

## Program Description

Our German program provides students with a foundation needed to be able to communicate effectively. Students in our German program develop reading, writing, and speaking skills as well as aural comprehension. Additionally, students will gain an acquaintance with the literature, history, and culture of German speaking countries, demonstrate cultural knowledge, and use technology to develop language and cultural competence. All courses in German are transfer-level. German is adapted to careers in international business or trade, telecommunications, fashion, the gourmet food industry, medical research, international law, diplomacy and the foreign service, aerospace technology and careers in the arts and humanities.
