Definition
Reading involves the interpretation of the meaning of written material. Critical reading and thinking skills are crucial for the development of the educated person and for success in college. Additionally, most forms of employment require the ability to read; an individual needs to be able to evaluate many written materials encountered in today’s society.

Distinctive Features
Students enrolled in the reading improvement courses are pre-tested to ensure their placement at the level best suited to their abilities and needs. Individualized plans are developed for all students in the reading improvement courses (READ 095 and 099) to maximize student success. At the end of the Reading courses, post-tests are given to assess growth and to measure the student’s readiness to proceed to the next level of the instructional sequence.

Certificate Program
