirmed Accreditation on the Basis of a Comprehensive Evaluation

Antelope Valley College
College of Marin
Moorpark College
Mt. San Antonio College
San Diego City College
San Diego Mesa College

Placed on Warning on the Basis of a Comprehensive Evaluation

Evergreen Valley College
Irvine Valley College
Oxnard College
Saddleback College
San Diego Miramar
Ventura College

Placed on Probation on the Basis of a Comprehensive Evaluation

San Jose City College

Continued on Show Cause on the Basis of a Show Cause Report

Northern Marianas College

Removed from Warning and Reaffirmed Accreditation on the Basis of a Follow-Up Report with Visit

American Samoa Community College
Feather River College
Pasadena City College

Removed from Warning on the Basis of a Follow-Up Report

Riverside City College

Removed from Probation and Reaffirmed Accreditation on the Basis of a Follow-Up Report with Visit

Crafton Hills College
Diablo Valley College

Removed from Probation on the Basis of a Follow-Up Report with Visit

Solano Community College

Continued on Warning on the Basis of a Follow-Up Report with Visit

Taft College

Continued on Probation on the Basis of a Follow-Up Report with Visit

Cuesta College
Southwestern College

Follow-Up Report

Butte College
Chabot College
College of Alameda
College of the Redwoods
Contra Costa College
DeAnza College
El Camino College
Folsom Lake College
Foothill College
Las Positas College
Los Medanos College
Los Angeles County College of Nursing and Allied Health
Merritt College
Moreno Valley College
Mt. San Jacinto College
Norco College
Palo Verde College
Rio Hondo College
San Bernardino Valley College
Santa Ana College
Santa Monica College
Santiago Canyon College

Midterm Report

Cabrillo College
Cañada College
College of San Mateo
Cuyamaca College
Grossmont College
MTI College
Sierra College
Skyline College
The Salvation Army College for Officer Training at Crestmont

Closure Report

National Polytechnic College of Science
Northern Marianas College

Continued on Probation on the Basis of a District Report with Visit

Berkeley City College
College of Alameda
Laney College
Merritt College

**ANTELOPE VALLEY COLLEGE
Accreditation Standards
Guide**

This guide provides assistance in identifying the AVC documents that offer evidence useful in demonstrating to all campus constituents how effectively the standards are being addressed. The evidence is identified as it relates to each of the accreditation standards. For each standard under review, other documentation (evidence) that the college has created and used should be included as accreditation reports are being developed by the campus community.

Standard I: Institutional Mission and Effectiveness
The institution demonstrates strong commitment to a mission that emphasizes achievement of student learning and to communicating the mission internally and externally. The institution uses analyses of quantitative and qualitative data and analysis in an ongoing and systematic cycle of evaluation, integrated planning, implementation, and re-evaluation to verify and improve the effectiveness by which the mission is accomplished.

I.A Mission
The institution has a statement of mission that defines the institution's broad educational purposes, its intended student population, and its commitment to achieving student learning.

I.B Improving Institutional Effectiveness
The institution demonstrates a conscious effort to produce and support student learning, measures that learning, assesses how well learning is occurring, and makes changes to improve student learning. The institution also organizes its key processes and allocates its resources to effectively support student learning. The institution demonstrates its effectiveness by providing 1) evidence of the achievement of student learning outcomes and 2) evidence of institution and program performance. The institution uses ongoing and systematic evaluation and planning to refine its key processes and improve student learning.

Standard II: Student Learning Programs and Services

The institution offers high-quality instructional programs, student support services, and library and learning support services that facilitate and demonstrate the achievement of stated student learning outcomes. The institution provides an environment that supports learning, enhances student understanding and appreciation of diversity, and encourages personal and civic responsibility as well as intellectual, aesthetic, and personal development for all of its students.

II.A Instructional Programs

The institution offers high-quality instructional programs in recognized and emerging fields of study that culminate in identified student outcomes leading to degrees, certificates, employment, or transfer to other higher education institutions or programs consistent with its mission. Instructional programs are systematically assessed in order to assure currency, improve teaching and learning strategies, and achieve stated student learning outcomes. The provisions of this standard are broadly applicable to all instructional activities offered in the name of the institution.

II.A.1 The institution demonstrates that all instructional programs, regardless of location or means of delivery, address and meet the mission of the institution and uphold its integrity.

