

What Can I Do with This Major?

Automotive Technology

The Automotive Technology program is designed to provide students with hands-on instruction, knowledge, and skills in automotive technology. The program provides instruction in the skills, technical knowledge, and related trade information which will prepare the student for employment. Class offerings allow students with any experience level the opportunity to prepare for entry into the automotive industry. The two-year program is offered in four major sections: engine, electrical, fuel, and chassis.
