ABOUT THE HONORS PROGRAM

The Honors Transfer Alliance Program (TAP) offers the opportunity for priority admission to many major universities throughout the state. A seminar-like atmosphere stems from the small class size (maximum of 21), leading to lively discussions between students and professors.

Students are encouraged to work closely with faculty to pursue creative and/or independent projects. The program also stresses writing, research and critical thinking skills. The course offerings are designed to facilitate transfer to a four-year university and we offer the services of Honors Counselors (General Counseling) to assist students in planning their courses.

BENEFITS

Priority consideration for admission to University of California Los Angeles (UCLA), University of California Irvine (UCI), University of California Riverside (UCR), Whittier, Pomona College, Pitzer College, Occidental College, and Chapman University upon certification as an Honors Transfer Program (TAP) graduate is a benefit of the honors program.

- Special recognition at graduation
- Special recognition of honors courses on your transcript
- Small seminar classes
- Close interaction with honors faculty
- Motivated peers
- Assistance of the Honors Counselors
- Honors Scholar notation on AVC transcript (upon graduation)

While fewer than 55% of standard transfer applicants are accepted to the UC system, the majority of honors transfer students are accepted at universities and colleges inside the alliance.