II.A.8 Institutions offering curricula in foreign locations to students other than U.S. nationals operate in conformity with standards and applicable commission policies.

II.B Student Support Services
The institution recruits and admits diverse students who are able to benefit from its programs, consistent with its mission. Student support services address the identified needs of students and enhance a supportive learning environment. The entire student pathway through the institutional experience is characterized by a concern for student access, progress, learning, and success. The institution systematically assesses student support services using student learning outcomes, faculty and staff input, and other appropriate measures in order to improve the effectiveness of these services.

II.C Library and Learning Support Services
Library and other learning support services for students are sufficient to support the institution’s instructional programs and intellectual, aesthetic, and cultural activities in whatever format and wherever they are offered. Such services include library services and collections, tutoring, learning centers, computer laboratories, and learning technology development and training. The institution provides access and training to students so that library and other learning support services may be used effectively and efficiently. The institution systematically assesses these services using student learning outcomes, faculty input, and other appropriate measures in order to improve the effectiveness of the services.

II.C.1 The institution supports the quality of its instructional programs by providing library and other learning support services that are sufficient in quantity, currency, depth, and variety to facilitate educational offerings, regardless of location or means of delivery.

Standard III: Resources

The institution effectively uses its human, physical, technology, and financial resources to achieve its broad educational purposes, including stated student learning outcomes, and to improve institutional effectiveness.

III.A Human Resources
The institution employs qualified personnel to support student learning programs and services wherever offered and by whatever means delivered, and to improve institutional effectiveness. Personnel are treated equitably, are evaluated regularly and systematically, and are provided opportunities for professional development. Consistent with its mission, the institution demonstrates its commitment to the significant educational role played by persons of diverse backgrounds by making positive efforts to encourage such diversity. Human resource planning is integrated with institutional planning.

III.A.1 The institution assures the integrity and quality of its programs and services by employing personnel who are qualified by appropriate education, training, and experience to provide and support these programs and services.

III.A.1.a Criteria, qualifications, and procedures for selection of personnel are clearly and publicly stated. Job descriptions are directly related to institutional mission and goals and accurately reflect position duties, responsibilities, and authority. Criteria for selection of faculty include knowledge of the subject matter or service to be performed (as determined by individuals with discipline expertise), effective teaching, scholarly activities, and potential to contribute to the mission of the institution. Institutional faculty play a significant role in selection of new faculty. Degrees held by faculty and administrators are from institutions accredited by recognized U.S. accrediting agencies. Degrees from non-U.S. institutions are recognized only if equivalence has been established.

Standard IV: Leadership and Governance

The institution recognizes and utilizes the contributions of leadership throughout the organization for continuous improvement of the institution. Governance roles are designed to facilitate decisions that support student learning programs and services and improve institutional effectiveness, while acknowledging the designated responsibilities of the governing board and the chief administrator.

IV.A Decision-Making Roles and Processes

The institution recognizes that ethical and effective leadership throughout the organization enables the institution to identify institutional values, set and achieve goals, learn, and improve.

Accreditation Standards

CC: dcoleman@avc.edu

Dear Roz--

The online simulated training mentioned in the LA Times article is called "At-Risk" and was created by a New York based company called Kognito (www.kognito.com/atrisk/) . I encourage you to contact them directly so you can demo the product. Our Crisis Prevention Team at SMC piloted it last spring and purchased 100 licenses this fall and another 100 licenses this spring. We are currently rolling it out to Dept Chairs and Program Leaders with the hope of rolling it out to the entire campus next year if funding permits. It takes 45 minutes to complete and our faculty and staff love it. It is educational, informative and fun.

For more information, please contact Doug Birmingham at doug@kognito.com <<mailto:doug@kognito.com>> .

Good luck and please let me know if you have other questions.

Sincerely,

Brenda
.....

Students' rights weighed as colleges try to assess threats

Updated 1/14/2011 10:54 AM

By Mary Beth Marklein, USA TODAY

By Shaun Tandon, AFP/Getty Images

A sign welcomes visitors to Pima Community College, where Jared Loughner, the alleged Tucson gunman, attended.

A growing majority of colleges nationwide are keeping tabs on students through "threat assessment teams" charged with identifying dangerous students, causing debate to erupt over how much power the schools should have as they try to flag disturbing behavior.

