# HONORS TRANSFER ALLIANCE PROGRAM (TAP) GRADUATES

## *Honors Scholars*

The Honors Transfer Alliance Program (TAP) is a tailored initiative aimed at high-achieving and self-driven students who meet specific admission criteria. Honors TAP provides a valuable opportunity for these students to elevate their academic performance and readiness for transfer by engaging in challenging honors courses.

Historically, participants in the honors program have shown remarkable success, frequently taking on leadership positions within both the campus and the broader community. This success can be attributed to their inherent motivation, the supportive collaborative learning environments, and the mentorship provided by honors professors, educators, and fellow students.

Notably, while traditional transfer students encounter admission rates below 40% at local colleges and universities, AVC students who complete the Honors TAP enjoy an impressive acceptance rate of over 90%. Those who meet program requirements—completing five honors courses, maintaining a cumulative GPA of 3.0 or higher, and finishing transfer major preparatory courses—are awarded the esteemed Honors TAP Certificate of Completion.

# ALPHA IOTA CHAPTER OF ALPHA GAMMA SIGMA

The California Community College System provides students with the opportunity to join the Alpha Gamma Sigma Honor Society. High school graduates can apply for temporary membership right after graduation. AVC's local chapter, Alpha Iota, operates as a campus club. Students are welcome to join at any stage of their college journey, provided they maintain a minimum GPA of 3.0 and remain in good standing.

The club organizes various events and holds regular meetings, offering experiences in fundraising, community service, club activities, and campus involvement. Additionally, students are encouraged to participate in AGS conventions and conferences. The club elects its own officers, follows a constitution and bylaws, and recommends members for AGS scholarships, including the Ed Walsh Award for exceptional community service and the Kathleen D. Loly Scholarship for remarkable academics.

Furthermore, each spring, the scholarship committee may award cash prizes to students recognized for outstanding service to the club, high cumulative GPAs, or honor roll achievements. The ultimate accolade within the organization is the attainment of permanent membership, which is granted to both active and inactive members and celebrated at this Honors Convocation.
