

What Can I Do with This Major?

Vocational Nursing

Nursing is an art and science incorporating knowledge from behavioral, biological, and physical sciences. It is based on the holistic concept of health in which the physical, emotional, psychological, intellectual, social, and spiritual aspects of human functioning are interrelated, interdependent, and of equal importance. Vocational Nursing is a career that provides exciting and challenging opportunities in health care agencies. The program prepares graduates to work in convalescent homes and clinics under the direction of registered nurses and physicians.
