

What can I do with this major: Electrical Technology

The Electrical Technology Program is approved by the State of California's Electrical Certificate Curriculum Committee. This program is intended to provide hands-on experience, skills, and knowledge necessary to install, maintain and troubleshoot a variety of electrical systems in residential, commercial, and industrial electrical settings in compliance with National Electric Code. Upon enrollment in the courses, students will be able to apply for their State Electrical Trainee number. Upon completion of the certificate, students will be eligible to take the California State Electrical Journeyman's exam. All courses offered in this program satisfy the recertification educational hours for journeyman electricians.