Two states — Virginia and Illinois — now legally require such teams and 80% of colleges nationwide have started them since the 2007 massacre at Virginia Tech that left 32 people dead. At Pima Community College in Arizona, a Behavior Assessment Committee identified alleged gunman Jared Loughner as a person of concern months before a weekend massacre that killed six and injured 13 others, and the school suspended him.

Questions are now being raised about the appropriateness and effectiveness of the teams. In the wake of the Arizona shooting, some experts are

questioning whether the school could have done more to help Loughner, or to alert authorities beyond campus borders. "There's a dangerous person put out in the community," says Stetson University College of Law professor Peter Lake.

TROUBLED STUDENTS: Second-guessing red flags in Tucson

INVESTIGATION: Authorities look over black bag

FUNERAL: Thousands gather to remember Christina-Taylor Green

DOCTORS: Giffords' moving of legs is major leap in recovery

COPING: Arizona shooting survivors may face emotional trauma

Other critics say administrators may try to use threat assessment teams for their own purposes. In a case involving a student dismissed from Valdosta State University, a federal judge ruled that the former president improperly called for an investigation into the student's mental health, employment and grades mostly because the student opposed plans to build a campus parking garage.

Since April 2007, news reports show that at least 67 people have been killed and 69 others injured in attacks by U.S. college students.

Threat assessment teams, also given softer names such as "behavioral intervention" or "student of concern" committees, spread quickly after the Virginia Tech tragedy, where various officials each

Advertisement

Print Powered By FormatDynamics

noticed red flags but didn't connect the dots in time to stop Seung Hui Cho from going on a rampage.

Nobody tracked threat assessment teams before 2007, but experts such as Brett Sokolow, past president of the National Behavior Intervention Team Association, say about 20 colleges had them before Virginia Tech. The association estimates about 1,600 campuses have them today.

United Educators, which insures 1,160 schools and colleges, recommends such teams as a way to identify students who may pose a risk on campus, gather information to assess the situation, and determine whether there is need for an intervention. That could involve, for example, an evaluation for disability services, a referral for medical treatment, a call to parents or suspension.

Students, faculty and staff are encouraged to submit confidential reports detailing concerns about behaviors they've seen. The reports go to a committee, which meets regularly to discuss cases and intervene when necessary.

"We try to look at each case objectively, to see whether we're dealing with a goofy, immature kid, or someone who's truly a danger," says Patricia Lunt, head of Campus Assessment, Response and Evaluation (CARE) Teams at Northern Virginia Community College, which enrolls 78,000 students.

Last year, the first year the school began tracking students, 130 reports were submitted, about half involving "concerning" behaviors such as verbal threats, erratic or disrespectful behavior or talk of suicide. Fewer than five students were dismissed, Lunt said.

Pima Community College, which suspended Loughner and steered him toward mental health treatment, has been praised for following standard policies. "The school did what they were supposed to do, which is protect their school, require an evaluation," says Brian Van Brunt, president of the American College Counseling Association and director of counseling at Western Kentucky University.

Some mental health officials argue that suspension is inappropriate. "The fear is that rather than using (teams) as a vehicle to support students, they're using them as a vehicle to get rid of them," says Karen Bower, senior staff attorney at Bazelon Center for Mental Health Law, an advocate for mentally ill people.

"Colleges are in a unique position to engage students and work with them, support them to get them the help they need ... They are in an environment where people can reach out and make a difference." She says the existence of threat assessment teams might discourage students from getting the help they need.

Students' rights groups say administrators are infringing on students' free-speech rights. "Putting innocent outbursts into a campus database is a chilling way to police discourse on campus," says Adam Kissel, vice president of the Foundation for Individual Rights in Education. "In the name of security, behavioral intervention teams are encouraged to go far beyond what they need to do."

Advocates acknowledge colleges face complicated decisions.

"No one wants to be the college who fails to react. But no one wants to be the college that overreacts," Sokolow says. "The key is do due diligence."

The Potentially Dangerous Student

* **Learn how to identify and separate them from just a prankster.**

Let's Stop the violence!
 See how KEYS can help!!

"School Shooting Map"

The title of this article is disgusting. No one should ever have to consider their students as "dangerous." However, that is where we are in our society.

