

MLA Works Cited Page: Listing EBSCO Sources

1. Alphabetize entries in a Works Cited list by author's last name or by first word of the title (other than *a*, *an*, *the*) for a work without an author.
2. Double-space between lines.
3. Indent second and subsequent lines of each entry 5 spaces.
4. Use italics, capitalization, quotation marks, and other punctuation within lines as shown. For dates, use this order: day, month, year. Use standard abbreviations for months.
5. Give beginning and ending page numbers for each article. When pagination is not continuous, type the first page number and a plus sign. If page numbers are not available, leave them out.
6. Include the name of the database but not the company (Ebsco Discovery Services). Also include the DOI (digital object identifier) or permalink if available; otherwise, use the database URL.

TEMPLATE

[Author's Last Name, First Name]. "[Article Title]." *[Title of Journal]*, [volume and issue numbers],
[Date of Publication], [page number(s)]. *[Name of Database]*, [DOI or permalink if available;
database URL if not].
