

Peer Review Report for Student Development and Services

Date: 10/14/14

Assessment of Comprehensive Self-Study Report

 X The self-study presents adequate program information; analysis of data measures is provided; narrative information is provided and addresses the criteria; conclusions, goals/objectives, planning and recommendations relate to the analysis of data, strategic goals, EMP planning, institutional learning outcomes and district mission.

Comments about the self-study report

Throughout the report there were excellent examples of tracking data.

It is impressive that 425 students responded to the 2013 Student Development survey. Please continue to seek student input through surveys or other means.

Congratulations on the 100 percent pass rate of SOAR students on the California High School Exit Exam and having the highest API score in the Antelope Valley.

Thank you for discussing OO findings and noting areas that need continued work.

Current goals are more like a list of resource needs than program goals. In future years please work on developing goals that focus on improving student services, opportunities and experiences.

The 2013-2014 Student Development and Services self-study report has been reviewed and accepted by the Program Review Committee.