Some refuse to believe it and rely on "it will never happen in my school" philosophy [Erfurt, Germany]. Fortunately, most of these officials are right. Most schools will never experience the horror of Paducah, Jonesboro or Columbine. Many other school officials have decided that playing the odds belongs in a casino, not in a school, and have taken proactive steps in trying to identify which kid will be the next shooter. This too, can be a perilous course with dire consequences for certain students caught up in the frenzy.

Any student who wears a trench coat. Any student who listens to Punk, Thrash, Gothic, etc. Any student who plays video games. This list goes on. These are well meaning policy statements, but they are statistics out of context. All students are a mosaic of different features, characteristics and backgrounds. To truly see a student, it is important to see the whole picture. Focusing on a single tile in the mosaic has caused pain and embarrassment to schools, students and families.

The infamous "Zero Tolerance" approach has probably caused far more problems than it has averted. An attorney (Mr. Whitehead) said, "zero-tolerance policies are flawed because they do not take into account children's intentions and often result in school officials suspending a child before telling the parents about the problem." A number of controversial cases of children being suspended and expelled for childhood pranks and little discretion as to what is considered a real school threat versus child's play have brought national attention to school discipline and zero-tolerance policies in America's schools. [Assessment Instrument helps determine Prank from Potentially Dangerous Student - Learn More]

"Zero Tolerance" Policies were born out of the frustration of not knowing what to do.

[Disclaimer](#)

The table below points up some the over-reactions recorded in the media.

- An 8-year-old boy in Ark., was suspended for three days after pointing a breaded chicken finger at a teacher and saying, "Pow, pow, pow."
- The Colorado Springs school district suspended a 6 year old boy 1/2 day for giving another child a lemon drop candy. The child was disciplined under the school's "zero-tolerance" drug policy for "distributing" the candy to another person. Answering public criticism, a school official pointed out that bringing candy to school was as disruptive as bringing a gun.
- Two second-grade students in New York, who were suspended and criminally charged with making terrorist threats for pointing paper guns and saying, "I'm going to kill you." The criminal charges were dropped.
- Four kindergartners in New Jersey, who were suspended for three days after they pretended their fingers were guns and said they wanted to shoot one another.
- Cape Central High School today suspended 253 students who drove their cars to school. "We have a strict policy against any student who brings a weapon that can cause harm, injury, or disruption," explained Assistant Principal Herman Stasi. "An automobile is the most dangerous weapon a person can legally own. It's time we put a stop to this deadly menace."
- A five-year-old found a razor blade at the bus stop and turned it in to his teacher. He was suspended for having a weapon at school.
- A six-year-old kissed a classmate and was suspended for sexual harassment.
- A nine year old found a manicure set on his way to school. He was suspended for having a weapon.
- A sixth grader came to school with a small knife in her lunch box for cutting chicken. She went straight to the teacher and asked if that was OK. She was arrested and taken from school in a Police car, then suspended.

If it does not work to focus on a single facet, then what are we to do? Obviously, the answer is to look at the whole student, but that takes a psychological assessment and the time and cost are too great for the average school to bear. What is needed is a simple set of observable characteristics and a method for school personnel to record and rate these observations. Multiple governmental agencies have developed lists from exhaustive research into the school shootings of the past 10 – 15 years and have identified a number of common traits. Unfortunately, each of these reports are as exhausting to read as they were to compile. Any attempt to use them without further refinement has left teachers and administrators frustrated at the effort. "Zero Tolerance" Policies were

born out of this frustration.

The basic idea is good: "If a student is violent, quick to anger, from a broken home, listens to hard core music, plays violent video games, is an outcast, and the victim of bullying, he or she may be a P.D.S. (*potentially dangerous student*)." In practice, the problem becomes apparent when confronted with real kids who have varying degrees of such characteristics, or perhaps do not have some at all, or perhaps only experienced a particular trait one time. What effect would these variables have? Are all students then potentially dangerous? If classroom teachers become aware of these traits in a student, will that student ever again be treated fairly?

The good news is that there is a three-tiered program to help schools identify the **Potentially Dangerous Student** and to differentiate between dangerous students and the pranksters. This program, developed and taught by *Keys To Safer Schools.com* gives schools a method to observe, assess and get help for students who are following a path similar to that followed by school shooters. The heart of the program involves a simplified list of observable traits and characteristics gleaned from the multitude of well-researched national reports.

- **TIER ONE** - The first tier in the program involves familiarizing the entire school staff with these characteristics and teaching them to be aware of and how to report their observations. The approach taken by *Keys To Safer Schools.com* does not add any additional burden or paperwork to the seriously overworked classroom teacher. It is important that schools include the entire staff in this process. Too often, schools reserve such training for the teaching or professional staff. It is important that support staff, Bus Drivers, Custodians, Maintenance, Food Service, Nurses, Aides, Volunteers and even involved parents, are included. These staff see all the students but in an entirely different relationship from the classroom and administrative staff. The instructional portion is essential. Without it, the staff will read the list of characteristics and flood the **Assessment Team** with reports on every student in school. The instruction, usually an in-service training, presents the characteristics but informs the staff how to observe in context and in developmental settings. What may be appropriate for a 3rd grader is reportable if seen in a 7th grader. What may be acceptable during a competition in the gym is not acceptable in the classroom. Not every single-parent home is a "broken" home. Once the staff is familiar with these characteristics, what do they do about it?
- **TIER TWO** - The second tier of this program is establishing and training an **Assessment Team**. Each school district should identify 3 or 4 personnel from each school to form Assessment Teams. These numbers are not required for collaboration as a single, trained individual can perform an assessment. The numbers are to insure the ability of any staff member to reach a qualified Assessment Team person without undue delays for meetings, conferences and such. The Assessment Team is trained in the use of a *unique one-page Assessment Instrument*. Each of the

CONTACT WebMaster

characteristics is presented in detail and variations. It is then ranked on a lacquered scale for severity or number of occurrences. These are summed and applied to an overall rating that tells the school if the student is in need of intervention immediately or should they continue to watch and observe. There is also a sample decision tree for the school to use in developing their own. A decision tree is important because it frees the administration from personal involvement with every case and allows the Assessment Team to put solutions into motion without having to wait until they can confer with the administration. When the training is completed, each Assessment Team member present is awarded **Certification** that is valid for two years. An abbreviated refresher training is required every two years to maintain Certification and stay current with trends and developments. The school is awarded a **license** to reproduce the Assessment Instrument without the added cost of having to purchase the copyrighted form. Schools that have this in place report great success with the added benefit of having an objective tool to record why disciplinary actions varied from one student to another. Another very important part of TIER THREE which is cover else where is the "First Responders".

- **TIER THREE** - The third element of the **Potentially Dangerous Student** program is entire student body. In every one of the school shootings, other students knew about it to some degree but either told no one or were ignored if they did report. The *Keys To Safer Schools.com* student assembly, **Kids are the Keys**, presents the concept to the students that they are responsible for what happens at their school. In many instances, it is a new concept for the students feel any ownership of their school. Many students think that telling an adult about what another kid is doing is "narcing" or tattling. This interactive Assembly introducing them to responsible reporting as good citizenship. The **Keys To Safer Schools.com** staff meets with the school staff before the assembly to map out ways in which the students can report with fear of reprisal. These methods are then presented to the students and the school follows through with drop boxes, voice mail, anonymous email or whatever system the school chooses.

* **SEE - THE ASSESSMENT MODEL** for determining the PDS

The biggest disappointment reported is that the schools were hoping to gain a "predictor of violence." The *Keys To Safer Schools.com* program does not do that. However, every school that has adopted this program reports being satisfied. It has help schools identify students who are in need help or they could become a Potentially Dangerous Student.

Once again we ask ourselves, "Have we done all that we can to insure the safety of our schools?" *Keys To Safer Schools.com* is making a special offer to any school to review your crisis planning and provide a written critique of any shortcomings found. To take advantage of this offer, mail your school's Crisis Plan and supporting documents to:

The "NATIONAL SCHOOL SAFETY CENTER"

warns that

children showing two, possibly three or more of these traits may become predisposed to violence.

1. Has tantrums and uncontrollable angry outbursts.
2. Has been truant, suspended or expelled from school.
3. Has little or no supervision and support from parents or a caring adult.
4. Prefers reading materials dealing with violent themes, rituals and abuse.
5. Characteristically resorts to name calling, cursing or abusive language.
6. Habitually makes violent threats when angry.
7. Has previously brought a weapon to school.
8. Has a background of serious disciplinary problems.
9. Has a background of drug, alcohol or other substance abuse or dependency.
10. Has few or no close friends.
11. Is preoccupied with weapons, explosives or other incendiary devices.
